*X'se tagħmel bihom issa li diegħel l-euro?*

Iżzomm flus id-dar aktar milli għandek bżonn għall-htigijiet ta' kuljum?

Għandek karti tal-liri jew muniti miżmuma jew mohbija 'l hawn u 'l hemm?

Għax ma tibdiex minn issa tiddepożita fil-banek il-flus żejda li għandek. Barra li taqla' l-imghax dawn jinqalbu awtomatikament mad-dhul ta' l-euro fl-1 ta' Jannar 2008 - minghajr spejjeż u inkonvenjent għalik.

Għalhekk taqlibx flus Maltin f'euro minn issa u tissugrax issarraff mill-idejn.

# Excess cash at home?

*What will you be doing in view of euro adoption?*

Do you keep cash at home in excess of your everyday needs?

Do you have Maltese lira notes and coins hoarded or stashed away here and there?

Why not start depositing your extra cash with the banks? Apart from earning interest, it will be converted automatically upon euro adoption on 1 January 2008 - without any cost or inconvenience to you.

Do not convert Maltese liri into euro as yet and never exchange money from unauthorised sources.
