ANNEX 15: ACCEPTANCE OF ADDITIONAL CREDIT CLAIMS UNDER THE ADDITIONAL CREDIT CLAIMS FRAMEWORK	306

DIRECTIVE NO 8

ON MONETARY POLICY INSTRUMENTS & PROCEDURES

Issued on 1 May 2015, amended 2 November 2015, 25 January 2016, 1 January 2017, 21 July 2017, 16 April 2018, 1 October 2018, 5 August 2019, 20 April 2020, 27 April 2020, 18 May 2020, 1 January 2021 and 28 June 2021

PART ONE

SUBJECT MATTER, SCOPE AND DEFINITIONS

Article 1

Subject matter and scope

1. In terms of article 60A in conjunction with article 5(1)(a) of the Central Bank of Malta Act (Cap. 204) (hereinafter referred to as “the Act”), the Central Bank of Malta (hereinafter referred to as “the Bank”) has been empowered to make directives in respect of, *inter alia*, the implementation of monetary policy. For the purposes of this Directive, terms used in this Directive shall have the same meaning as is assigned to them under the Act.
2. This Directive comprises the terms and conditions applicable to counterparties for monetary policy operations with the Bank and is based and compiled in conformity with the contents of the ‘*Guideline ECB/2015/510* of the European Central Bank of 19 December 2014 on the Implementation of the Eurosystem Monetary Policy Framework (General Documentation Guideline) (ECB/2014/60). This Directive forms part of the Eurosystem’s legal framework for monetary policy instruments and procedures.
3. This Directive governs the legal relationship between the Bank and the counterparties in respect of the implementation of monetary policy established by the Eurosystem.
4. The tools, instruments, requirements, criteria and procedures for the execution of monetary policy operations by the Eurosystem may be changed from time to time by the Governing Council of the European Central Bank.

5. The Eurosystem reserves the right to request and obtain any relevant information from counterparties that is needed to carry out its tasks and achieve its objectives in relation to monetary policy operations. This right is without prejudice to any other existing specific rights of the Eurosystem to request information relating to monetary policy operations.
6. A credit institution intending to become an eligible counterparty of the Bank in connection with Eurosystem monetary policy operations shall request the Bank in writing to commence participation in Eurosystem monetary policy operations. The credit institution must also submit its three-year business model plan for the Bank's review and assessment. The Bank shall, after taking into consideration that all the requirements for eligibility have been met and the required documents have been submitted, communicate its decision in writing to such a request. In case of a positive decision by the Bank, the credit institution must sign the pledge agreements attached in Annex 13 prior to the commencement of monetary policy operations. The Counterparty whose request is acceded to by the Bank shall be bound to adhere to the provisions of this Directive.
7. Relationships with Counterparties which were already recognized by the Bank prior to the coming into force of this provision shall be governed by the provisions of this Directive as a matter of law.
8. This Directive may be amended from time to time to implement changes in Eurosystem monetary policy operations as decided by the ECB Governing Council. Counterparties may raise objections on questions of law on any amendments to this Directive within fourteen (14) days of notification under article 161 of this Directive. The Bank may, until the matter is resolved, suspend access to monetary policy operations to that Counterparty.
9. This Directive includes several annexes as listed to in the table of contents and these form an integral part thereof.
10. All times referred in this documentation are in Central European Time (CET).

Article 2

Definitions

For the purposes of this Directive, the following definitions shall apply:

(1) ‘actual/360 day-count convention’ means the convention applied in Eurosystem monetary policy operations which determines the actual number of calendar days included in the calculation of interest by using a 360-day year as the basis;

(2) ‘agency’ means an entity that is established in a Member State whose currency is the euro and that either engages in certain common-good activities carried out at national or regional level or serves their funding needs, and which the Eurosystem has classified as an agency. The list of entities classified as agencies shall be published on the ECB’s website and shall specify whether the quantitative criteria for valuation haircut purposes set out in Annex 12A are met in respect of each entity;

(3) ‘asset-backed securities’ (ABSs) means debt instruments that are backed by a pool of ring fenced financial assets (fixed or revolving), that convert into cash within a finite time period. In addition, rights or other assets may exist that ensure the servicing or timely distribution of proceeds to the holders of the security. Generally, ABSs are issued by a specially created investment vehicle which has acquired the pool of financial assets from the originator or seller. In this regard, payments on the ABSs depend primarily on the cash flows generated by the assets in the underlying pool and other rights designed to assure timely payment, such as liquidity facilities, guarantees or other features generally known as credit enhancements;

(4) ‘bilateral procedure’ means a procedure whereby the NCBs or, in exceptional circumstances the ECB, conduct fine-tuning operations or outright transactions, directly with one or more counterparties, or through stock exchanges or market agents, without making use of tender procedures;

(5) ‘book-entry system’ means a system that enables transfers of securities and other financial assets which do not involve the physical movement of paper documents or certificates, e.g. the electronic transfer of securities;

(6) ‘business day’ means: (a) in relation to an obligation to make a payment, any day on which TARGET2 is operational to effect such a payment; or (b) in relation to an obligation to deliver

assets, any day on which the SSS through which delivery is to be made is open for business in the place where delivery of the relevant securities is to be effected;

(7) ‘central securities depository’ (CSD) means a central securities depository as defined in point (1) of Article 2(1) of Regulation (EU) No 909/2014 of the European Parliament and of the Council¹;

(8) ‘collateralised loan’ means an arrangement between an NCB and a counterparty whereby liquidity is provided to a counterparty by way of a loan that is secured by an enforceable security interest granted by that counterparty to the NCB in the form of e.g. a pledge, assignment or charge granted over that asset;

(9) ‘collection of fixed-term deposits’ means an instrument used in conducting open market operations, whereby the Eurosystem invites counterparties to place fixed-term deposits on accounts with their home NCBs in order to absorb liquidity from the market;

(10) ‘competent authority’ means a public authority or body officially recognised by national law that is empowered by national law to supervise institutions as part of the supervisory system in the relevant Member State, including the ECB with regard to the tasks conferred on it by Council Regulation (EU) No 1024/2013 of 15 October 2013 conferring specific tasks on the European Central Bank concerning policies relating to the prudential supervision of credit institutions;

(11) ‘counterparty’ means an institution fulfilling the eligibility criteria laid down in Part Three entitling it to access the Eurosystem’s monetary policy operations;

(12) ‘covered bond’ means a debt instrument that is dual recourse: (a) directly or indirectly to a credit institution; and (b) to a dynamic cover pool of underlying assets, and for which there is no tranching of risk.

(13) ‘credit claim’ means a claim for the repayment of money, which constitutes a debt obligation of a debtor vis-à-vis a counterparty. Credit claims also include *Schuldscheindarlehen* and Dutch-registered private claims on the government or other eligible debtors that are covered by a government guarantee, e.g. housing associations;

(14) ‘credit institution’ means a credit institution within the meaning of Article 2(5) of Directive 2013/36/EU of the European Parliament and of the Council and point (1) of Article 4(1) of

¹ Regulation (EU) No 909/2014 of the European Parliament and of the Council of 23 July 2014 on improving securities settlement in the European Union and on central securities depositories and amending Directives 98/26/EC and 2014/65/EU and Regulation (EU) No 236/2012 (OJ L 257, 28.8.2014, p.1).

Regulation (EU) No 575/2013 of the European Parliament and of the Council, which is either subject to supervision by a competent authority or is a publicly-owned credit institution within the meaning of Article 123(2) of the Treaty that is subject to supervision of a standard comparable to supervision by a competent authority;

(15) ‘credit rating’ has the same meaning as in Article 3(1)(a) of Regulation (EC) No 1060/2009 of 16 September 2009 on credit rating agencies;

(16) ‘cross-border use’ means the submission, as collateral, by a counterparty to its home NCB of:

- (a) marketable assets held in another Member State whose currency is the euro;
- (b) marketable assets issued in another Member State and held in the Member State of the home NCB;
- (c) credit claims where the credit claim agreement is governed by the laws of another Member State whose currency is the euro other than that of the home NCB;
- (d) retail mortgage-backed debt instruments (RMBDs) in accordance with the applicable procedures of the CCBM;
- (e) non-marketable debt instruments backed by eligible credit claims (DECCs) issued and held in another Member State whose currency is the euro other than that of the home NCB.

(17) ‘currency hedge’ means an agreement entered into between a securities issuer and a hedge counterparty, pursuant to which a portion of the currency risk arising from the receipt of cash flows in a non-euro currency is mitigated by swapping the cash flows for euro currency payments to be made by the hedge counterparty, including any guarantee by the hedge counterparty of those payments;

(18) ‘custodian’ means an entity which undertakes the safekeeping and administration of securities and other financial assets on behalf of others;

(19) ‘default market value’ means, with regard to any assets on any date:

- (a) the market value of such assets at the default valuation time calculated on the basis of the most representative price on the business day preceding the valuation date;

- (b) in the absence of a representative price for a particular asset on the business day preceding the valuation date, the last trading price is used. If no trading price is available, the NCB undertaking the operation will define a price, taking into account the last price identified for the asset in the reference market;
 - (c) in the case of assets for which no market value exists, any other reasonable method of valuation;
 - (d) if the NCB has sold the assets or equivalent assets at the market price before the default valuation time, the net proceeds of sale, after deducting all reasonable costs, fees and expenses incurred in connection with such sale, such calculation being made and amounts determined by the NCB;
- (20) ‘delivery-versus-payment’ or ‘delivery-against-payment system’ means a mechanism in an exchange-for-value settlement system which ensures that the final transfer (i.e. the delivery) of assets occurs only upon the occurrence of a corresponding final transfer of other asset(s) (i.e. the payment);
- (21) ‘deposit facility’ means a standing facility offered by the Eurosystem which counterparties may use to make overnight deposits at the Eurosystem through an NCB, which are remunerated at a pre-specified interest rate;
- (22) ‘deposit facility rate’ means the interest rate applied to the deposit facility;
- (22a) ‘direct link’ means an arrangement between two SSSs operated by CSDs, whereby one CSD becomes a direct participant in the SSS operated by the other CSD by opening a securities account, in order to allow the transfer of securities through a book-entry process;
- (23) ‘domestic use’ means the submission, as collateral, by a counterparty established in a Member State whose currency is the euro, of: (a) marketable assets issued and held in the same Member State as that of its home NCB; (b) credit claims where the credit claim agreement is governed by the laws of the Member State of its home NCB; (c) RMBDs issued by entities established in the Member State of the home NCB; (d) non-marketable debt instruments backed by eligible credit claims issued and held in the same Member State as that of its home NCB.
- (24) ‘earmarking system’ means a system for NCBs’ collateral management whereby liquidity is provided against specified, identifiable assets earmarked as collateral for specified Eurosystem credit operations. The substitution of these assets with other specific eligible assets may be

permitted by the home NCB provided that they are earmarked as collateral and are adequate for the specific operation;

(24a) ‘EEA legislative covered bond’ means a covered bond which is issued in accordance with the requirements under Article 52(4) of Directive 2009/65/EC of the European Parliament and of the Council²;

(25) ‘eligible assets’ means assets that fulfil the criteria laid down in Part Four and are accordingly eligible as collateral for Eurosystem credit operations;

(25a) ‘eligible link’ means a direct or relayed link that the Eurosystem has assessed as compliant with the eligibility criteria laid down in Annex 6A for use in Eurosystem credit operations and is published on the Eurosystem list of eligible links on the ECB’s website. An eligible relayed link is composed of underlying eligible direct links;

(25b) ‘eligible SSS’ means an SSS operated by a CSD that the Eurosystem has assessed as compliant with the eligibility criteria laid down in Annex 6A for use in Eurosystem credit operations and is published on the Eurosystem list of eligible SSSs on the ECB’s website;

(26) ‘end-of-day’ means the time of the business day following closure of TARGET2 at which the payments processed in TARGET2 are finalised for the day;

(26a) ‘ESMA reporting activation date’ means the first day on which both (a) a securitisation repository has been registered by the European Securities and Markets Authority (ESMA) and therefore becomes an ESMA securitisation repository and (b) the relevant implementing technical standards, in the format of the standardised templates, have been adopted by the Commission under Article 7(4) of Regulation (EU) 2017/2402 of the European Parliament and of the Council³ and have become applicable;

(26b) ‘ESMA securitisation repository’ means a securitisation repository within the meaning of point (23) of Article 2 of Regulation (EU) 2017/2402, which is registered with ESMA pursuant to Article 10 of that Regulation;

² Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009 on the coordination of laws, regulation and administrative provisions relating to undertakings for collective investment in transferable securities (UCITS)(OJ L 302, 17.11.2009, p.32).

³ Regulation (EU) 2017/2402 of the European Parliament and of the Council of 12 December 2017 laying down a general framework for securitisation and creating a specific framework for simple, transparent and standardised securitisation, and amending Directives 2009/65/EC, 2009/138/EC and 2011/61/EU and Regulations (EC) No 1060/2009 and (EU) No 648/2012 (OJ L 347, 28.12.2017, p.35).

(27) ‘euro area inflation index’ means an index provided by Eurostat or a national statistical authority of a Member State whose currency is the euro, e.g. the Harmonised Index of Consumer Prices (HICP);

(28) ‘European Economic Area’ (EEA) means all Member States, regardless of whether or not they have formally acceded to the EEA, together with Iceland, Liechtenstein and Norway;

(29) ‘Eurosystème’ means the ECB and the NCBs;

(30) ‘Eurosystème business day’ means any day on which the ECB and at least one NCB are open for the purpose of conducting Eurosystème monetary policy operations;

(31) ‘Eurosystème credit operations’ means: (a) liquidity-providing reverse transactions, i.e. liquidity-providing Eurosystème monetary policy operations excluding foreign exchange swaps for monetary policy purposes and outright purchases; and (b) intraday credit;

(31a) ‘Eurosystème designated repository’ means an entity designated by the Eurosystème in accordance with Annex 8 and which continues to fulfil the requirements for designation set out in that Annex;

(32) ‘Eurosystème monetary policy operations’ means open market operations and standing facilities;

(33) *Deleted*;

(34) ‘final transfer’ means an irrevocable and unconditional transfer which effects the discharge of the obligation to make the transfer;

(35) ‘financial corporation’ means a financial corporation as defined in Annex A to Regulation (EU) No 549/2013 of the European Parliament and of the Council⁴;

(36) ‘fine-tuning operations’ means a category of open market operations executed by the Eurosystème, particularly to deal with liquidity fluctuations in the market;

(37) ‘fixed coupons’ means debt instruments with a predetermined periodic interest payment;

(38) ‘fixed-rate tender procedure’ means a tender procedure whereby the ECB specifies the interest rate, price, swap point or spread in advance of the tender procedure and participating

⁴ Regulation (EU) No 549/2013 of the European Parliament and of the Council of 21 May 2013 on the European system of national and regional accounts in the European Union (ESA 2010) (OJ L 174, 26.6.2013, p.1)

counterparties bid the amount they want to transact at that fixed interest rate, price, swap point or spread;

(39) ‘floating coupon’ means a coupon linked to a reference interest rate with a resetting period corresponding to this coupon of no longer than one year;

(40) ‘foreign exchange swap for monetary policy purposes’ is an instrument used in conducting open market operations whereby the Eurosystem buys or sells euro spot against a foreign currency and, at the same time, sells or buys it back in a forward transaction on a specified repurchase date;

(41) ‘home NCB’ means the NCB of the Member State whose currency is the euro in which the counterparty is established;

(42) ‘indicative calendar for the Eurosystem’s regular tender operations’ means a calendar prepared by the Eurosystem, as endorsed by the ECB’s Governing Council, which indicates the timing of the reserve maintenance period, as well as the announcement, allotment and maturity of main refinancing operations and regular longer-term refinancing operations;

(42a) ‘in-kind recapitalisation with public debt instruments’ means any form of increase in the subscribed capital of a credit institution where all or part of the consideration is provided through a direct placement with the credit institution of sovereign or public sector debt instruments that have been issued by the sovereign state or public sector entity providing the new capital to the credit institution;

(43) ‘international central securities depository’ (ICSD) means a CSD that is active in the settlement of internationally traded securities from various national markets, typically across currency areas;

(44) ‘international organisation’ means an entity listed in Article 118 of Regulation (EU) No 575/2013, whereby exposures to such an entity are assigned a 0 % risk weight;

(45) ‘international securities identification number’ (ISIN) means the international identification code assigned to securities issued in financial markets;

(46) ‘intraday credit’ means intraday credit as defined in point (26) of Article 2 of Guideline ECB/2012/27 of the European Central Bank⁵;

⁵ Guideline ECB/2012/27 of the European Central Bank of 5 December 2012 on a Trans-European Automated Real-time Gross settlement Express Transfer system (TARGET2) (OJ L 30, 30.1.2013, p.1).

(46a) ‘investment firm’ means an investment firm with the meaning of point (2) of Article 4(1) of Regulation (EU) No 575/2013;

(46b) ‘investment fund’ means money market funds (MMFs) or non-money market funds (non-MMFs) as defined in Annex A to Regulation (EU) 549/2013;

(47) ‘issuance of ECB debt certificates’ means a monetary policy instrument used in conducting open market operations, whereby the ECB issues debt certificates which represent a debt obligation of the ECB in relation to the certificate holder;

(48) ‘jumbo covered bond’ means an EEA legislative covered bond with an issuing volume of at least EUR 1 billion, for which at least three market-makers provide regular bid and ask quotes;

(49) ‘leasing receivables’ means the scheduled and contractually mandated payments by the lessee to the lessor under the terms of a lease agreement. Residual values are not leasing receivables. Personal Contract Purchase (PCP) agreements, i.e. agreements pursuant to which the obligor may exercise its option: (a) to make a final payment to acquire full legal title of the goods or (b) to return the goods in settlement of the agreement; are assimilated to leasing agreements;

(49a) ‘legislative covered bond’ means a covered bond which is either an EEA legislative covered bond or a non-EEA G10 legislative covered bond;

(50) ‘liquidity support’ means any structural, actual or potential feature that is designed or deemed appropriate to cover any temporary cash flow shortfall that may occur during the lifetime of an ABS transaction;

(50a) ‘loan-level data repository’ means an ESMA securitisation repository or a Eurosystem designated repository;

(51) ‘longer-term refinancing operations’ (LTROs) means a category of open market operations that are executed by the Eurosystem in the form of reverse transactions that are aimed at providing liquidity with a maturity longer than that of the main refinancing operations to the financial sector;

(52) ‘main refinancing operations’ (MROs) means a category of regular open market operations that are executed by the Eurosystem in the form of reverse transactions;

(53) ‘maintenance period’ has the same meaning as defined in Regulation (EC) No 1745/2003 (ECB/2003/9);

(54) ‘margin call’ means a procedure relating to the application of variation margins, implying that if the value of the assets mobilised as collateral by a counterparty, as regularly measured, falls below a certain level, the Eurosystem requires the counterparty to supply additional eligible assets or cash. For pooling systems, a margin call is performed only in cases of under-collateralisation, and for earmarking systems symmetric margin calls are performed, each method as further specified in the national documentation of the home NCB;

(55) ‘marginal interest rate’ means the lowest interest rate in liquidity-providing variable rate tender procedures at which bids are fulfilled, or the highest interest rate in liquidity-absorbing variable rate tender procedures at which bids are fulfilled;

(56) ‘marginal lending facility’ means a standing facility offered by the Eurosystem which counterparties may use to receive overnight credit from the Eurosystem through an NCB at a pre-specified interest rate subject to a requirement for sufficient eligible assets as collateral;

(57) ‘marginal lending facility rate’ means the interest rate applied to the marginal lending facility;

(58) ‘marginal swap point quotation’ means the swap point quotation at which the total tender allotment is exhausted;

(59) ‘marketable assets’ means debt instruments that are admitted to trading on a market and that fulfil the eligibility criteria laid down in Part Four;

(60) ‘maturity date’ means the date on which a Eurosystem monetary policy operation expires. In the case of a repurchase agreement or swap, the maturity date corresponds to the repurchase date;

(61) ‘Member State’ means a member state of the Union;

(62) ‘*multi cédulas*’ means debt instruments issued by specific Spanish SPVs (Fondo de Titulización de Activos, FTA) enabling a certain number of small-sized single *cédulas* (Spanish covered bonds) from several originators to be pooled together;

(63) ‘multilateral development bank’ means an entity listed in Article 117(2) of Regulation (EU) No 575/2013, whereby exposures to such an entity are assigned a 0% risk weight;

(64) ‘multiple rate auction (American auction)’ means an auction in which the allotment interest rate or price or swap point equals the interest rate or price or swap point offered in each individual bid;

(65) ‘multi-step coupon’ means a coupon structure where the margin part (x) increases more than once during the life of the asset according to a predetermined schedule on predetermined dates, usually the call date or the coupon payment date;

(66) ‘national central bank’ (NCB) means a national central bank of a Member State whose currency is the euro;

(67) ‘NCB business day’ means any day on which an NCB is open for the purpose of conducting Eurosystem monetary policy operations, including days when branches of such an NCB may be closed due to local or regional bank holidays. The term ‘CBM business day’ means any day on which the Central Bank of Malta is open for the purpose of conducting Eurosystem monetary policy operations including any day on which TARGET2 is operational;

(68) ‘non-EEA G10 countries’ means the countries participating in the Group of Ten (G10) that are not EEA countries, i.e. the United States of America, Canada, Japan and Switzerland;

(68a) ‘non-EEA G10 legislative covered bond’ means a covered bond issued in accordance with the requirements of the national covered bond legislative framework of a non-EEA G10 country;

(69) ‘non-financial corporation’ has the same meaning as in Regulation (EU) No 549/2013;

(70) ‘non-marketable asset’ means any of the following assets: fixed-term deposits, credit claims RMBDs and non-marketable debt instruments backed by eligible credit claims;

(70a) Non-marketable debt instruments backed by eligible credit claims (hereinafter “DECCs) means debt instruments:

(a) that are backed, directly or indirectly, by credit claims that satisfy all Eurosystem eligibility criteria for credit claims in accordance with Section 1, Chapter 1 of Title III of Part Four, subject to the provisions of Article 107f;

(b) that offer dual recourse to: (i) a credit institution that is the originator of the underlying credit claims; and (ii) the dynamic cover pool of underlying credit claims referred to in point (a);

(c) for which there is no tranching of risk;

(71) *Deleted;*

(72) ‘outright transaction’ means an instrument used in conducting open market operations, whereby the Eurosystem buys or sells eligible marketable assets outright in the market (spot or

forward), resulting in a full transfer of ownership from the seller to the buyer with no connected reverse transfer of ownership;

(73) ‘pooling system’ means a system for NCBs’ collateral management, whereby a counterparty maintains a pool account with an NCB to deposit assets collateralising that counterparty’s related Eurosystem credit operations, whereby the assets are recorded in such a way that an individual eligible asset is not linked to a specific Eurosystem credit operation and the counterparty may substitute eligible assets on a continuous basis;

(74) ‘public credit rating’ means a credit rating which is: (a) issued or endorsed by a credit rating agency registered in the Union that is accepted as an external credit assessment institution by the Eurosystem; and (b) disclosed publicly or distributed by subscription;.

(75) ‘public sector entity’ means an entity that is classified by a national statistics authority as a unit within the public sector for the purposes of Regulation (EU) No 549/2013;

(76) ‘quick tender’ means a tender procedure, which is normally executed within a time frame of 105 minutes from the announcement of the tender to the certification of the allotment result, and which can be restricted to a limited set of counterparties, as further specified in Part Two;

(76a) ‘relayed link’ means a link established between SSSs operated by two different CSDs which exchange securities transactions or transfers through a third SSS operated by a CSD acting as an intermediary or, in the case of SSSs operated by CSDs participating in TARGET2-Securities, through several SSSs operated by CSDs acting as intermediaries;

(77) ‘repurchase agreement’ means an arrangement whereby an eligible asset is sold to a buyer without any retention of ownership on the part of the seller, while the seller simultaneously obtains the right and the obligation to repurchase an equivalent asset at a specific price on a future date or on demand;

(78) ‘repurchase date’ means the date on which the buyer is obliged to sell back equivalent assets to the seller in relation to a transaction under a repurchase agreement;

(79) ‘repurchase price’ means the price at which the buyer is obliged to sell back equivalent assets to the seller in relation to a transaction under a repurchase agreement. The repurchase price equals the sum of the purchase price and the price differential corresponding to the interest on the advanced liquidity over the maturity of the operation;

(80) ‘reverse transaction’ means an instrument used in conducting open market operations and when providing access to the marginal lending facility whereby an NCB buys or sells eligible assets under a repurchase agreement or conducts credit operations in the form of collateralised loans;

(81) ‘safe custody account’ means a securities account managed by an ICSD, CSD or NCB on which credit institutions can place securities eligible for Eurosystem credit operations;

(82) ‘securities settlement system’ (SSS) means a securities settlement system as defined in point (10) of Article 2(1) of Regulation (EU) No 909/2014, which allows the transfer of securities, either free of payment (FOP), or against payment (delivery versus payment (DVP));

(83) ‘settlement date’ means the date on which a transaction is settled;

(84) ‘single rate auction (Dutch auction)’ means an auction in which the allotment interest rate or price or swap point applied for all satisfied bids is equal to the marginal interest rate or price or swap point;

(85) ‘Special Purpose Vehicle’ (SPV) means a securitisation special purpose entity as defined in point 66 of Article 4(1) of Regulation (EU) No 575/2013;

(86) ‘standard tender’ means a tender procedure which is normally carried out within a time frame of 24 hours from the announcement of the tender to the certification of the allotment result;

(87) ‘structural operations’ means a category of open market operations executed by the Eurosystem to adjust the structural liquidity position of the Eurosystem vis-à-vis the financial sector or pursue other monetary policy purposes as further specified in Part Two;

(88) *Deleted;*

(88a) ‘sustainability performance target’ (SPT) means a target set by the issuer in a publicly available issuance document, measuring quantified improvements in the issuer’s sustainability profile over a predefined period of time with reference to one or more of the environmental objectives set out in Regulation (EU) 2020/852 of the European Parliament and of the Council⁶

⁶ Regulation (EU) 2020/852 of the European Parliament and the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment, and amending Regulation (EU) 2019/2088 (OJ L 198, 22.6.2020, p.13).

and/or to one or more of the Sustainable Development Goals set by the United Nations relating to climate change or environmental degradation⁷.

(89) ‘swap point’ means the difference between the exchange rate of the forward transaction and the exchange rate of the spot transaction in a foreign exchange swap, quoted according to general market conventions;

(90) ‘tap issuance’ or ‘tap issue’ means an issue forming a single series with an earlier issuance or issue;

(91) ‘TARGET2’ means the real-time gross settlement system for the euro, providing settlement of payments in euro in central bank money, regulated under Guideline ECB/2012/27;

(92) ‘tender procedure’ means a procedure whereby the Eurosystem provides liquidity to, or withdraws liquidity from, the market whereby the NCB enters into transactions by accepting bids submitted by counterparties after a public announcement;

(93) ‘trade date (T)’ means the date on which a trade, i.e. an agreement on a financial transaction between two counterparties, is struck. The trade date might coincide with the settlement date for the transaction (same-day settlement) or precede the settlement date by a specified number of business days (the settlement date is specified as T + the settlement lag);

(94) *Deleted;*

(95) ‘tri-party agent’ (TPA) means a CSD operating an eligible SSS that has entered into a contract with an NCB whereby such CSD is to provide certain collateral management services as an agent of that NCB;

(96) ‘Union’ means the European Union;

(97) ‘valuation haircut’ means a percentage decrease applied to the market value of an asset mobilised as collateral in Eurosystem credit operations;

(98) ‘valuation markdown’ means a certain percentage decrease in the market value of assets, mobilised as collateral in Eurosystem credit operations, prior to the application of any valuation haircut;

(99) ‘variable rate tender procedure’ means a tender procedure whereby participating counterparties bid both the amount they want to transact and the interest rate, swap point or price

⁷ Contained in the “2030 Agenda for Sustainable Development” adopted by the UN General Assembly on 25

at which they want to enter into transactions with the Eurosystem in competition with each other, and whereby the most competitive bids are satisfied first until the total amount offered is exhausted;

(99a) ‘wind-down entity’ means an entity, whether privately or publicly owned, that (a) has as its main purpose the gradual divestment of its assets and the cessation of its business; or (b) is an asset management or divestment entity established to support financial sector restructuring and/or resolution, including asset management vehicles resulting from a resolution action in the form of the application of an asset separation tool pursuant to Article 26 of Regulation (EU) No 806/2014 of the European Parliament and of the Council⁸ or national legislation implementing Article 42 of Directive 2014/59/EU of the European Parliament and of the Council⁹;

(100) ‘zero coupon’ means a debt instrument with no periodic coupon payments.

PART TWO

THE EUROSISTEM MONETARY POLICY TOOLS, OPERATIONS, INSTRUMENTS AND PROCEDURES

Article 3

Eurosystem monetary policy implementation framework

1. The tools used by the Eurosystem in the implementation of monetary policy shall consist of:

September 2015*.

⁸ Regulation (EU) No 806/2014 of the European Parliament and of the Council of 15 July 2014 establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of a Single Resolution Mechanism and a Single Resolution Fund and amending Regulation (EU) No 1093/2010 (OJ L 225, 30.7.2014, p. 1).

⁹ Directive 2014/59/EU of the European Parliament and of the Council of 15 May 2014 establishing a framework for the recovery and resolution of credit institutions and investment firms and amending Council Directive 82/891/EEC, and Directives 2001/24/EC, 2002/47/EC, 2004/25/EC, 2005/56/EC, 2007/36/EC, 2011/35/EU, 2012/30/EU and 2013/36/EU, and Regulations (EU) No 1093/2010 and (EU) No 648/2012, of the European Parliament and of the Council (OJ L 173, 12.6.2014, p. 190);

- (a) open market operations;
- (b) standing facilities;
- (c) minimum reserve requirements.

2. The minimum reserve requirements are specified in Council Regulation (EC) No 2531/98 and Regulation (EC) No 1745/2003 (ECB/2003/9). Certain features of the minimum reserve requirements are illustrated in Annex 1 for information purposes.

Article 4

Indicative characteristics of the Eurosystem monetary policy operations

An overview of the characteristics of the Eurosystem monetary policy operations is set out in Table 1.

TABLE 1: OVERVIEW OF CHARACTERISTICS OF THE EUROSISTEM MONETARY POLICY OPERATIONS

Categories of the monetary policy operations		Types of instruments		Maturity	Frequency	Procedure
		Provision of liquidity	Absorption of liquidity			
Open market operations	Main refinancing operations	Reverse transactions	—	One week	Weekly	Standard tender procedures
	Longer-term refinancing operations	Reverse transactions	—	Three months(*)	Monthly(*)	Standard tender procedures
	Fine-tuning operations	Reverse transactions	Reverse transactions	Non-standardised	Non-standardised	Tender procedures Bilateral procedures(**)
		Foreign exchange swaps	Foreign exchange swaps			
	—	Collection of fixed-term deposits				
Structural operations	Reverse transactions	Reverse transactions	Non-standardised	Non-standardised	Standard tender procedures (***)	

		—	Issuance of ECB debt certificates	Less than 12 months	
		Outright purchases	Outright sales	—	Bilateral procedures Tender procedures(****)
Standing facilities	Marginal lending facility	Reverse transactions	—	Overnight	Access at the discretion of counterparties
	Deposit facility	—	Deposits	Overnight	Access at the discretion of counterparties

(*) Pursuant to Article 7(2)(b), Article 7(2)(c), Article 7(3) and Article 7(4)

(**) Pursuant to Article 8(2)(c), Article 10(4)(c), Article 11(5)(c) and Article 12(6)(c)

(***) Pursuant to Article 9(2)(c), Article 10(4)(c) and Article 13(5)(d)

(****) Pursuant to Article 9(2)(c) and Article 14(3)(c)';

TITLE I – Open market operations

Chapter 1- Overview of open market operations

Article 5

Overview of categories and instruments in respect of open market operations

1. The Eurosystem may conduct open market operations to steer interest rates, manage the liquidity situation in the financial market and signal the stance of monetary policy.
2. Depending on their specific purpose, open market operations can be grouped under the following categories:
 - (a) main refinancing operations;
 - (b) longer-term refinancing operations;
 - (c) fine-tuning operations;
 - (d) structural operations.

3. Open market operations shall be conducted by means of the following instruments:
 - (a) reverse transactions;
 - (b) foreign exchange swaps for monetary policy purposes;
 - (c) the collection of fixed-term deposits;
 - (d) the issuance of ECB debt certificates;
 - (e) outright transactions.

4. As regards the specific categories of open market operations laid down in paragraph 2, the following instruments referred to in paragraph 3 shall be applicable:
 - (a) MROs and LTROs are conducted exclusively by means of reverse transactions;
 - (b) fine-tuning operations may be conducted by means of:
 - (i) reverse transactions;
 - (ii) foreign exchange swaps for monetary policy purposes;
 - (iii) the collection of fixed-term deposits;
 - (c) structural operations may be conducted by means of:
 - (i) reverse transactions;
 - (ii) the issuance of ECB debt certificates;
 - (iii) outright transactions.

5. The ECB shall initiate open market operations and shall also decide on the terms and conditions for their execution and on the instrument to be used.

Chapter 2 – Categories of open market operations

Article 6

Main refinancing operations

1. The Eurosystem shall conduct MROs by means of reverse transactions.
2. As regards their operational features, MROs:

- (a) are liquidity-providing operations;
 - (b) are normally conducted each week in accordance with the indicative calendar for the Eurosystem's regular tender operations;
 - (c) normally have a maturity of one week, as indicated in the indicative calendar for the Eurosystem's regular tender operations, subject to the exception laid down in paragraph 3;
 - (d) are executed in a decentralised manner by the NCBs;
 - (e) are executed by means of standard tender procedures;
 - (f) are subject to the eligibility criteria laid down in Part Three of this Directive which must be fulfilled by all counterparties submitting bids for such operations;
 - (g) are based on eligible assets as collateral.
3. The maturity of MROs may differ on the grounds of varying bank holidays in Member States whose currency is the euro.
4. The ECB's Governing Council shall decide on the interest rates for the MROs on a regular basis. The revised interest rates shall become effective from the beginning of the new reserve maintenance period.
5. Notwithstanding paragraph 4, the ECB's Governing Council may change the interest rate for the MROs at any point in time. Such decision shall become effective at the earliest from the following Eurosystem business day.
6. MROs are executed by means of fixed rate tender procedures or variable rate tender procedures, as decided by the Eurosystem.

Article 7

Longer-term refinancing operations

1. The Eurosystem shall conduct LTROs by means of reverse transactions to provide counterparties with liquidity with a maturity longer than that of the MROs.
2. As regards their operational features, LTROs:
- (a) are liquidity-providing reverse operations;

- (b) are conducted regularly each month in accordance with the indicative calendar for the Eurosystem's regular tender operations, subject to the exception laid down in paragraph 4;
 - (c) normally have a maturity of three months in accordance with the indicative calendar for the Eurosystem's regular tender operations, subject to the exceptions laid down in paragraphs 3 and 4;
 - (d) are executed in a decentralised manner by the NCBs;
 - (e) are executed by means of standard tender procedures;
 - (f) are subject to the eligibility criteria as laid down in Part Three which must be fulfilled by all counterparties submitting bids for such operations;
 - (g) are based on eligible assets as collateral.
3. The maturity of LTROs may differ on the grounds of varying bank holidays in Member States whose currency is the euro.
4. The Eurosystem may conduct, on a non-regular basis, LTROs with a maturity other than three months. Such operations are not specified in the indicative calendar for the Eurosystem's regular tender operations.
5. LTROs with a maturity of more than three months that are conducted on a non-regular basis, as referred to in paragraph 4, may have an early repayment clause. Such an early repayment clause may represent either an option or a mandatory obligation for counterparties under which they repay all or part of the amounts they were allotted in a given operation. Mandatory early repayment clauses shall be based on explicit and predefined conditions. The dates on which the early repayments become effective shall be announced by the Eurosystem at the time of the announcement of the operations. The Eurosystem may decide in exceptional circumstances to suspend early repayments on specific dates on the grounds of, inter alia, bank holidays in Member States whose currency is the euro.
6. LTROs are executed by means of variable rate tender procedures, unless it is decided by the Eurosystem to execute them by means of a fixed-rate tender procedure. In such a case, the rate applicable to fixed-rate tender procedures may be indexed to an underlying reference rate (e.g. average MRO rate) over the life of the operation, with or without a spread.

Article 8

Fine-tuning operations

1. The Eurosystem may conduct fine-tuning operations by means of reverse transactions, foreign exchange swaps for monetary policy purposes or the collection of fixed-term deposits, in particular to deal with liquidity fluctuations in the market.
2. As regards their operational features, fine-tuning operations:
 - (a) may be conducted either as a liquidity-providing or as a liquidity-absorbing operation;
 - (b) have a frequency and maturity that is normally not standardised;
 - (c) are normally executed by means of quick tender procedures, unless the Eurosystem decides to conduct the specific fine-tuning operation by other means (standard tender procedure or bilateral procedure) in the light of specific monetary policy considerations or in order to react to market conditions;
 - (d) are executed in a decentralised manner by the NCBs, without prejudice to Article 45(3);
 - (e) are subject to the eligibility criteria for counterparties as laid down in Part Three, depending on:
 - (i) the specific type of instrument for conducting fine-tuning operations; and
 - (ii) the applicable procedure for that specific type of instrument;
 - (f) when conducted by means of reverse transactions, they are based on eligible assets as collateral.
3. The ECB may conduct fine-tuning operations on any Eurosystem business day to counter liquidity imbalances in the reserve maintenance period. If the trade day, settlement day and reimbursement day are not CBM business days, the Bank is not required to conduct such operations.
4. The Eurosystem shall retain a high degree of flexibility as regards its choice of procedures and operational features in the conduct of fine-tuning operations, in order to react to market conditions.

Article 9

Structural operations

1. The Eurosystem may conduct structural operations by means of reverse transactions, the issuance of ECB debt certificates or outright transactions to adjust the structural position of the Eurosystem vis-à-vis the financial system, or pursue other monetary policy implementation purposes.
2. As regards their operational features, structural operations:
 - (a) are liquidity-providing or liquidity-absorbing operations;
 - (b) have a frequency and maturity that is not standardised;
 - (c) are executed by means of tender or bilateral procedures, depending on the specific type of instrument for conducting the structural operation;
 - (d) are executed in a decentralised manner by the NCBs;
 - (e) are subject to the eligibility criteria for counterparties as laid down in Part Three depending on: (i) the specific type of instrument for conducting structural operations; and (ii) the applicable procedure for that specific type of instrument;
 - (f) liquidity-providing structural operations are based on eligible assets as collateral, with the exception of outright purchases.
3. The Eurosystem shall retain a high degree of flexibility as regards its choice of procedures and operational features in the conduct of structural operations in order to react to market conditions and other structural developments.

Chapter 3 – Instruments for open market operations

Article 10

Reverse transactions

1. Reverse transactions are specific instruments to conduct open market operations whereby an NCB buys or sells eligible assets under a repurchase agreement or conducts credit operations in

the form of collateralised loans depending on the relevant contractual or regulatory arrangements applied by the NCBs.

2. Repurchase agreements and collateralised loans shall comply with the additional requirements for such instruments set out in Part Seven.

3. Liquidity-providing reverse transactions shall be based on eligible assets as collateral, pursuant to Part Four.

4. As regards their operational features, reverse transactions for monetary policy purposes:

- (a) may be conducted either as liquidity-providing or liquidity-absorbing operations;
- (b) have a frequency and maturity that depends on the category of open market operation for which they are used;
- (c) that fall in the category open market operations are executed by means of standard tender procedures, with the exception of fine-tuning operations, where they are executed by means of tender or bilateral procedures;
- (d) that fall into the category marginal lending facility are executed as described in Article 18;
- (e) are executed in a decentralised manner by the NCBs, without prejudice to Article 45(3).

5. Liquidity-absorbing reverse transactions shall be based on assets provided by the Eurosystem. The eligibility criteria of those assets shall be identical to those applied for eligible assets used in liquidity-providing reverse transactions, pursuant to Part Four. No valuation haircuts shall be applied in liquidity-absorbing reverse transactions.

6. The Bank shall conduct reverse transactions mostly on the basis of collateralised lending (See Annex 13).

Article 11

Foreign exchange swaps for monetary policy purposes

1. Foreign exchange swaps for monetary policy purposes consist of simultaneous spot and forward transactions in euro against a foreign currency.

2. Foreign exchange swaps for monetary policy purposes shall comply with the additional requirements for such instruments set out in Part Seven.

3. Unless decided otherwise by the ECB's Governing Council, the Eurosystem shall operate only in widely traded currencies and in accordance with standard market practice.
4. In each foreign exchange swap for monetary policy purposes, the Eurosystem and the counterparties shall agree on the swap points for the transaction that are quoted in accordance with general market conventions. The exchange rate terms of foreign exchange swaps for monetary policy purposes are specified in Table 2.
5. As regards their operational features, foreign exchange swaps for monetary policy purposes:
 - (a) may be conducted either as liquidity-providing or as liquidity-absorbing operations;
 - (b) have a frequency and maturity that is not standardised;
 - (c) are executed by means of quick tender procedures or bilateral procedures, unless the Eurosystem decides to conduct the specific operation by other means (standard tender procedure), in the light of specific monetary policy considerations or in order to react to market conditions;
 - (d) are executed in a decentralised manner by the Bank, without prejudice to Article 45(3).
6. Counterparties participating in foreign exchange swaps for monetary policy purposes shall be subject to the eligibility criteria as laid down in Part Three, depending on the applicable procedure for the relevant operation.

TABLE 2: THE EXCHANGE RATE TERMS OF FOREIGN EXCHANGE SWAPS FOR MONETARY POLICY
PURPOSES

S	= spot (on the transaction date of the foreign exchange swap) of the exchange rate between the euro (EUR) and a foreign currency ABC
$S = \frac{x \times ABC}{1 \times EUR}$	
FM	= forward exchange rate between the euro and a foreign currency ABC on the repurchase date of the swap (M)

$F_M = \frac{y \times ABC}{1 \times EUR}$	
ΔM	= forward points between the euro and ABC at the repurchase date of the swap (M)
$\Delta_M = F_M - S$	
N(.)	= spot amount of currency; N(.) _M is the forward amount of currency:
$N(ABC) = N(EUR) \times S \quad \text{or} \quad N(EUR) = \frac{N(ABC)}{S}$	
$N(ABC)_M = N(EUR)_M \times F_M \quad \text{or} \quad N(EUR)_M = \frac{N(ABC)_M}{F_M}$	

Article 12

Collection of fixed-term deposits

1. The Eurosystem may invite counterparties to place fixed-term deposits with their home NCBs.
2. The deposits accepted from counterparties shall be for a fixed term and a fixed rate of interest shall be applied.
3. The interest rates applied to fixed-term deposits may be: (a) positive; (b) set at zero per cent; (c) negative.
4. The interest rate applied to the fixed-term deposit shall be a simple interest rate based on the actual/360 day-count convention. The interest shall be paid at maturity of the deposit. In cases of a negative interest rate, its application to fixed-term deposits shall entail a payment obligation of the deposit holder to the Bank, including the right of the Bank to debit the account of the

counterparty accordingly. The NCBs shall not provide any collateral in exchange for the fixed-term deposits.

5. Fixed-term deposits shall be held in accounts with the Bank, even where such operations are to be executed in a centralised manner by the ECB under Article 45(3).

6. As regards their operational features, the collection of fixed-term deposits:

- (a) is conducted in order to absorb liquidity;
- (b) may be conducted on the basis of a pre-announced schedule of operations with pre-defined frequency and maturity or may be conducted ad hoc to react to liquidity condition developments, e.g. the collection of fixed-term deposits may be conducted on the last day of a reserve maintenance period to counter liquidity imbalances which may have accumulated since the allotment of the last main refinancing operation;
- (c) is executed by means of quick tender procedures, unless it is decided by the ECB to conduct the specific operation by other means (bilateral procedure or standard tender procedure), in the light of specific monetary policy considerations or in order to react to market conditions;
- (d) is executed in a decentralised manner by the Bank, without prejudice to Article 45(3).

7. Counterparties participating in the collection of fixed term deposits shall be subject to the eligibility criteria as laid down in Part Three, depending on the applicable procedure for the relevant operation.

Article 13

Issuance of ECB debt certificates

1. ECB debt certificates constitute a debt obligation of the ECB in relation to the certificate holder.
2. ECB debt certificates shall be issued and held in book-entry form in securities depositories in Member States whose currency is the euro.
3. The ECB shall not impose any restrictions on the transferability of ECB debt certificates.
4. The ECB may issue ECB debt certificates at:

- (a) a discounted issue amount that is below the nominal amount; or
- (b) an amount above the nominal amount,

which are to be redeemed at maturity at a nominal amount.

The difference between the issue and the nominal (redemption) amount shall equal the interest accrued on the issue amount, at the agreed interest rate, over the maturity of the certificate. The interest rate applied shall be a simple interest rate based on the actual/360 day-count convention. The calculation of the issue amount shall be made in accordance with Table 3.

TABLE 3 ISSUANCE OF ECB DEBT CERTIFICATES

<p>The issue amount is:</p> $P_T = N \times \frac{1}{1 + \frac{r_I \times D}{36,000}}$ <p>where:</p> <p>N = nominal amount of the ECB debt certificate</p> <p>r_I = interest rate (in %)</p> <p>D = maturity of the ECB debt certificate (in days)</p> <p>P_T = issue amount of the ECB debt certificate</p>
--

5. As regards the operational features of ECB debt certificates:

- (a) they are issued as a liquidity-absorbing open market operation;
- (b) they may be issued on a regular or a non-regular basis;
- (c) they have a maturity that is less than 12 months;
- (d) they are issued by means of standard tender procedures;
- (e) they are tendered and settled in a decentralised manner by the NCBs.

6. Counterparties participating in the standard tender procedure for the issuance of ECB debt certificates shall be subject to the eligibility criteria as laid down in Part Three.

Article 14

Outright transactions

1. An outright transaction shall involve a full transfer of ownership from the seller to the buyer with no connected reverse transfer of ownership.
2. In the execution of outright transactions and the calculation of prices, the Eurosystem shall act in accordance with the most widely accepted market convention for the debt instruments used in the transaction.
3. As regards their operational features, outright transactions:
 - (a) may be conducted as liquidity-providing operations (outright purchases) or liquidity-absorbing operations (outright sales);
 - (b) have a frequency that is not standardised;
 - (c) are executed by means of bilateral procedures, unless the ECB decides to conduct the specific operation by quick or standard tender procedures;
 - (d) are executed in a decentralised manner by the NCBs, without prejudice to Article 45(3);
 - (e) are based only on eligible marketable assets as specified in Part Four.
4. Counterparties participating in outright transactions shall be subject to the eligibility criteria as laid down in Part Three.

Article 15

Obligations of collateralisation and settlement in reverse transactions and foreign exchange swaps for monetary policy purposes

1. With regard to liquidity-providing reverse transactions and liquidity-providing foreign exchange swaps for monetary policy purposes, counterparties shall:
 - (a) transfer a sufficient amount of eligible assets in the case of reverse transactions or the corresponding foreign currency amount in the case of foreign exchange swaps to settle on the settlement day;

- (b) ensure adequate collateralisation of the operation until its maturity; the value of the assets mobilised as collateral shall cover at all times the total outstanding amount of the liquidity-providing operation including the accrued interest during the term of the operation. If interest accrues at a positive rate, the applicable amount should be added on a daily basis to the total outstanding amount of the liquidity-providing operation and if it accrues at a negative rate, the applicable amount should be subtracted on a daily basis from the total outstanding amount of the liquidity-providing operation;
 - (c) when applicable as regards point (b), provide adequate collateralisation by way of corresponding margin calls by means of sufficient eligible assets or cash.
- 2. With regard to liquidity-absorbing reverse transactions and liquidity-absorbing foreign exchange swaps for monetary policy purposes, counterparties shall:
 - (a) transfer a sufficient amount of cash to settle the amounts they have been allotted in the relevant liquidity absorbing operation;
 - (b) ensure adequate collateralisation of the operation until its maturity;
 - (c) when applicable as regards point (b), provide adequate collateralisation by way of corresponding margin calls by means of sufficient eligible assets or cash.
- 3. The failure to meet the requirements referred to in paragraphs 1 and 2 shall be sanctioned, as applicable, under Articles 154 to 157.

Article 16

Obligations for settlement for outright purchases and sales, the collection of fixed-term deposits and the issuance of ECB debt certificates

- 1. In open market operations executed by means of outright purchases and sales, collection of fixed term deposits and issuance of ECB debt certificates, counterparties shall transfer a sufficient amount of eligible assets or cash to settle the amount agreed in the transaction.
- 2. The failure to meet the requirement as referred to in paragraph 1 shall be sanctioned, as applicable, under Articles 154 to 157.

TITLE II – Standing facilities

Article 17

Standing facilities

1. The NCBs shall grant access to the standing facilities offered by the Eurosystem at their counterparties' initiative.
2. Standing facilities shall consist of the following categories:
 - (a) the marginal lending facility;
 - (b) the deposit facility.
3. The terms and conditions of the standing facilities shall be identical in all Member States whose currency is the euro.
4. The NCBs shall only grant access to the standing facilities in accordance with the ECB's objectives and general monetary policy considerations.
5. The ECB may adapt the conditions of the standing facilities or suspend them at any time.
6. The ECB's Governing Council shall decide on the interest rates for the standing facilities on a regular basis. The revised interest rates shall become effective from the beginning of the new reserve maintenance period, as defined in Article 7 of Regulation (EC) No 1745/2003 (ECB/2003/9). The ECB publishes a calendar of the reserve maintenance periods at least three months before the start of each calendar year.
7. Notwithstanding paragraph 6, the ECB's Governing Council may change the interest rate for the standing facilities at any point in time. Such decision shall become effective at the earliest from the following Eurosystem business day.

Chapter 1 – Marginal lending facility

Article 18

Characteristics of the marginal lending facility

1. Counterparties may use the marginal lending facility to obtain overnight liquidity from the Eurosystem through a reverse transaction with the Bank at a pre-specified interest rate using eligible assets as collateral.
2. The Bank shall provide liquidity under the marginal lending facility by means of collateralised loans as specified in Annex 13.
3. There shall be no limit on the amount of liquidity that may be provided under the marginal lending facility, subject to the requirement to provide adequate collateral under paragraph 4.
4. Counterparties are required to present sufficient eligible assets as collateral prior to using the marginal lending facility. These assets should be either pre-deposited with the Bank or delivered with the request for access to the marginal lending facility.

Article 19

Access conditions for the marginal lending facility

1. Institutions fulfilling the eligibility criteria under Article 55 and which have access to an account with the Bank where the transaction can be settled, notably in TARGET2, may access the marginal lending facility.
2. Access to the marginal lending facility shall be granted only on days when TARGET2 is operational. On days when the SSSs are not operational, access to the marginal lending facility shall be granted on the basis of eligible assets which have already been pre-deposited with the Bank.
3. If the Bank is not open for the purpose of conducting monetary policy operations on certain Eurosystem business days due to national bank holidays, the Bank shall inform its counterparties in advance of the arrangements to be made for access to the marginal lending facility on that bank holiday.

4. Access to the marginal lending facility can be granted either based on a specific request of the counterparty or automatically, as specified in paragraph 5 and 6 respectively.

5. A counterparty may send a request to the Bank for access to the marginal lending facility. The request is to be made to the Bank's Payment and Banking Operations Office by free-format authenticated SWIFT or via email sent to backofficeoperations@centralbankmalta.org or by fax on +356 21 247 487 backed by a fax call-back. Provided that the request is received by the Bank at the latest 15 minutes following the TARGET2 closing time, the Bank shall process the request on the same day in TARGET2. The deadline for requesting access to the marginal lending facility shall be postponed by an additional 15 minutes on the last Eurosystem business day of a reserve maintenance period. Under exceptional circumstances, the Eurosystem may decide to apply later deadlines. The request for access to the marginal lending facility shall specify the amount of credit required. The counterparty shall deliver sufficient eligible assets as collateral for the transaction, unless such assets have already been pre-deposited by the counterparty with the Bank pursuant to Article 18(4).

At the end of each business day, a negative balance on a counterparty's settlement account with the Bank after finalisation of the end-of-day control procedures shall automatically be considered as a request for recourse to the marginal lending facility. In order to meet the requirement in Article 18(4), counterparties shall have pre-deposited sufficient eligible assets as collateral for the transaction with the Bank prior to such an automatic request arising. Failure to comply with this access condition shall be subject to sanctions in accordance with Articles 154 to 157.

Article 20

Maturity and interest rate of the marginal lending facility

1. The maturity of credit extended under the marginal lending facility shall be overnight. For counterparties participating directly in TARGET2, the credit shall be repaid on the next day on which: (a) TARGET2; and (b) the relevant SSSs are operational, at the time at which those systems open.

2. The interest rate remunerating the marginal lending facility shall be announced in advance by the Eurosystem and shall be calculated as a simple interest rate based on the actual/360 day-count convention. The interest rate applied to the marginal lending facility is referred to as the marginal lending facility rate.

3. Interest under the marginal lending facility shall be payable together with repayment of the credit.

Chapter 2 – Deposit facility

Article 21

Characteristics of the deposit facility

1. Counterparties may use the deposit facility to make overnight deposits with the Eurosystem through the home NCB, to which a pre-specified interest rate shall be applied.
2. The interest rate applied to the deposit facility may be: (a) positive; (b) set at zero per cent; (c) negative.
3. The Bank shall not give any collateral in exchange for the deposits.
4. There shall be no limit on the amount a counterparty may deposit under the deposit facility.

Article 22

Access conditions to the deposit facility

1. Institutions fulfilling the eligibility criteria under Article 55 and which have access to an account with the Bank where the transaction can be settled, notably in TARGET2, may access the deposit facility. Access to the deposit facility shall be granted only on days when TARGET2 is operational.
2. To be granted access to the deposit facility, the counterparty shall send a request to the Bank. The request is to be made to the Bank's Payment and Banking Operations Office by free-format authenticated SWIFT or via email sent to backofficeoperations@centralbankmalta.org or by fax on +356 21 247 487 backed by a fax call-back. Provided that the request is received by the Bank at the latest 15 minutes following the TARGET2 closing time, the Bank shall process the request on the same day in TARGET2. The deadline for requesting access to the deposit facility shall be postponed by an additional 15 minutes on the last Eurosystem business day of a reserve maintenance period. Under exceptional circumstances, the Eurosystem may decide to apply later deadlines. The request shall specify the amount to be deposited under the facility.

3. Due to the existence of different account structures across the NCBs, the Bank, subject to the ECB's prior approval, may apply access conditions which are different from those referred to in this Article. The Bank shall provide information to the counterparties on any such deviations from the access conditions described in this Article.

Article 23

Maturity and interest rate of the deposit facility

1. The maturity of deposits under the deposit facility shall be overnight. For counterparties participating directly in TARGET2, deposits held under the deposit facility shall mature on the next day on which TARGET2 is operational, at the time at which this system opens.
2. The interest rate that applies to the deposit shall be announced in advance by the Eurosystem and shall be calculated as a simple interest rate based on the actual/360 day-count convention.
3. Interest on the deposits shall be payable on maturity of the deposit. In cases of negative interest rates, the application of the interest rate to the deposit facility shall entail a payment obligation of the deposit holder to the Bank, including the right of the Bank to debit the account of the counterparty accordingly.

TITLE III – Procedures for Eurosystem monetary policy operations

Chapter 1 - Tender and bilateral procedures for Eurosystem open market operations

Article 24

Types of procedures for open market operations

Open market operations shall be executed through tender procedures or bilateral procedures.

Section 1 - Tender Procedures

Article 25

Overview of tender procedures

1. Tender procedures shall be performed in six operational steps, as specified in Table 4.

TABLE 4: OPERATIONAL STEPS FOR TENDER PROCEDURES

Step 1	Tender announcement
	(a) ECB public announcement
	(b) NCBs' public announcement and direct announcement to individual counterparties (if deemed necessary)
Step 2	Counterparties' preparation and submission of bids
Step 3	Compilation of bids by the Eurosystem
Step 4	Tender allotment and announcement of tender results
	(a) ECB tender allotment decision
	(b) ECB public announcement of the allotment results
Step 5	Certification of individual allotment results
Step 6	Settlement of the transactions

2. Tender procedures shall be conducted in the form of standard tender procedures or quick tender procedures. The operational features of standard and quick tender procedures are identical, except for the time frame (Tables 3 and 4) and the range of counterparties.

TABLE 5

Indicative time frame for the operational steps in standard tender procedures (times are stated in Central European Time¹⁰)

TABLE 6

Indicative time frame for the operational steps in quick tender procedures (times are stated in CET)

The Eurosystem may conduct either fixed-rate or variable rate tender procedures.

¹⁰ Central European Time (CET) takes into account of the change to Central European Summer Time.

Article 26

Standard tender procedures

1. The Eurosystem shall use standard tender procedures for the execution of: (a) MROs; (b) LTROs; (c) specific structural operations, i.e. structural reverse operations and the issuance of ECB debt certificates.
2. The Eurosystem may also use standard tender procedures to conduct fine-tuning operations and structural operations executed by means of outright transactions in the light of specific monetary policy considerations or in order to react to market conditions.
3. For standard tender procedures, as a rule: (a) a maximum of 24 hours shall elapse from the announcement of the tender procedure to the certification of the allotment result; and (b) the time between the submission deadline and the announcement of the allotment result is approximately two hours.
4. The ECB may decide to adjust the time frame in individual operations, if deemed appropriate.

Article 27

Quick tender procedures

1. The Eurosystem normally uses quick tender procedures for the execution of fine-tuning operations, but may also use quick tender procedures for structural operations executed by means of outright transactions in the light of specific monetary policy considerations or in order to react to market conditions.
2. Quick tender procedures are executed within 105 minutes of the announcement of the tender procedure, with certification taking place immediately after the public announcement of the allotment result.
3. The ECB may decide to adjust the time frame in individual operations, if deemed appropriate.
4. The Eurosystem may select, according to the criteria and procedures specified in Article 57, a limited number of counterparties to participate in quick tender procedures.

Article 28

Execution of standard tender procedures for MROs and regular LTROs, based on the tender calendar

1. The tender procedures for MROs and regular LTROs shall be executed in accordance with the indicative calendar for the Eurosystem's regular tender operations.
2. The indicative calendar for the Eurosystem's regular tender operations is published on the website of the ECB at least three months before the start of the calendar year for which it is valid. The Bank shall inform the counterparties of such publication.
3. The indicative trade days for MROs and regular LTROs are specified in Table 7.

TABLE 7: NORMAL TRADE DAYS FOR MROs AND REGULAR LTROs

Category of open market operations	Normal trade day (T)
MROs	Each Tuesday*
Regular LTROs	The last Wednesday of each calendar month**

*Special scheduling can take place due to holidays.

**Due to the holiday period, the December operation is normally brought forward by one week, i.e. to the preceding Wednesday of the month.

Article 29

Execution of tender procedures for fine-tuning and structural operations without a tender operation calendar

1. Fine-tuning operations are not executed according to any pre-specified calendar. The ECB may decide to conduct fine-tuning operations on any Eurosystem business day. The Bank shall participate in such operations if the trade date, the settlement date and the reimbursement date are CBM business days.
2. Structural operations executed by means of standard tender procedures are not performed according to any pre-specified calendar. They are normally conducted and settled on days which are NCB business days in all Member States whose currency is the euro.

Operational steps for tender procedures

Subsection 1 - Announcement of tender procedures

Article 30

Announcement of standard and quick tender procedures

1. Standard tender procedures shall be publicly announced by the ECB in advance. In addition, the NCBs may announce standard tender procedures publicly and directly to counterparties, if deemed necessary.
2. Quick tender procedures may be publicly announced by the ECB in advance. In quick tender procedures that are publicly announced in advance, the NCB may contact the selected counterparties directly if deemed necessary. In quick tender procedures that are not announced publicly in advance, the selected counterparties shall be contacted directly by the NCBs.
3. The tender announcement represents an invitation to counterparties to submit bids, which are legally binding. The announcement does not represent an offer by the ECB or the NCBs.
4. The information to be included in the public announcement of a tender procedure is laid down in Annex 2.
5. The ECB may take any action it deems appropriate to correct any error in the announcement of tender procedures, including cancelling or interrupting a tender procedure under execution.

Subsection 2 - Preparation and submission of bids by counterparties

Article 31

Form and place of submission of bids

1. The bids must be submitted to the Bank. The bids of an institution may only be submitted to the Bank by one establishment in each Member State whose currency is the euro where the institution is established, i.e. either by the head office or by a designated branch.
2. Counterparties shall submit bids in a format as specified in Annex 13.

Article 32

Submission of bids

1. In fixed-rate tender procedures, counterparties shall state in their bids the amount that they are willing to transact with the Bank.
2. In fixed-rate foreign exchange swap tender procedures, the counterparties shall state the amount of currency kept fixed that they intend to sell and buy back, or buy and sell back, at that rate.
3. In variable rate tender procedures, counterparties may submit bids for up to 10 different interest rates, prices or swap points. Under exceptional circumstances, the Eurosystem may impose a limit on the number of bids that may be submitted by each counterparty. In each bid, counterparties shall state the amount that they are willing to transact and the relevant interest rate or price or swap point. A bid for an interest rate or swap point shall be expressed as multiples of 0,01 percentage points. A bid for a price shall be expressed as multiples of 0,001 percentage points.
4. For variable rate foreign exchange swap tender procedures, the counterparties shall state the amount of the currency to be kept fixed and the swap point quotation at which they intend to enter into the operation.
5. For variable rate foreign exchange swap tender procedures, the swap points shall be quoted in accordance with standard market conventions and bids shall be expressed as multiples of 0,01 swap points.
6. With regard to the issuance of ECB debt certificates, the ECB may decide that bids shall be expressed in the form of a price rather than an interest rate. In such cases, prices shall be quoted as a percentage of the nominal amount, with three decimal places.

Article 33

Minimum and maximum bid amounts

1. For MROs, the minimum bid amount shall be EUR1, 000, 000. Bids exceeding this amount shall be expressed as multiples of EUR 100, 000. The minimum bid amount shall apply to each individual interest rate level.

2. For LTROs, the minimum bid amount shall be EUR100,000. Bids exceeding the minimum bid amount shall be expressed as multiples of EUR10, 000. The minimum bid amount shall be applied to each individual interest rate level.
3. For fine-tuning and structural operations, the minimum bid amount shall be EUR1, 000, 000. Bids exceeding this amount shall be expressed as multiples of EUR100, 000. The minimum bid amount shall apply to each individual interest rate, price or swap point, depending on the specific type of transaction.
4. The ECB may impose a maximum bid amount, which is the largest acceptable bid from an individual counterparty, to prevent disproportionately large bids. If imposed, the ECB shall include details of such a maximum bid amount in the public tender announcement.

Article 34

Minimum and maximum bid rate

1. In liquidity-providing variable rate tender procedures, the ECB may impose a minimum bid rate, which is a lower limit to the interest rate at which counterparties may submit bids.
2. In liquidity-absorbing variable rate tender procedures, the ECB may impose a maximum bid rate, which is an upper limit to the interest rate at which counterparties may submit bids.

Article 35

Deadline for submission of bids

1. Counterparties may revoke their bids at any time up to the deadline for the submission of bids.
2. Bids submitted after the deadline shall not be considered and shall be treated as ineligible.
3. The Bank shall determine if a counterparty has complied with the deadline for the submission of bids.

Article 36

Rejection of bids

1. The Bank shall reject:
 - (a) all of a counterparty's bids, if the aggregate amount bid exceeds any maximum bid limit established by the ECB;
 - (b) any bid of a counterparty, if the bid is below the minimum bid amount;
 - (c) any bid of a counterparty, if the bid is below the minimum accepted interest rate, price, or swap point or above the maximum accepted interest rate, price or swap point.
2. The Bank may reject bids that are incomplete or do not follow the appropriate template.
3. If the Bank decides to reject a bid, it shall inform the counterparty of such decision prior to the tender allotment.

Subsection 3 - Tender allotment

Article 37

Allotment in liquidity-providing and liquidity-absorbing fixed-rate tender procedures

1. In a fixed-rate tender procedure, the bids of counterparties shall be allotted in the following manner:
 - (a) The bids shall be added together.
 - (b) If the aggregate amount bid exceeds the total amount of liquidity to be allotted, the submitted bids shall be satisfied pro rata, based on the ratio of the amount to be allotted to the aggregate amount bid, in accordance with Table 1 of Annex 3.
 - (c) The amount allotted to each counterparty shall be rounded to the nearest euro.
2. The ECB may decide to allot:
 - (a) a minimum allotment amount, which is a lower limit on the amount that may be allotted to each bidder; or

- (b) a minimum allotment ratio, which is a lower limit, expressed in percentage terms, on the ratio of bids at the marginal interest rate that may be allotted to each bidder.

Article 38

Allotment in liquidity-providing variable rate tender procedures in euro

1. In a liquidity-providing variable rate tender procedure in euro, the bids of counterparties shall be allotted in the following manner:
 - (a) Bids shall be listed in descending order of offered interest rates or ascending order of offered prices.
 - (b) Bids with the highest interest rate (lowest price) levels shall be satisfied first and subsequently bids with successively lower interest rates (higher price) shall be accepted, until the total liquidity to be allotted is exhausted.
 - (c) If at the marginal interest rate (highest accepted price), the aggregate amount bid exceeds the remaining amount to be allotted, the remaining amount shall be allocated pro rata among the bids based on the ratio of the remaining amount to be allotted to the total amount bid at the marginal interest rate (highest accepted price), in accordance with Table 2 of Annex 3.
 - (d) The amount allotted to each counterparty shall be rounded to the nearest euro.
2. The ECB may decide to allot a minimum allotment amount to each successful bidder.

Article 39

Allotment in liquidity-absorbing variable rate tender procedures in euro

1. In a liquidity-absorbing variable rate tender procedure in euro, used for the issuance of ECB debt certificates and the collection of fixed term deposits, the bids of counterparties shall be allotted in the following manner:
 - (a) Bids shall be listed in ascending order of offered interest rates or descending order of offered prices.

- (b) Bids with the lowest interest rate (highest price) levels shall be satisfied first and subsequently bids with successively higher interest rates (lower price bids) shall be accepted until the total liquidity to be absorbed is exhausted.
 - (c) If at the marginal interest rate (lowest accepted price), the aggregate bid amount exceeds the remaining amount to be allotted, the remaining amount shall be allocated pro rata among the bids, based on the ratio of the remaining amount to be allotted to the total bid amount at the marginal interest rate (lowest accepted price), in accordance with Table 2 of Annex 3.
 - (d) The amount allotted to each counterparty shall be rounded to the nearest euro. With regard to the issuance of ECB debt certificates, the allotted nominal amount shall be rounded to the nearest multiple of EUR100, 000.
2. The ECB may decide to allot a minimum allotment amount to each successful bidder.

Article 40

Allotment in liquidity-providing variable rate foreign exchange swap tender procedures

1. In a liquidity-providing variable rate foreign exchange swap tender procedure, the bids of counterparties shall be allotted in the following manner:
- (a) Bids shall be listed in ascending order of swap point quotations by taking into account the sign of the quotation.
 - (b) The sign of quotation depends on the sign of the interest rate differential between the foreign currency and the euro. For the maturity of the swap:
 - (i) if the foreign currency interest rate is higher than the corresponding interest rate for the euro, the swap point quotation is positive, i.e. the euro is quoted at a premium to the foreign currency; and
 - (ii) if the foreign currency interest rate is lower than the corresponding interest rate for the euro, the swap point quotation is negative, i.e. the euro is quoted at a discount to the foreign currency.

- (c) The bids with the lowest swap point quotations shall be satisfied first and subsequently successively higher swap point quotations shall be accepted until the total amount of the fixed currency to be allotted is exhausted.
 - (d) If, at the highest swap point quotation accepted, i.e. the marginal swap point quotation, the aggregate amount bid exceeds the remaining amount to be allotted, the remaining amount shall be allocated pro rata among the bids, based on the ratio of the remaining amount to be allotted to the total amount bid at the marginal swap point quotation, in accordance with Table 3 of Annex 3.
 - (e) The amount allotted to each counterparty shall be rounded to the nearest euro.
2. The ECB may decide to allot a minimum allotment amount to each successful bidder.

Article 41

Allotment in liquidity-absorbing variable rate foreign exchange swap tender procedures

1. In a liquidity-absorbing variable rate foreign exchange swap tender procedure, the bids of counterparties shall be allotted in the following manner:
- (a) Bids shall be listed in descending order of offered swap point quotations by taking into account the sign of the quotation.
 - (b) The sign of the quotation depends on the sign of the interest rate differential between the foreign currency and the euro. For the maturity of the swap:
 - (i) if the foreign currency interest rate is higher than the corresponding interest rate for the euro, the swap point quotation is positive, i.e. the euro is quoted at a premium to the foreign currency; and
 - (ii) if the foreign currency interest rate is lower than the corresponding interest rate for the euro, the swap point quotation is negative, i.e. the euro is quoted at a discount to the foreign currency.
 - (c) Bids with the highest swap point quotations shall be satisfied first and subsequently successively lower swap point quotations shall be accepted until:
 - (i) the total amount of the fixed currency to be absorbed is exhausted; and

- (ii) at the lowest swap point quotation accepted, i.e. the marginal swap point quotation, the aggregate amount bid exceeds the remaining amount to be allotted.
 - (d) The remaining amount shall be allocated pro rata among the bids, based on the ratio of the remaining amount to be allotted to the total amount bid at the marginal swap point quotation, in accordance with Table 3 of Annex 3. The amount allotted to each counterparty shall be rounded to the nearest euro.
- 2. The ECB may decide to allot a minimum allotment amount to each successful bidder.

Article 42

Type of auction for variable rate tender procedures

For variable rate tender procedures, the Eurosystem may apply either a single rate auction (Dutch auction) or multiple rate auction (American auction).

Subsection 4 - Announcement of tender results

Article 43

Announcement of tender results

1. The ECB shall publicly announce its tender allotment decision with respect to the tender results. In addition, the Bank may announce the ECB's tender allotment decision publicly and directly to counterparties if it deems it necessary.
2. The information to be included in the public announcement with respect to the tender results is laid down in Annex 4.
3. If the allotment decision contains erroneous information with respect to any of the information contained in the public tender result announcement referred to in paragraph 1, the ECB may take any action it deems appropriate to correct such erroneous information.
4. After the public announcement of the ECB's tender allotment decision on the tender results as referred to in paragraph 1, the Bank shall directly certify the individual allotment results to

counterparties, whereby each counterparty shall receive an individual and certain confirmation of its success in the tender procedure and the exact amount allotted to it.

Section 2 - Bilateral procedures for Eurosystem open market operations

Article 44

Overview of bilateral procedures

1. The Eurosystem may execute any of the following open market operations by means of bilateral procedures:
 - (a) fine-tuning operations (reverse transactions, foreign exchange swaps or the collection of fixed-term deposits); or
 - (b) structural operations (outright transactions).
2. Bilateral procedures, depending on the specific transaction, may be executed by means of direct contact with counterparties, as laid down in Article 45, or through stock exchanges and market agents, as laid down in Article 46.

Article 45

Bilateral procedures executed by means of direct contact with counterparties

1. Bilateral procedures for fine-tuning operations and structural operations conducted by means of outright transactions may be executed by means of direct contact with counterparties.
2. The Bank shall directly contact one or more institutions selected in accordance with the eligibility criteria laid down in Article 57. The Bank shall follow the ECB's instructions in deciding whether to enter into a transaction with those institutions.
3. Without prejudice to paragraph 2, the ECB's Governing Council may decide that, under exceptional circumstances, the ECB or one or more NCBs, acting as the ECB's operating arm, shall conduct fine-tuning operations or structural operations conducted by means of outright transactions executed through bilateral procedures. In such an event, the procedures for those operations shall be adapted accordingly. The ECB shall decide whether to enter into a transaction with the contacted institutions.

Article 46

Bilateral procedures executed by means of stock exchanges and market agents

1. Without prejudice to Article 45, bilateral procedures for structural operations conducted by means of outright transactions may be executed through stock exchanges and market agents.
2. The range of counterparties shall not be restricted, as provided for in Article 57.
3. The procedures shall be adapted to the market conventions for the debt instruments transacted.

Article 47

Announcement of operations executed by means of bilateral procedures

1. Fine-tuning operations or structural operations conducted by means of outright transactions executed by means of bilateral procedures are not announced publicly in advance, unless the ECB decides otherwise.
2. The ECB may decide not to announce the results of such bilateral procedures publicly.

Article 48

Operating days for bilateral procedures

1. The ECB may decide to conduct bilateral procedures for fine-tuning operations on any Eurosystem business day. The Bank shall participate in such operations if the trade date, the settlement date and the reimbursement date are CBM business days.
2. Bilateral procedures for structural operations conducted by means of outright transactions are normally executed and settled on days which are NCB business days in all Member States whose currency is the euro.

Chapter 2 - Settlement procedures for Eurosystem monetary policy operations

Article 49

Overview of settlement procedures

1. Payment orders relating to the participation in open market operations or for the use of the standing facilities shall be settled by the counterparties through their direct participation with the Bank in TARGET2 or on the accounts of a settlement bank participating in TARGET2.
2. Payment orders relating to the participation in open market liquidity-providing operations or use of the marginal lending facility shall only be settled at the moment of or after the final transfer of the eligible assets as collateral to the operation. For this purpose, the Bank shall request counterparties to pre-deposit the eligible assets.

Article 50

Settlement of open market operations

1. The Eurosystem shall endeavour to settle transactions related to its open market operations at the same time in all Member States whose currency is the euro with all counterparties that have provided sufficient eligible assets as collateral. However, owing to operational constraints and technical features (e.g. of SSSs), the timing within the day of the settlement of open market operations may differ across the Member States whose currency is the euro.
2. The indicative settlement dates are summarised in table 8.

TABLE 8: INDICATIVE SETTLEMENT DATES FOR EUROSISTEM OPEN MARKET OPERATIONS*

Monetary policy instrument	Settlement date for open market operations based on standard tender procedures	Settlement date for open market operations based on quick tender procedures or bilateral procedures
Reverse transactions	T+1	T
Outright transactions	According to market convention for the eligible assets	
Issuance of ECB debt	T+2	-

certificates		
Foreign exchange swaps	T, T+1 or T+2	
Collection of fixed-term deposits	T	

* The settlement date refers to Eurosystem business days. T refers to the trade day.

Article 51

Settlement of open market operations executed by means of standard tender procedures

1. The Eurosystem shall endeavour to settle open market operations executed by means of standard tender procedures, on the first day following the trade day on which TARGET2 and all relevant SSSs are open.
2. The settlement dates for MROs and regular LTROs are specified in advance in the indicative calendar for the Eurosystem's regular tender operations. If the normal settlement date coincides with a bank holiday, the ECB may decide to apply a different settlement date, with the option of same-day settlement. The Eurosystem shall endeavour to ensure that the time of settlement of MROs and regular LTROs coincides with the time of reimbursement of a previous operation of corresponding maturity.
3. The issuance of ECB debt certificates shall be settled on the second day following the trade day on which TARGET2 and all relevant SSSs are open.

Article 52

Settlement of open market operations conducted by means of quick tender procedures or bilateral procedures

1. The Eurosystem shall endeavour to settle open market operations executed by means of quick tender procedures and bilateral procedures on the trade day. Other settlement dates may be applied, in particular for outright transactions and foreign exchange swaps.

2. Fine-tuning operations and structural operations conducted by means of outright transactions executed by means of bilateral procedures shall be settled in a decentralised manner through the Bank.

Article 53

Further provisions relating to settlement and end-of-day procedures

1. Without prejudice to the requirements laid down in this Chapter, additional provisions relating to settlement are laid down in Annex 13 for the specific monetary policy tool.
2. The end-of-day procedures are specified in the documentation relating to the TARGET2 framework.

Article 54

Reserve holdings and excess reserves

1. Pursuant to Article 6(1) of Regulation (EC) No 1745/2003 (ECB/2003/9), a counterparty's settlement account with the Bank may be used as a reserve account. Reserve holdings on settlement accounts may be used for intraday settlement purposes. The daily reserve holding of a counterparty shall be calculated as the end-of-day balance on its reserve account. For the purposes of this Article, 'reserve account' shall have the same meaning as that in Regulation (EC) No 1745/2003 (ECB/2003/9).
2. Reserve holdings that comply with minimum reserve requirements pursuant to Regulation (EC) No 2531/98 and Regulation (EC) No 1745/2003 (ECB/2003/9) shall be remunerated in accordance with Regulation (EC) No 1745/2003 (ECB/2003/9).
3. Reserve holdings that exceed the minimum reserves referred to in paragraph 2 shall be remunerated in accordance with Decision (EU) 2019/1743 of the European Central Bank (ECB/2019/31)¹¹.

¹¹ Decision (EU) 2019/1743 of the European Central Bank of 15 October 2019 on the remuneration of holdings of excess reserves and of certain deposits (ECB/2019/31) (OJ L 267, 21.10.2019, p.12).

PART THREE
ELIGIBLE COUNTERPARTIES

Article 55

Eligibility criteria for participation in Eurosystem monetary policy operations

With regard to Eurosystem monetary policy operations, subject to Article 57, the Eurosystem shall only allow participation by institutions that fulfil the following criteria.

- (a) they shall be subject to the Eurosystem's minimum reserve system pursuant to Article 19.1 of the Statute of the ESCB and shall not have been granted an exemption from their obligations under the Eurosystem's minimum reserve system pursuant to Regulation (EC) No 2531/98 and Regulation (EC) No 1745/2003 (ECB/2003/9).
- (b) they shall be one of the following:
 - (i) subject to at least one form of harmonised Union/EEA supervision by competent authorities in accordance with Directive 2013/36/EU and Regulation (EU) No 575/2013;
 - (ii) publicly-owned credit institutions, within the meaning of Article 123(2) of the Treaty, subject to supervision of a standard comparable to supervision by competent authorities under Directive 2013/36/EU and Regulation (EU) No 575/2013;
 - (iii) institutions subject to non-harmonised supervision by competent authorities of a standard comparable to harmonised Union/EEA supervision by competent authorities under Directive 2013/36/EU and Regulation (EU) No 575/2013, e.g. branches established in Member States whose currency is the euro of institutions incorporated outside the EEA. For the purpose of assessing an institution's eligibility to participate in Eurosystem monetary policy operations, as a rule, non-harmonised supervision shall be considered to be of a standard comparable to harmonised Union/EEA supervision by competent authorities under Directive 2013/36/EU and Regulation (EU) No 575/2013, if the relevant Basel III standards adopted by the Basel Committee on Banking Supervision are considered to have been implemented in the supervisory regime of a given jurisdiction;
- (c) they must be financially sound within the meaning of Article 55a;

- (d) they shall fulfil any operational requirements specified in the contractual or regulatory arrangements applied by the Bank or the ECB with respect to the specific instrument or operation.

Article 55a

Assessment of the financial soundness of institutions

1. In its assessment of the financial soundness of individual institutions for the purposes of this Article, the Eurosystem may take into account the following prudential information:
 - a) Quarterly information on capital, leverage and liquidity ratios reported under Regulation (EU) No 575/2013 on an individual and consolidated basis, in accordance with the supervisory requirements; or
 - b) Where applicable, prudential information of a standard comparable to information under point (a).
2. If such prudential information is not made available to an institution's home NCB and the ECB by the institution's supervisor, either the home NCB or the ECB may require the institution to make such information available. When such information is provided directly by an institution, the institution shall also submit an assessment of the information carried out by the relevant supervisor. An additional certification from an external auditor may also be required.
3. In the case of branches, the information reported under paragraph 1 shall relate to the institution to which the branch belongs.
4. As regards the assessment of the financial soundness of institutions that have been subject to in-kind recapitalisation with public debt instruments, the Eurosystem may take into account the methods used for and the role played by such in-kind recapitalisations, including the type and liquidity of such instruments and the market access of the issuer of such instruments, in ensuring the fulfilment of the capital ratios reported under Regulation (EU) No 575/2013.
5. A wind-down entity shall not be eligible to access Eurosystem monetary policy operations unless it has been accepted as an eligible counterparty to participate in Eurosystem monetary policy operations by 22 March 2017. In that case it shall remain eligible until 31 December 2021, with the limitation that its access to Eurosystem credit operations, as defined in point

(31) of Article 2, shall be capped at the average level of its recourse to Eurosystem credit operations during the 12-month period preceding 22 March 2017 with the possibility to compute and apply such cap jointly for a number of wind-down entities belonging to the same group, where relevant. Thereafter, such a wind-down entity shall no longer be eligible to access Eurosystem monetary policy operations.

Article 56

Access to open market operations executed by means of standard tender procedures and to standing facilities

1. Institutions fulfilling the eligibility criteria under Article 55 shall have access to any of the following Eurosystem monetary policy operations:
 - (a) standing facilities;
 - (b) open market operations executed by means of standard tender procedures.
2. Access to the standing facilities or open market operations executed by means of standard tender procedures shall only be granted to institutions fulfilling the eligibility criteria under Article 55 through the Bank.
3. Where an institution fulfilling the eligibility criteria under Article 55 has establishments, e.g. head office or branches, in more than one Member State whose currency is the euro, each establishment fulfilling the eligibility criteria under Article 55 may access the standing facilities or the open market operations executed by means of standard tender procedures through the Bank.
4. Bids for open market operations executed by means of standard tender procedures and for recourse to the standing facilities shall be submitted by only one establishment in each Member State whose currency is the euro, i.e. either by the head office or by a designated branch.

Article 57

Selection of counterparties for access to open market operations executed by means of quick tender procedures or bilateral procedures

1. For open market operations executed by means of quick tender procedures or bilateral procedures, counterparties shall be selected in accordance with paragraphs 2 to 4.
2. For structural operations conducted by means of outright transactions that are executed by means of bilateral procedures, there shall be no restriction on the range of counterparties. For structural operations conducted by means of outright transactions, which are executed by means of quick tender procedures, the eligibility criteria laid down in Article 57(3)(b) shall apply.
3. For fine-tuning operations that are executed by means of quick tender procedures or bilateral procedures, counterparties shall be selected as follows.
 - (a) For fine-tuning operations that are conducted by means of foreign exchange swaps for monetary policy purposes and executed by means of quick tender or bilateral procedures, the range of counterparties shall be identical to the range of entities that are selected for Eurosystem foreign exchange intervention operations and are established in the Member States whose currency is the euro. Counterparties for foreign exchange swaps for monetary policy purposes by means of quick tender or bilateral procedures do not need to fulfil the criteria laid down in Article 55. The selection criteria for counterparties participating in Eurosystem foreign exchange intervention operations are based on the principles of prudence and efficiency, as laid down in Annex 5. The Bank may apply limit-based systems in order to control credit exposures vis-à-vis individual counterparties participating in foreign exchange swaps for monetary policy purposes.
 - (b) For fine-tuning operations conducted by means of reverse transactions or through the collection of fixed-term deposits and executed by means of quick tender procedures or bilateral procedures, the Bank shall select, for a specific transaction, a set of counterparties from among the institutions that fulfil the eligibility criteria laid down in Article 55 and are established in its Member State whose currency is the euro. The selection shall be primarily based on the relevant institution's activity in the money market. Additional selection criteria may be applied by the Bank, such as the efficiency of the trading desk and the bidding potential.

4. If the ECB's Governing Council, pursuant to Article 45(3), decides that the ECB shall conduct, by itself or by means of one or more NCBs fine-tuning operations executed by means of bilateral procedures, the ECB shall select its counterparties in accordance with a rotation scheme among the counterparties that are eligible to participate in quick tender procedures and bilateral procedures.
5. Without prejudice to paragraphs 1 to 4, open market operations executed by means of quick tender procedures or bilateral procedures may also be conducted with a broader range of counterparties than those indicated in paragraphs 2 to 4, if the ECB's Governing Council so decides.

PART FOUR

ELIGIBLE ASSETS

TITLE I – General principles

Article 58

Eligible assets and accepted collateralisation techniques to be used for Eurosystem credit operations

1. The Eurosystem shall apply a single framework for eligible assets common to all Eurosystem credit operations as laid down in this Directive.
2. In order to participate in Eurosystem credit operations, counterparties shall provide the Eurosystem with assets that are eligible as collateral for such operations. Given that Eurosystem credit operations include intraday credit, collateral provided by counterparties in respect of intraday credit shall also comply with the eligibility criteria laid down in this Directive, as outlined in Guideline ECB/2012/27.
3. Counterparties shall provide eligible assets by the creation of a security interest by means of a pledge which takes the legal form of a collateralised loan.
4. Where counterparties provide eligible assets as collateral, the Bank shall require pooling of eligible assets.

5. No distinction shall be made between marketable and non-marketable assets with regard to the quality of the assets and their eligibility for the various types of Eurosystem credit operations.

6. Without prejudice to the obligation in paragraph 2 that counterparties provide the Eurosystem with assets that are eligible as collateral, the Eurosystem may, upon request, provide counterparties with advice regarding the eligibility of marketable assets if they have already been issued or regarding the eligibility of non-marketable assets when they have already been requested for submission. The Eurosystem shall not provide any advice in advance of these events.

Article 59

General aspects of the Eurosystem credit assessment framework for eligible assets

1. As one of the criteria for eligibility, assets shall meet the high credit standards specified in the Eurosystem credit assessment framework (ECAF).

2. The ECAF shall lay down the procedures, rules and techniques to ensure that the Eurosystem's requirement for high credit standards for eligible assets is maintained and that eligible assets comply with the credit quality requirements defined by the Eurosystem.

3. For the purposes of the ECAF, the Eurosystem shall define credit quality requirements in the form of credit quality steps by establishing threshold values for the probability of default (PD) over a one-year horizon, as follows.

(a) The Eurosystem considers, subject to regular review, a maximum probability of default over a one-year horizon of 0,10 % as equivalent to the credit quality requirement of credit quality step 2 and a maximum probability of default over a one-year horizon of 0,40 % as equivalent to the credit quality requirement of credit quality step 3.

(b) All eligible assets for Eurosystem credit operations shall comply, as a minimum, with a credit quality requirement corresponding to credit quality step 3. Additional credit quality requirements for specific assets shall be applied by the Eurosystem in accordance with Titles II and III of Part Four.

4. The Eurosystem shall publish information on credit quality steps on the ECB's website in the form of the Eurosystem's harmonised rating scale, including the mapping of credit assessments, provided by the accepted external credit assessment institutions (ECAIs), to credit quality steps.
5. In the assessment of the credit quality requirements, the Eurosystem takes into account credit assessment information from credit assessment systems belonging to one of the three sources in accordance with Title V of Part Four.
6. As part of its assessment of the credit standard of a specific asset, the Eurosystem may take into account institutional criteria and features ensuring similar protection for the asset holder, such as guarantees. The Eurosystem reserves the right to determine whether an issue, issuer, debtor or guarantor fulfils the Eurosystem's credit quality requirements on the basis of any information that the Eurosystem may consider relevant for ensuring adequate risk protection of the Eurosystem.
7. The ECAF follows the definition of 'default' laid down in Directive 2013/36/EU and Regulation (EU) No 575/2013.

TITLE II – Eligibility criteria and credit quality requirements for marketable assets

Chapter 1 – Eligibility criteria for marketable assets

Article 60

Eligibility criteria relating to all types of marketable assets

In order to be eligible as collateral for Eurosystem credit operations, marketable assets shall be debt instruments fulfilling the eligibility criteria laid down in Section 1, except in the case of certain specific types of marketable assets, as laid down in Section 2.

Article 61

List of eligible marketable assets and reporting rules

1. The ECB shall publish an updated list of eligible marketable assets on its website, in accordance with the methodologies indicated on its website and shall update it every day on

which TARGET2 is operational. Marketable assets included on the list of eligible marketable assets become eligible for use in Eurosystem credit operations upon their publication on the list. As an exception to this rule, in the specific case of debt instruments with same-day value settlement, the Eurosystem may grant eligibility from the date of issue. Assets assessed in accordance with Article 87(3) shall not be published on this list of eligible marketable assets. Such assets shall only be eligible until the date on which the Eurosystem Collateral Management System starts to operate (“go-live date”).

2. As a rule, the NCB reporting a specific marketable asset to the ECB is the NCB of the country in which the marketable asset is admitted to trading.

Section 1 - General eligibility criteria for marketable assets

Article 62

Principal amount of marketable assets

1. In order to be eligible, until their final redemption, debt instruments shall have:
 - (a) a fixed and unconditional principal amount; or
 - (b) an unconditional principal amount that is linked, on a flat basis, to only one euro area inflation index at a single point in time, containing no other complex structures.
2. Debt instruments with a principal amount linked to only one euro area inflation index at a single point in time shall also be permissible, given that the coupon structure is as defined in Article 63(1)(b)(i) fourth indent and is linked to the same euro area inflation index.
3. Assets with warrants or similar rights attached shall not be eligible.

Article 63

Acceptable coupon structures for marketable assets

1. In order to be eligible, debt instruments shall have one of the following coupon structures until final redemption:
 - (a) fixed, zero or multi-step coupons with a pre-defined coupon schedule and pre-defined coupon values; or

(b) floating coupons that have the following structure: coupon rate = (reference rate * l) ± x, with $f \leq \text{coupon rate} \leq c$, where:

(i) the reference rate is only one of the following at a single point in time:

- a euro money market rate, e.g. the euro short-term rate (€STR) (including compounded or averaged daily €STR), EURIBOR, LIBOR or similar indices; for the first or/and the last coupon the reference rate can be a linear interpolation between two tenors of the same euro money market rate e.g. a linear interpolation between two different tenors of Euribor,
- a constant maturity swap rate e.g. CMS, EIISDA, EUSA;
- the yield of one or an index of several euro area government bonds that have a maturity of one year or less;
- a euro area inflation index;

(ii) f (floor), c (ceiling), l (leveraging/deleveraging factor) and x (margin) are, if present, numbers that are either pre-defined at issuance, or may change over time only according to a path pre-defined at issuance, where l is greater than zero throughout the entire lifetime of the asset. For floating coupons with an inflation index reference rate, l shall be equal to one.

(c) Multi-step or floating coupons with steps linked to SPTs, provided the issuer's compliance with SPTs is subject to verification by an independent third party in accordance with the terms and conditions of the debt instrument.

2. Any coupon structure that does not comply with paragraph 1 shall not be eligible, including instances where only part of the remuneration structure, such as a premium, is non-compliant.

3. For the purpose of this Article, if the coupon is either of a fixed multi-step type or of a floating multi-step type, the assessment of the relevant coupon structure shall be based on the entire lifetime of the asset with both a forward- and backward-looking perspective.

4. Acceptable coupon structures shall have no issuer optionalities, i.e. during the entire lifetime of the asset, based on a forward- and backward-looking perspective, changes in the coupon structure that are contingent on an issuer's decision shall not be acceptable.

Article 64

Non-subordination with respect to marketable assets

Eligible debt instruments shall not give rise to rights to the principal and/or the interest that are subordinated to the rights of holders of other debt instruments of the same issuer.

Article 64a

Marketable assets other than ABSs and covered bonds

1. In order to be eligible, marketable assets other than ABSs, legislative covered bonds and *multi cedulas* shall be unsecured obligations of both the issuer and guarantor. For marketable assets with more than one issuer or with more than one guarantor, the requirement in this paragraph shall apply to each issuer and each guarantor.
2. Marketable assets which are secured and were eligible before 1 January 2021 but do not comply with the eligibility requirements as set out in this Article shall remain eligible until 1 January 2026, provided that they fulfil all other eligibility criteria for marketable assets. By derogation from the first sentence of this paragraph, covered bonds which are neither legislative covered bonds nor *multi cedulas*, shall become ineligible from 1 January 2021.

Article 65

Currency of denomination of marketable assets

In order to be eligible, debt instruments shall be denominated in euro or in one of the former currencies of the Member States whose currency is the euro.

Article 66

Place of issue of marketable assets

1. Subject to paragraph 2, in order to be eligible, debt instruments shall be issued in the EEA with a central bank or with an eligible SSS.

2. In respect of debt instruments issued or guaranteed by a non-financial corporation for which no credit assessment has been provided by an accepted ECAI system for the issue, issuer or guarantor, the place of issue must be within the euro area.
3. International debt instruments issued through the ICSDs shall comply with the following criteria, as applicable.
 - (a) International debt instruments in global bearer form shall be issued in the form of new global notes (NGNs) and shall be deposited with a common safekeeper which is an ICSD or a CSD that operates an eligible SSS. This requirement shall not apply to international debt instruments issued in global bearer form issued in the form of classical global notes prior to 1 January 2007 and fungible tap issuances of such notes issued under the same ISIN irrespective of the date of the tap-issuance.
 - (b) International debt instruments issued in global registered form shall be issued under the new safekeeping structure for international debt instruments. By way of derogation, this shall not apply to international debt instruments issued in global registered form prior to 1 October 2010.
 - (c) International debt instruments in individual note form shall not be eligible unless they were issued in individual note form prior to 1 October 2010.

Article 67

Settlement procedures for marketable assets

1. In order to be eligible, debt instruments shall be transferable in book-entry form and shall be held and settled in Member States whose currency is the euro through an account with an NCB or with an eligible SSS, so that perfection and realisation of collateral is subject to the law of a Member State whose currency is the euro.
 - 1a. In addition, where the use of such debt instruments involves tri-party collateral management services, on a domestic and/or cross-border basis, those services shall be provided by a tri-party agent that has been positively assessed pursuant to the “Eurosysteem standards for the use of triparty agents (TPAs) in Eurosysteem credit operations” which are published on the ECB’s website.

2. If the CSD where the asset is issued and the CSD where the asset is held are not identical, the SSSs operated by these two CSDs must be connected by an eligible link in accordance with Article 150.

Article 68

Acceptable markets for marketable assets

1. In order to be eligible, debt instruments shall be those which are admitted to trading on a regulated market as defined in Directive 2014/65/EU of the European Parliament and of the Council¹², or admitted to trading on certain acceptable non-regulated markets.
2. The ECB shall publish the list of acceptable non-regulated markets on its website and shall update it at least once a year.
3. The assessment of non-regulated markets by the Eurosystem shall be based on the following principles of safety, transparency and accessibility.
 - (a) Safety refers to certainty with regard to transactions, in particular certainty in relation to the validity and enforceability of transactions.
 - (b) Transparency refers to unimpeded access to information on the market's rules of procedure and operation, the financial features of the assets, the price formation mechanism, and the relevant prices and quantities, e.g. quotes, interest rates, trading volumes, outstanding amounts.
 - (c) Accessibility refers to the ability of the Eurosystem to take part in and access the market. A market is considered accessible if its rules of procedure and operation allow the Eurosystem to obtain information and conduct transactions when needed for collateral management purposes.
4. The selection process for non-regulated markets shall be defined exclusively in terms of the performance of the Eurosystem collateral management function and should not be regarded as an assessment by the Eurosystem of the intrinsic quality of any market.

¹² Directive 2014/65/EU of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments and amending Directive 2002/92/EC and 2011/61/EU (recast) (OJ L 173, 12.6.2014, p.1).

Article 69

Type of issuer or guarantor for marketable assets

1. In order to be eligible, debt instruments shall be issued or guaranteed by central banks of Member States, public sector entities, agencies, credit institutions, financial corporations other than credit institutions, non-financial corporations, multilateral development banks or international organisations. For marketable assets with more than one issuer, this requirement shall apply to each issuer.
2. Debt instruments issued or guaranteed by investment funds shall be ineligible.

Article 70

Place of establishment of the issuer or guarantor

1. In order to be eligible, debt instruments shall be issued by an issuer established in the EEA or in a non-EEA G10 country, subject to the exceptions in paragraphs 3 to 6 of this Article and in paragraph 4 of Article 81a. For marketable assets with more than one issuer, this requirement shall apply to each issuer.
2. In order to be eligible, guarantors of debt instruments shall be established in the EEA, unless a guarantee is not needed to establish the credit quality requirements for specific debt instruments, subject to the exceptions laid down in paragraphs 3 and 4. The possibility to use an ECAI guarantor rating to establish the relevant credit quality requirements for specific debt instruments is laid down in Article 84.
3. For debt instruments issued or guaranteed by non-financial corporations for which no credit assessment from an accepted ECAI system exists for the issue, the issuer or the guarantor, the issuer or guarantor shall be established in a Member State whose currency is the euro.
- 3a. For debt instruments issued or guaranteed by agencies, the issuer or guarantor shall be established in a Member State whose currency is the euro.
4. For debt instruments issued or guaranteed by multilateral development banks or international organisations, the criterion in respect of place of establishment shall not apply and they shall be eligible irrespective of their place of establishment.
5. For ABSs, the issuer must be established in the EEA in accordance with Article 74.

6. Debt instruments issued by issuers established in non-EEA G10 countries shall only be considered eligible if the Eurosystem has ascertained to its satisfaction that its rights would be protected in an appropriate manner under the laws of the relevant non-EEA G10 country. For this purpose, a legal assessment shall be submitted to the Bank, in a form and substance acceptable to the Eurosystem, before the relevant debt instruments may be considered eligible.

Article 71

Credit quality requirements for marketable assets

In order to be eligible, debt instruments shall meet the credit quality requirements specified in Chapter 2, except where otherwise stated.

Section 2 - Specific eligibility criteria for certain types of marketable assets

Subsection 1 - Specific eligibility criteria for asset-backed securities

Article 72

Eligibility criteria for asset-backed securities

In order to be eligible for Eurosystem credit operations, ABSs shall comply with the general eligibility criteria relating to all types of marketable assets laid down in Section 1, with the exception of the requirements laid down in Article 62 relating to the principal amount, and in addition, the specific eligibility criteria laid down in this subsection.

Article 73

Homogeneity and composition of the cash-flow generating assets

1. In order for ABSs to be eligible, all cash-flow generating assets backing the ABSs shall be homogenous, i.e. it shall be possible to report them according to one of the types of loan-level templates referred to in Annex 8, which shall relate to one of the following:

- (a) residential mortgages;
- (b) loans to small and medium-sized enterprises (SMEs);

- (c) auto loans;
 - (d) consumer finance loans;
 - (e) leasing receivables;
 - (f) credit card receivables.
2. The Eurosystem may consider an ABS not to be homogenous upon assessment of the data submitted by a counterparty.
 3. ABSs shall not contain any cash-flow generating assets originated directly by the SPV issuing the ABSs.
 4. The cash-flow generating assets shall not consist, in whole or in part, actually or potentially, of tranches of other ABSs. This criterion shall not exclude ABSs where the issuance structure includes two SPVs and the ‘true sale’ criterion is met in respect of those SPVs so that the debt instruments issued by the second SPV are directly or indirectly backed by the original pool of assets and all cash flows from the cash-flow generating assets are transferred from the first to the second SPV.
 5. The cash-flow generating assets shall not consist, in whole or in part, actually or potentially, of credit-linked notes, swaps or other derivatives instruments, synthetic securities or similar claims. This restriction shall not encompass swaps used in ABS transactions strictly for hedging purposes.

Article 74

Geographical restrictions concerning asset-backed securities and cash-flow generating assets

1. The issuer of ABSs shall be an SPV established in the EEA.
2. The cash-flow generating assets shall be originated by an originator incorporated in the EEA and sold to the SPV by the originator or by an intermediary incorporated in the EEA.
3. For the purpose of paragraph 2, a mortgage trustee or receivables trustee shall be considered to be an intermediary.
4. The obligors and the creditors of the cash-flow generating assets shall be incorporated, or, if they are natural persons, shall be resident in the EEA. Obligors who are natural persons must

have been resident in the EEA at the time the cash-flow generating assets were originated. Any related security shall be located in the EEA and the law governing the cash-flow generating assets shall be the law of an EEA country.

Article 75

Acquisition of cash-flow generating assets by the SPV

1. The acquisition of the cash-flow generating assets by the SPV shall be governed by the law of a Member State.
2. The cash-flow generating assets shall have been acquired by the SPV from the originator or from an intermediary as laid down in Article 74(2) in a manner which the Eurosystem considers to be a ‘true sale’ that is enforceable against any third party, and which is beyond the reach of the originator and its creditors or the intermediary and its creditors, including in the event of the originator’s or the intermediary’s insolvency.

Article 76

Assessment of clawback rules for asset-backed securities

1. ABSs shall only be considered eligible if the Eurosystem has ascertained that its rights would be protected in an appropriate manner against clawback rules considered relevant by the Eurosystem under the law of the relevant EEA country. For this purpose, before the ABSs may be considered eligible, the Eurosystem may require:
 - (a) an independent legal assessment in a form and substance acceptable to the Eurosystem that sets out the applicable clawback rules in the relevant country; and/or
 - (b) other documents, such as a solvency certificate from the transferor for the suspect period, which is a certain period of time during which the sale of cash-flow generating assets backing the ABSs may be invalidated by a liquidator.
2. Clawback rules, which the Eurosystem considers to be severe and therefore not acceptable, shall include:
 - (a) rules under which the sale of cash-flow generating assets backing the ABSs can be invalidated by a liquidator solely on the basis that the sale was concluded within the

suspect period, as referred to in paragraph 1(b), before the declaration of insolvency of the seller; or

- (b) rules where such invalidation can only be prevented by the transferee if they can prove that they were not aware of the insolvency of the seller at the time of the sale.

For the purposes of this criterion, the seller may be the originator or intermediary, as applicable.

Article 77

Non-subordination of tranches for asset-backed securities

1. Only tranches or sub-tranches of ABSs that are not subordinated to other tranches of the same issue over the lifetime of the ABS shall be considered eligible.
2. A tranche or sub-tranche shall be considered to be non-subordinated to other tranches or sub-tranches of the same issue if, in accordance with the post-enforcement priority of payments, and if applicable, the post-acceleration priority of payments as set out in the prospectus, no other tranche or sub-tranche shall be given priority over that tranche or sub-tranche in respect of receiving payment, i.e. principal and interest, and thereby such tranche or sub-tranche shall be last in incurring losses among the different tranches or sub-tranches.

Article 77a

Restrictions on investments for asset-backed securities

Any investments of monies standing to the credit of the issuer's or of any intermediary SPV's bank accounts under the transaction document shall not consist, in whole or in part, actually or potentially, of tranches of other ABSs, credit-linked notes, swaps or other derivative instruments, synthetic securities or similar claims.

Article 78

Availability of loan level data for asset-backed securities

1. Comprehensive and standardised loan-level data on the pool of cash-flow generating assets backing the ABSs shall be made available in accordance with the procedures set out in Annex 8.

Article 79

Data requests for asset-backed securities

The Eurosystem shall reserve the right to request from any third party it considers relevant, including but not restricted to, the issuer, the originator and/or the arranger, any clarification and/or legal confirmation that it considers necessary to assess the eligibility of ABSs and with regard to the provision of loan-level data. If a third party fails to comply with a particular request, the Eurosystem may decide not to accept the ABSs as collateral or may decide to suspend the eligibility of such collateral.

Subsection 2 - Specific eligibility criteria for covered bonds backed by asset-backed securities

Article 80

Eligibility criteria for covered bonds backed by asset-backed securities

1. Without prejudice to the eligibility of legislative covered bonds pursuant to Article 64a, in order for EEA legislative covered bonds backed by ABSs to be eligible, the cover pool of such bonds (for the purposes of paragraph 1 to 4, “the cover pool”) shall only contain ABSs that comply with all of the following.
 - (a) The cash-flow generating assets backing the ABSs meet the criteria laid down in Article 129(1) (d) to (f) of Regulation (EU) No 575/2013.
 - (b) The cash-flow generating assets were originated by an entity closely linked to the issuer, as described in Article 138.

- (c) They are used as a technical tool to transfer mortgages or guaranteed real estate loans from the originating entity into the cover pool.
- 2. Subject to paragraph 4, the Bank shall use the following measures to verify that the cover pool does not contain ABSs that do not comply with paragraph 1.
 - (a) On a quarterly basis, the Bank shall request a self-certification and undertaking of the issuer confirming that the cover pool does not contain ABSs that do not comply with paragraph 1. The Bank's request shall specify that the self-certification must be signed by the issuer's Chief Executive Officer (CEO), Chief Financial Officer (CFO) or a manager of similar seniority, or by an authorised signatory on their behalf.
 - (b) On an annual basis, the Bank shall request an *ex-post* confirmation by external auditors or cover pool monitors from the issuer, confirming that the cover pool does not contain ABSs that do not comply with paragraph 1 for the monitoring period.
- 3. If the issuer fails to comply with a particular request or if the Eurosystem deems the content of a confirmation incorrect or insufficient to the extent that it is not possible to verify that the cover pool complies with criteria in paragraph 1, the Eurosystem shall decide not to accept the EEA legislative covered bonds as eligible collateral or to suspend their eligibility.
- 4. Where the applicable legislation or prospectus exclude the inclusion of ABSs that do not comply with paragraph 1 as cover pool assets, no verification pursuant to paragraph 2 shall be required.
- 5. For the purposes of paragraph 1(b), the close links shall be determined at the time that the senior units of the ABSs are transferred into the cover pool of the EEA legislative covered bond.
- 6. The cover pool of non-EEA G10 legislative covered bonds shall not contain ABSs.

Subsection 3 - Specific eligibility criteria for debt certificates issued by the Eurosystem

Article 81

Eligibility criteria for debt certificates issued by the Eurosystem

1. Debt certificates issued by the ECB and debt certificates issued by the NCBs prior to the date of adoption of the euro in their respective Member State whose currency is the euro shall be eligible as collateral for Eurosystem credit operations.
2. Debt certificates issued by the Eurosystem shall not be subject to the criteria laid down in this Chapter.

Subsection 4 – Specific eligibility criteria for certain unsecured debt instruments

Article 81a

Eligibility criteria for certain unsecured debt instruments issued by credit institutions or investment firms, or by their closely linked entities

3. By derogation from Article 64 and provided that they fulfil all other eligibility criteria, the following subordinated unsecured debt instruments issued by credit institutions or investment firms, or by their closely linked entities as referred to in Article 141(3), shall be eligible until maturity, provided that they are issued before 31 December 2018 and their subordination results neither from contractual subordination as defined in paragraph 2 nor from structural subordination pursuant to paragraph 3:
 - debt instruments issued by agencies;
 - debt instruments guaranteed by a Union public sector entity which has the right to levy taxes by way of guarantee that complies with the features laid down in Article 114(1) to (4) and Article 115.
2. For the purposes of paragraph 1, contractual subordination means subordination based on the terms and conditions of an unsecured debt instrument, irrespective of whether such subordination is statutorily recognised.

2. Unsecured debt instruments issued by holding companies, including any intermediate holding companies, subject to national legislation implementing Directive 2014/59/EU or to similar recovery and resolution frameworks, shall be ineligible.
3. For unsecured debt instruments issued by credit institutions or investment firms, or by their closely linked entities as referred to in Article 141(3), other than unsecured debt instruments issued by multilateral development banks or international organisations as referred to in Article 70(4), the issuer shall be established in the Union.

Chapter 2 - Eurosystem's credit quality requirements for marketable assets

Article 82

Eurosystem's credit quality requirements for marketable assets

1. Further to the general rules set out in Article 59 and to the specific rules set out in Article 84, marketable assets shall comply with the following credit quality requirements in order to be eligible as collateral for Eurosystem credit operations:
 - (a) With the exception of ABSs, all marketable assets shall have a credit assessment provided by at least one accepted ECAI system, expressed in the form of a public credit rating, in compliance with, as a minimum, credit quality step 3 in the Eurosystem's harmonised rating scale.
 - (b) ABSs shall have credit assessments that are provided by at least two different accepted ECAI systems expressed in the form of two public credit ratings, one provided by each of these ECAI systems, in compliance with, as a minimum, credit quality step 2 in the Eurosystem's harmonised rating scale.
2. The Eurosystem may request any clarification that it considers necessary as regards the public credit rating referred to in paragraph 1.

Article 83

Types of ECAI credit assessments used for credit quality assessments of marketable assets

The following types of ECAI credit assessments from accepted ECAIs shall be used in determining compliance with the credit quality requirements applicable to marketable assets.

- (a) An ECAI issue rating: this rating refers to an ECAI credit assessment assigned to either an issue or, in the absence of an issue rating from the same ECAI, the programme or issuance series under which an asset is issued. An ECAI assessment for a programme or issuance series shall only be relevant if it applies to the particular asset in question and is explicitly and unambiguously matched with the asset's ISIN code by the ECAI, and a different issue rating from the same ECAI does not exist. For ECAI issue ratings, the Eurosystem shall make no distinction in respect of the original maturity of the asset.
- (b) An ECAI issuer rating: this rating refers to an ECAI credit assessment assigned to an issuer. For ECAI issuer ratings, the Eurosystem shall make a distinction in respect of the original maturity of the asset as regards the acceptable ECAI credit assessment. The distinction shall be made between:
 - (i) short-term assets, i.e. those assets with an original maturity of up to and including 390 days; and
 - (ii) long-term assets, i.e. those assets with an original maturity of more than 390 days. For short-term assets, ECAI short-term and long-term issuer ratings shall be acceptable. For long-term assets, only ECAI long-term issuer ratings shall be acceptable.
- (c) An ECAI guarantor rating: this rating refers to an ECAI credit assessment assigned to a guarantor, if the guarantee meets the requirements of Title IV. For ECAI guarantor ratings, the Eurosystem shall make no distinction in respect of the original maturity of the asset. Only ECAI long-term guarantor ratings shall be acceptable.

Priority of ECAI credit assessments in respect of marketable assets

For marketable assets, ECAI credit assessments which determine the compliance of the asset with the credit quality requirements shall be taken into account by the Eurosystem in accordance with the following rules:

- (a) For marketable assets other than marketable assets issued by central governments, regional governments, local governments, agencies, multilateral development banks or international organisations and ABSs, the following rules shall apply.
 - (i) The Eurosystem shall consider ECAI issue ratings in priority to ECAI issuer or ECAI guarantor ratings. Without prejudice to the application of this priority rule, in accordance with Article 82(1)(a), at least one ECAI credit assessment must comply with the Eurosystem's applicable credit quality requirements.
 - (ii) If multiple ECAI issue ratings are available for the same issue, then the first-best of those ECAI issue ratings shall be taken into account by the Eurosystem. If the first-best ECAI issue rating does not comply with the Eurosystem's credit quality threshold for marketable assets, the asset shall not be eligible, even if a guarantee that is acceptable under Title IV exists.
 - (iii) In the absence of any ECAI issue rating or, in the case of covered bonds, in the absence of an issue rating fulfilling the requirements of Annex 9B, an ECAI issuer or ECAI guarantor rating may be considered by the Eurosystem. If multiple ECAI issuer and/or ECAI guarantor ratings are available for the same issue, then the first-best of those ratings shall be taken account by the Eurosystem.
- (b) For marketable assets issued by central governments, regional governments, local governments, agencies, multilateral development banks or international organisations, the following rules shall apply.
 - (i) In accordance with Article 82(1)(a), at least one ECAI credit assessment must comply with the Eurosystem's applicable credit quality requirements. The Eurosystem shall only consider ECAI issuer or ECAI guarantor ratings.

- (ii) If multiple ECAI issuer and ECAI guarantor ratings are available, the first-best of those ratings shall be taken into account by the Eurosystem.
- (iii) Covered bonds issued by agencies shall not be assessed in accordance with the rules in this point and shall instead be assessed in accordance with point (a).
- (c) For ABSs, the following rules shall apply.
 - (i) In accordance with Article 82(1)(b), at least two ECAI credit assessments shall comply with the Eurosystem's applicable credit quality requirements. The Eurosystem shall only consider ECAI issue ratings.
 - (ii) If more than two ECAI issue ratings are available, the first- and second-best of such ECAI issue ratings shall be taken into account by the Eurosystem.

Article 85

Multi-issuer securities

1. For marketable assets with more than one issuer (multi-issuer securities), the applicable ECAI issuer rating shall be determined on the basis of each issuer's potential liability as follows:
 - (a) If each issuer is jointly and severally liable for the obligations of all other issuers under the issue or, if applicable, for the programme/issuance series, the ECAI issuer rating to be considered shall be the highest rating among the first-best ECAI issuer ratings of all the relevant issuers; or
 - (b) If any issuer is not jointly and severally liable for the obligations of all other issuers under the issue or, if applicable, for the programme/issuance series, the ECAI issuer rating to be considered shall be the lowest rating among the first-best ECAI issuer ratings of all the relevant issuers.

Article 86

Non-euro ratings

For the purpose of ECAI issuer ratings, a foreign currency rating shall be acceptable. If the asset is denominated in the domestic currency of the issuer, the local currency rating shall also be acceptable.

Article 87

Credit quality assessment criteria for marketable assets in the absence of a credit assessment provided by an accepted ECAI

1. In the absence of an appropriate credit assessment provided by an accepted ECAI for the issue, issuer or guarantor, as would be applicable pursuant to Article 84(a) or (b), an implicit credit assessment of marketable assets (with the exception of ABSs) shall be derived by the Eurosystem in accordance with the rules laid down in paragraphs 2 and 3. This implicit credit assessment is required to comply with the Eurosystem's credit quality requirements.
2. If the debt instruments are issued or guaranteed by a regional government or a local authority or a 'public sector entity' as defined in point 8 of Article 4(1) of Regulation (EU) No 575/2013 (hereinafter a 'CRR public sector entity') established in a Member State whose currency is the euro, the credit assessment shall be performed by the Eurosystem in accordance with the following rules.
 - (a) If the issuers or guarantors are regional governments, local authorities or CRR public sector entities which are treated for capital requirements purposes pursuant to Articles 115(2) or 116(4) of Regulation (EU) No 575/2013 equally to the central government in whose jurisdiction they are established, the debt instruments issued or guaranteed by these entities shall be allocated the credit quality step corresponding to the best credit rating provided by an accepted ECAI to the central government in whose jurisdiction these entities are established.
 - (b) If the issuers or guarantors are regional governments, local authorities and CRR public sector entities which are not referred to in point (a) the debt instruments issued or guaranteed by these entities shall be allocated the credit step corresponding to one credit quality step below the best credit rating provided by an accepted ECAI to the central government in which jurisdiction these entities are established.
 - (c) If the issuers or guarantors are "public sector entities" as defined in point (75) of Article 2 and that are not referred to in points (a) and (b), no implicit credit assessment is derived and the debt instruments issued or guaranteed by these entities shall be treated equally to debt instruments issued or guaranteed by private sector entities i.e. as not having an appropriate credit assessment.

3. Subject to the provisions of Article 61(1), if the debt instruments are issued or guaranteed by non-financial corporations established in a Member State whose currency is the euro, the credit quality assessment shall be performed by the Eurosystem based on the credit quality assessment rules applicable to the credit quality assessment of credit claims in Chapter 2 of Title III.

TABLE 9: IMPLICIT CREDIT QUALITY ASSESSMENTS FOR ISSUERS OR GUARANTORS WITHOUT AN ECAI CREDIT QUALITY ASSESSMENT

	Allocation of issuers or guarantors under Regulation (EU) No 575/2013 (CRR*)	ECAF derivation of the implicit credit quality assessment of the issuer or guarantor belonging to the corresponding class
Class 1	Regional governments, local authorities and CRR public sector entities (CRR PSEs) that are treated by the competent authorities in the same manner as the central government for capital requirements purposes pursuant to Articles 115(2) and 116(4) of Regulation (EU) No 575/2013	Allocated the ECAI credit quality assessment of the central government in whose jurisdiction the entity is established
Class 2	Other regional governments, local authorities and CRR PSEs	Allocated a credit quality assessment one credit quality step** below the ECAI credit quality assessment of the central government in whose jurisdiction the entity is established
Class 3	Public sector entities as defined in point (75) of Article 2 that are not CRR PSEs	Treated like private sector issuers or debtors, i.e. their marketable assets are not eligible.

* Regulation (EU) No 575/2013, also referred to as the CRR for the purposes of this table.

** Information on the credit quality steps is published on the ECB's website.

Article 88

Additional credit quality requirements for asset-backed securities

1. For ABSs, the credit quality assessment shall be based on a public issue rating that is explained in a publicly available credit rating report, i.e. a new issue report. The publicly available credit rating report shall include, inter alia, a comprehensive analysis of structural and legal aspects, a detailed collateral pool assessment, an analysis of the transaction participants, as well as an analysis of any other relevant details of a transaction.
2. Further to the requirement in paragraph 1, regular surveillance reports published by the accepted ECAs are required for ABSs. The publication of these reports shall take place no later than four weeks after the coupon payment date of the ABSs. The reference date of these reports shall be the most recent coupon payment date except for ABSs paying the coupon on a monthly basis, in which case the surveillance report shall be published at least quarterly. The surveillance reports shall contain, as a minimum, the key transaction data, e.g. composition of the collateral pool, transaction participants, capital structure, as well as performance data.

TITLE III – Eligibility criteria and credit quality requirements for non-marketable assets

Chapter 1 - Eligibility criteria for non-marketable assets

Section 1 - Eligibility criteria for credit claims

Article 89

Eligible type of asset

1. The eligible type of asset shall be a credit claim that is a debt obligation of a debtor vis-à-vis a counterparty.
2. Types of credit claims that have a ‘reducing balance’, i.e. where the principal and interest are paid off according to a pre-agreed schedule, as well as drawn credit lines, shall be eligible types of credit claim.
3. Current account overdrafts, letters of credit and undrawn credit lines, e.g. undrawn facilities of revolving credit claims, which authorise the use of credit but are not credit claims per se, shall not be eligible types of credit claim.

4. A syndicated loan share shall be an eligible type of credit claim. For the purposes of this Section, a syndicated loan share means a credit claim resulting from the participation of a lender in a loan provided by a group of lenders in a lending syndicate.

5. A credit claim granted in a context other than a mere lending relationship may constitute an eligible type of asset. A claim inherent to certain leasing or factoring structures may qualify as an eligible type of asset, if it constitutes a credit claim. Claims purchased under a factoring only qualify as an eligible type of asset to the extent they actually constitute credit claims as opposed to other claims, such as purchase price claims.

Article 90

Principal amount and coupons of credit claims

In order to be eligible, credit claims shall comply with the following requirements from the moment they are mobilised until their final redemption or demobilisation:

- (a) they have, a fixed, unconditional principal amount; and
- (b) an interest rate that shall be one of the following:
 - (i) a 'zero-coupon';
 - (ii) fixed;
 - (iii) floating, i.e. linked to a reference interest rate and with the following structure:
coupon rate = reference rate \pm x, with $f \leq$ coupon rate \leq c, where:
 - the reference rate is only one of the following at a single point in time:
 - a euro money market rate, e.g. €STR (including compounded or averaged daily €STR), Euribor, LIBOR or similar indices;
 - a constant maturity swap rate, e.g. CMS, EIISDA, EUSA;
 - the yield of one or an index of several euro area government bonds;
 - f (floor), c (ceiling), if they are present, and x(margin) are numbers that are either pre-defined at origination or may change over the life of the credit claim; f and/or c may also be introduced after origination of the credit claim; and

(c) their most recent cash flow was not negative. If a negative cash flow occurs, the credit claim is ineligible as at that moment. It may become eligible again after a cash flow that is not negative, provided it meets all other relevant requirements.

Article 91

Non-subordination

Credit claims may not afford rights to the principal and/or the interest that are subordinated to: (a) the rights of holders of other unsecured debt obligations of the debtor including other shares or sub-shares in the same syndicated loan; and (b) the rights of holders of debt instruments of the same issuer.

Article 92

Credit quality requirements for credit claims

The credit quality of credit claims is assessed on the basis of the credit quality of the debtor or guarantor. The relevant debtor or guarantor shall comply with the Eurosystem's credit quality requirements as specified in the ECAF rules for credit claims laid down in Chapter 2 of Title III of Part Four.

Article 93

Minimum size of credit claims

For domestic use, credit claims shall, at the time of their submission as collateral by the counterparty, meet a minimum size threshold of EUR0, or any higher amount that may be laid down by the NCB. The Central Bank of Malta has a minimum size threshold for domestic credit claims of EUR25,000. For cross-border use, a minimum size threshold of EUR 500, 000 shall also apply.

Article 94

Currency of denomination of credit claims

Credit claims shall be denominated in euro or in one of the former currencies of the Member States whose currency is the euro.

Article 95

Type of debtor or guarantor

1. The debtors and guarantors of eligible credit claims shall be non-financial corporations, public sector entities (excluding public financial corporations), multilateral development banks or international organisations.
2. If a credit claim has more than one debtor, each debtor shall be individually and severally liable for the full repayment of the entire credit claim.

Article 96

Location of the debtor or guarantor

1. The debtor in respect of a credit claim shall be established in a Member State whose currency is the euro.
2. The guarantor in respect of a credit claim shall also be established in a Member State whose currency is the euro, unless a guarantee is not needed to establish the credit quality requirements for non-marketable assets because there is an adequate credit assessment of the debtor.
3. For debtors or guarantors that are multilateral development banks or international organisations, the rules in paragraphs 1 and 2, respectively, shall not apply and they shall be eligible irrespective of their place of establishment.

Article 97

Governing laws

The credit claim agreement and the agreement between the counterparty and the Bank mobilising the credit claim as collateral shall both be governed by the law of a Member State whose

currency is the euro. Furthermore, there shall be no more than two governing laws in total that apply to the:

- (a) counterparty;
- (b) creditor;
- (c) debtor;
- (d) guarantor (if relevant);
- (e) credit claim agreement;
- (f) the agreement between the counterparty and the Bank mobilising the credit claim as collateral.

Article 98

Handling procedures

Credit claims shall be handled in accordance with the procedures established by the Bank as per Annex 13.

Article 99

Additional legal requirements for credit claims

1. In order to ensure that a valid security is created over credit claims and that the credit claim can be swiftly realised in the event of a counterparty default, additional legal requirements shall be met. These legal requirements relate to:

- (a) verification of the existence of credit claims;
- (b) validity of the agreement for the mobilisation of credit claims;
- (c) full effect of the mobilisation vis-à-vis third parties;
- (d) an absence of restrictions concerning mobilisation and realisation of credit claims;
- (e) an absence of restrictions concerning banking secrecy and confidentiality.

2. The content of these legal requirements is set out in Articles 100 to 105. Further details of the specific features are provided in Annex 13.

Article 100

Verifications of the procedures and systems used to submit credit claims

The Bank shall conduct a verification of the appropriateness of the procedures and systems used by the counterparty to submit the information on credit claims to the Eurosystem prior to the first mobilisation of credit claims by the counterparty. The verification of the procedures and systems shall subsequently be conducted at least once every five years. In the event of significant changes to such procedures or systems, a new verification may be conducted.

Article 101

Verification of existence of credit claims

1. The Bank shall, as a minimum, take all of the following steps to verify the existence of credit claims mobilised as collateral:

- (a) It shall obtain a written confirmation from counterparties, at least each quarter, by which counterparties shall confirm:
 - (i) the existence of the credit claims (this confirmation could be replaced with cross-checks of information held in central credit registers, where these exist);
 - (ii) the compliance of credit claims with the eligibility criteria applied by the Eurosystem;
 - (iii) that such credit claim is not used simultaneously as collateral to the benefit of any third party and that the counterparty shall not mobilise such credit claim as collateral to any third party;
 - (iv) that the counterparty will undertake to communicate to the Bank no later than within the course of the next business day, any event that materially affects the contractual relationship between the counterparty and the Bank, in particular early, partial or total repayments, downgrades and material changes in the conditions of the credit claim.
- (aa) They shall require counterparties to submit in relation to credit claims mobilised as collateral from May 2021, where applicable, the relevant analytical credit database

(AnaCredit) identifiers (i.e. the “Observed Agent” identifier, the “Contract” identifier and the “Instrument” identifier), as submitted under the statistical reporting requirements in accordance with Regulation (EU) 2016/867 of the European Central Bank (ECB/2016/13)¹³.

- (b) The Bank shall perform random checks in respect of the quality and accuracy of the written confirmation of counterparties, by means of delivery of physical documentation or through on-site visits. The information checked in relation to each credit claim shall cover as a minimum the characteristics that determine the existence and the eligibility of credit claims. For counterparties with ECAF-approved internal ratings-based (IRB) systems, additional checks on the credit quality assessment of credit claims shall be carried out involving checks of PDs with respect to debtors of credit claims that are used as collateral in Eurosystem credit operations.
2. For the checks that are undertaken in accordance with Article 100 or paragraphs 1(a) and (b) of this Article, the Bank shall carry out these investigations in accordance with the provisions of this Directive.

Article 102

Validity of the agreement for the mobilisation of credit claims

The agreement for the mobilisation of the credit claim as collateral shall be valid as between the counterparty and the Bank as specified in Annex 13. All the necessary legal formalities to ensure the validity of the agreement and to ensure the mobilisation of a credit claim as collateral shall be fulfilled by the counterparty and/or the transferee, as appropriate.

Article 103

Full effect of the mobilisation vis-à-vis third parties

1. The agreement for the mobilisation of the credit claim as collateral should be valid vis-à-vis third parties under the Maltese law. All legal formalities necessary to ensure valid mobilisation shall be fulfilled by the counterparty and/or the transferee, as appropriate.

¹³ Regulation (EU) 2016/867 of the European Central Bank of 18 May 2016 on the collection of granular credit and credit risk data (ECB/2016/13)(OJ L 144, 1.6.2016, p.44).

2. As regards notification of the debtor, the following shall apply, depending on the applicable national law.

(a) In accordance with article 5(3) of the Financial Collateral Arrangements Regulations, 2004 (S.L.459.01) the Bank's counterparties must give prior notice to their debtors of the provision of credit claims as collateral for central bank purposes. The Bank also requires the written acknowledgement by the debtor prior to the provision of a credit claim as collateral.

(b) The Bank reserves the right not to accept the *ex ante* written acknowledgement of the debtor submitted by the counterparty if this does not meet the Bank's requirements.

For credit claims that are bearer instruments, the Bank may require that such bearer instruments are physically transferred to it or to a third party in advance, or at the time of actual mobilisation as collateral. The notification requirements set out in points (a) and (b) shall not apply to credit claims that are bearer instruments.

3. Further details in relation to the notification requirements are provided in Annex 13.

Article 104

Absence of restrictions concerning mobilisation and realisation of credit claims

1. Credit claims shall be fully transferable and capable of being mobilised without restriction for the benefit of the Eurosystem. The credit claim agreement or other contractual arrangements between the counterparty and the debtor shall not contain any restrictive provisions on mobilisation as collateral, unless national legislation provides that such contractual restrictions are without prejudice to the Eurosystem with respect to the mobilisation of collateral.

2. The credit claim agreement or other contractual arrangements between the counterparty and the debtor shall not contain any restrictive provisions regarding the realisation of the credit claim used as collateral for Eurosystem credit operations, including any form, time or other requirement with regard to realisation.

3. Notwithstanding paragraphs 1 and 2, the provisions restricting the assignment of syndicated loan shares to banks, financial institutions and entities which are regularly engaged in or established for the purpose of creating, purchasing or investing in loans, securities or other financial assets shall not be considered as a restriction on the realisation of the credit claim.

3a. From 1 January 2018, the Bank shall employ a mechanism to ensure that set-off risk has been excluded or significantly mitigated when it accepts as collateral credit claims originated after that date. Credit claims originated before 1 January 2018 which have not been subject to that mechanism may be mobilised as collateral until 31 December 2019 provided that all other eligibility criteria are fulfilled.

4. Notwithstanding paragraphs 1 and 2, a facility agent for the collection and distribution of payments and administration of the loan shall not be considered as a restriction on the mobilisation and realisation of a syndicated loan share, provided that: (a) the facility agent is a credit institution located in the Union; and (b) the service relationship between the relevant syndicate member and the facility agent can be transferred alongside or as part of the syndicated loan share.

Article 105

Absence of restrictions concerning banking secrecy and confidentiality

The counterparty and the debtor shall have agreed contractually that the debtor unconditionally consents to disclosure by the counterparty to the Eurosystem of details in respect of the credit claim and on the debtor that are required by the Bank for the purpose of ensuring that a valid security is created over credit claims and that the credit claims can be swiftly realised in the event of a counterparty default

Section 2 - Eligibility criteria for fixed-term deposits

Article 106

Eligibility criteria for fixed-term deposits

Fixed-term deposits, as described in Article 12, that are held by a counterparty shall be eligible assets as collateral for Eurosystem credit operations.

Section 3 - Eligibility criteria for RMBDs

Article 107

Eligibility criteria for RMBDs

1. A RMBD shall be a promissory note or a bill of exchange that is secured by a pool of residential mortgages but falls short of full securitisation. Substitution of assets in the underlying pool shall be possible. The Bank shall enjoy priority over creditors in respect of this pool in accordance with the terms of article 17(7) of the Act.
2. RMBDs shall have a fixed, unconditional principal amount and an interest rate that cannot result in a negative cash flow.
3. RMBDs shall comply with the Eurosystem's credit quality requirements specified in the ECAF rules for RMBDs as laid down in Chapter 2 of Title III of this Part Four.
4. RMBDs shall be issued by credit institutions that are counterparties which are established in a Member State whose currency is the euro.
5. RMBDs shall be denominated in euro or in one of the former currencies of Member States whose currency is the euro.
6. An issuer of RMBDs shall self-certify, as a minimum on a monthly basis that the residential mortgages that form the cover pool comply with the eligibility criteria specified in this Directive
7. The mobilisation, use and handling procedures in respect of RMBDs shall be subject to the Eurosystem procedures as defined in this Directive.

Section 4 – Eligibility criteria for DECCs

Article 107a

Eligible type of asset

1. The eligible type of asset shall be debt instruments within the definition of DECCs given in Article 2(70a).

2. DECCs shall have a fixed unconditional principal amount and a coupon structure that complies with the criteria set forth in Article 63. The cover pool shall only contain credit claims for which either:
 - (a) a specific ECB DECC loan-level data reporting template; or
 - (b) an ABS loan-level data template in accordance with Article 73;is available.
3. The underlying credit claims shall be those granted to debtors established in a Member State whose currency is the euro. The originator shall be a Eurosystem counterparty established in a Member State whose currency is the euro and the issuer shall have acquired the credit claim from the originator.
4. The DECC issuer shall be a special purpose entity established in a Member State whose currency is the euro. Parties to the transaction, other than the issuer, the debtors of the underlying credit claims, and the originator, shall be established in the EEA.
5. The DECCs shall be denominated in euro or in one of the former currencies of the Member States whose currency is the euro.
4. After having carried out a positive assessment, the Eurosystem shall approve the DECC structure as being eligible as Eurosystem collateral.
5. The governing law applicable to the DECC, the originator, the debtors and, where relevant, the guarantors of the underlying credit claims, the underlying credit claim agreements and any agreements ensuring the direct or indirect transfer of the underlying credit claims from the originator to the issuer shall be the law of the jurisdiction where the issuer is established.
6. DECCs shall comply with the requirements on the place of issue and settlement procedures as laid down in Articles 66 and 67.

Article 107b

Non-subordination with respect to DECCs

DECCs shall not give rise to rights to the principal and/or the interest that are subordinated to the rights of holders of other debt instruments of the same issuer.

Article 107c

Credit quality requirements

DECCs shall comply with the Eurosystem's credit quality requirements as laid down in Section 3 of Chapter 2 of Title III of this Part Four.

Article 107d

Acquisition of the underlying credit claims by the issuer

The pool of underlying credit claims shall have been acquired by the issuer from the originator in a manner which the Eurosystem considers to be a "true sale" or equivalent to a "true sale" that is enforceable against any third party, and which is beyond the reach of the originator and its creditors, including in the event of the originator's insolvency.

Article 107e

Transparency requirements for DECCs

1. DECCs shall fulfil transparency requirements at the level of the DECCs' structure and at the level of the underlying individual credit claims.
2. At the level of the DECCs' structure, detailed information on the DECCs' key transaction data, such as identification of the parties to the transaction, a summary of the DECCs' key structural features, a summary description of collateral and the DECCs' terms and conditions shall be made publicly available. The Eurosystem may, in the course of its assessment, require any transaction documentation and legal opinions deemed necessary from any third party it considers relevant, including, but not restricted to, the issuer and/or the originator.
3. At the level of the underlying individual credit claims, comprehensive and standardised loan-level data on the pool of underlying credit claims shall be made available in accordance with the procedures and subject to the same checks applicable to cash-flow generating assets backing ABSs as set out in Annex 8, except with respect to the reporting frequency, the applicable loan-level data reporting template and the submission by the relevant parties of loan-level data to a loan-level data repository. In order for DECCs to be

eligible, all underlying credit claims shall be homogenous, i.e. it must be possible to report them using a single ECB DECC loan-level reporting template. The Eurosystem may determine that a DECC is not homogenous after evaluating the relevant data.

4. Loan-level data shall be reported on at least a monthly basis, no later than one month following the cut-off date. The cut-off date for which loan-level data shall be reported is the last calendar day of the month. If loan-level data are not reported or updated within one month following the cut-off date, then the DECC shall cease to be eligible.
5. Data quality requirements applied for ABSs shall apply to DECCs, including the specific ECB DECC loan-level data reporting template. The loan-level data shall be submitted in the specific ECB DECC loan-level data reporting template, as published on the ECB's website, to:
 - (a) an ESMA securitisation repository; or
 - (b) a Eurosystem designated repository.
- 5a. Submissions of loan-level data on DECCs to ESMA securitisation repositories in accordance paragraph 5(a) shall commence at the beginning of the calendar month immediately following the date which is three months from the ESMA reporting activation date.

Submissions of loan-level data on DECCs to Eurosystem designated repositories in accordance with paragraph 5(b) shall be permitted until the end of the calendar month in which the date three years and three months from the ESMA reporting activation date falls.

The ESMA reporting activation date shall be published by the ECB on its website.

6. In its eligibility assessment, the Eurosystem shall take into account: (a) any failure to deliver mandatory data; and (b) how often individual loan-level data fields do not contain meaningful data.

Article 107f

Types of eligible underlying credit claims

1. Each underlying credit claim shall comply with the eligibility criteria for credit claims provided for in Section 1, Chapter 1 of Title III of Part Four, subject to the modifications

set out in this Article.

2. To ensure that a valid security is created over the underlying credit claims, enabling the issuer and the holders of the DECCs to swiftly realise those claims in the event of the originator's default, the following additional legal requirements as specified in paragraphs 3 to 9 shall be met:

- (a) verification of the existence of the underlying credit claims;
- (b) validity of the agreement for the mobilisation of underlying credit claims;
- (c) full effect of the mobilisation vis-à-vis third parties;
- (d) an absence of restrictions on the transfer of the underlying credit claims;
- (e) an absence of restrictions on the realisation of the underlying credit claims;
- (f) an absence of restrictions related to banking secrecy and confidentiality.

Further details of the specific features of the national jurisdictions shall be provided in the relevant national documentation of the NCBs.

3. The NCB of the country where the originator is established, or supervisors or external auditors, shall conduct a one-off verification of the appropriateness of the procedures used by the originator to submit the information on the underlying credit claims to the Eurosystem.

4. The NCB of the country where the originator is established shall, as a minimum, take all of the following steps to verify the existence of the underlying credit claims:

- (a) It shall obtain written confirmation from the originator, at least on a quarterly basis, by which the originators shall confirm:
 - (i) the existence of the underlying credit claims: this confirmation could be replaced with cross-checks of information held in central credit registers, where these exist;
 - (ii) compliance of the underlying credit claims with the eligibility criteria applied by the Eurosystem;
 - (iii) that the underlying credit claims are not used simultaneously as collateral to the benefit of any third party and that the originator will not mobilise such underlying credit claims as collateral to the Eurosystem or any third

party;

- (iv) that the originator will undertake to communicate to the relevant NCB no later than within the course of the next business day, any event that materially affects the collateral value of the underlying credit claims, in particular early, partial or total repayments, downgrades and material changes in the conditions of the underlying credit claims.
 - (b) The NCB of the country where the originator is located or the relevant central credit registers, banking supervision competent authorities or external auditors, shall perform random checks in respect of the quality and accuracy of the written confirmation of originators, by means of delivery of physical documentation or through on-site visits. The information checked in relation to each underlying credit claim shall cover as a minimum the characteristics that determine the existence and the eligibility of underlying credit claims. For originators with ECAF-approved internal ratings-based (IRB) systems, additional checks on the credit quality assessment of underlying credit claims shall be carried out involving checks of PDs with respect to debtors of credit claims backing DECCs that are used as collateral in Eurosystem credit operations.
 - (c) For the checks that are undertaken in accordance with Article 107f(3), (4)(a) or (4)(b) by NCB of the country where the originator is located, supervisors, external auditors or central credit registers, those undertaking the checks shall be authorised to carry out these investigations, if necessary contractually or in accordance with the applicable national requirements.
5. The agreement for the transfer of the underlying credit claims to the issuer or for their mobilisation by way of transfer, assignment or pledge shall be valid between the issuer and the originator and/or the transferee/assignee/pledgee, as appropriate, under the applicable national law. All the necessary legal formalities to ensure the validity of the agreement and to ensure the valid indirect or direct transfer of the underlying credit claims as collateral shall be fulfilled by the originator and/or the transferee, as appropriate. As regards notification of the debtor, the following shall apply, depending on the applicable national law.
- (a) At times it may be necessary to have debtor notification or public registration

of: (i) the transfer (direct or indirect) of the underlying credit claims to the issuer; or (ii) when counterparties mobilise DECCs as collateral to the Bank to ensure full effectiveness of such a transfer or mobilisation vis-à-vis third parties; and in particular (iii) to ensure the priority of the issuer's security interest (with respect to the underlying credit claims) and/or the Bank's security interest (with respect to the DECCs as collateral) vis-à-vis other creditors. In such cases, these notification or registration requirements shall be completed: (i) in advance or at the time of the underlying credit claims' actual transfer (direct or indirect) to the issuer; or (ii) at the time that counterparties mobilise the DECCs as collateral to the Bank .

- (b) If ex-ante notification of the debtor or public registration is not required in accordance with point (a), as specified in the applicable national documentation, ex-post notification of the debtor is required. Ex-post notification means that the debtor shall be notified, as specified by national documentation, about the underlying credit claims being transferred or mobilised immediately following an event of default or similar credit event as further specified in the applicable national documentation.
- (c) Points (a) and (b) are minimum requirements. The Eurosystem may decide to require ex-ante notification or registration in addition to the situations above, including in the case of bearer instruments.

- 6. The underlying credit claims shall be fully transferable and capable of being transferred to the issuer without restriction. The underlying credit claims agreements or other contractual arrangements between the originator and the debtor shall not contain any restrictive provisions on transfer of collateral. The underlying credit claims agreements or other contractual arrangements between the originator and the debtor shall not contain any restrictive provisions regarding the realisation of the underlying credit claims, including any restrictions regarding form, time or other requirement with regard to realisation, so the Eurosystem shall be able to realise the DECCs' collateral.
- 7. Notwithstanding paragraph 6, the provisions restricting the assignment of syndicated loan shares to banks, financial institutions and entities which are regularly engaged in or established for the purpose of creating, purchasing or investing in loans, securities or other

- financial assets shall not be considered as a restriction on the realisation of the underlying credit claims.
8. Notwithstanding paragraphs 6 and 7, a facility agent for the collection and distribution of payments and administration of the loan shall not be considered as a restriction on the transfer and realisation of a syndicated loan share, provided that:
 - (a) the facility agent is a credit institution located in a Member State; and
 - (b) the service relationship between the relevant syndicate member and the facility agent can be transferred alongside or as part of the syndicated loan share.
 9. The originator and the debtor shall have agreed contractually that the debtor unconditionally consents to disclosure by the originator, issuer and any counterparty mobilising the DECC to the Eurosystem of details in respect of that underlying credit claim and on the debtor that are required by the relevant NCB for the purpose of ensuring that a valid security is created over the underlying credit claims and that the underlying credit claims can be swiftly realised in the event the originator/issuer defaults.

Chapter 2 - Eurosystem's credit quality requirements for non-marketable assets

Article 108

Eurosystem's credit quality requirements for non-marketable assets

In order for non-marketable assets to be eligible, the following Eurosystem credit quality requirements shall apply.

- (a) For credit claims, the credit quality of credit claims shall be assessed on the basis of the credit quality of the debtor or guarantor, which shall comply, as a minimum, with credit quality step 3, as specified in the Eurosystem's harmonised rating scale.
- (b) For RMBDs, a credit quality assessment shall comply, as a minimum, with credit quality step 2, as specified in the Eurosystem's harmonised rating scale.

Section 1 - Eurosystem's credit quality requirements for credit claims

Article 109

General rules for the credit quality assessment of credit claims

1. The Eurosystem shall assess the credit quality of credit claims on the basis of the credit quality of the debtors or guarantors provided by the credit assessment system or source selected by the counterparty in accordance with Article 110.
2. Counterparties shall within the course of the next business day inform the Bank of any credit event, including a delay in payments by the debtors of the credit claims mobilised as collateral, that is known to the counterparty and, if requested by the Bank, withdraw or replace the assets.
3. Counterparties shall be responsible for ensuring that they use the most recent credit quality assessment available from their selected credit assessment system or source for the debtors or guarantors of credit claims mobilised as collateral.

Article 110

Selection of the credit assessment system or source

1. Counterparties mobilising credit claims as collateral shall select one credit assessment system from one of the four credit assessment sources accepted by the Eurosystem in accordance with the general acceptance criteria in Title V of Part Four. Where the ECAI source is selected by counterparties, any ECAI system may be used.
2. Further to paragraph 1, the Bank may allow counterparties to use more than one credit assessment system or source upon submission of a reasoned request to the Bank supported by an adequate business case based on the lack of sufficient coverage of the 'main' credit assessment source or system.
3. In cases where counterparties are allowed to use more than one credit assessment system or credit assessment source, the 'main' system or source is expected to be the one providing the credit quality assessment of the largest number of debtors from the credit claims mobilised as collateral. If a credit assessment for a debtor or guarantor is available from this main system or

source, only this credit assessment shall determine the eligibility and valuation haircuts applicable to the debtor or guarantor.

4. Counterparties shall use the selected credit assessment systems or sources for a minimum period of 12 months.

5. After the period specified in paragraph 4, counterparties may submit an explicit reasoned request to the Bank to change the selected credit assessment system or source.

6. In certain circumstances and particularly when a counterparty phases-in its IRB system or begins using credit claims as collateral, upon submission of a reasoned request, the Bank may exceptionally grant a derogation to a counterparty with respect to the 12-month minimum period restriction specified in paragraph 4 and allow the counterparty to change its selected credit assessment system or source within that period.

7. If the counterparty has chosen the ECAI credit assessment source, it may use an ECAI debtor or ECAI guarantor rating. If multiple ECAI debtor and/or ECAI guarantor ratings are available for the same credit claim, then the best available ECAI credit assessment of those may be used.

Article III

Credit assessment of credit claims with public sector entities, or non-financial corporations, as debtors or guarantors

1. The Eurosystem shall assess the credit quality of credit claims with public sector entities acting as debtors or guarantors in accordance with the following rules, applied in the following order.

- (a) If a credit assessment from the system or source selected by the counterparty exists, the Eurosystem shall use it to establish whether the public sector entity acting as debtor or guarantor meets the Eurosystem's credit quality requirements for non-marketable assets laid down in Article 108.
- (b) In the absence of a credit assessment under point (a), the Eurosystem shall use an ECAI credit assessment provided by an accepted ECAI system for the public sector entity acting as debtor or guarantor.

- (c) If a credit assessment is unavailable pursuant to points (a) or (b), the procedure laid down in Article 87 for marketable assets shall apply to the relevant public sector entity as debtor or guarantor.
2. The Eurosystem shall assess the credit quality of credit claims with non-financial corporations as debtors or guarantors as follows: the credit assessment provided by the credit assessment system or source selected by the counterparty shall meet the Eurosystem's credit quality requirements for non-marketable assets laid down in Article 108.

Section 2 - Eurosystem's credit quality requirements for RMBDs

Article 112

Establishment of Eurosystem's credit quality requirements for RMBDs

For the purpose of meeting the credit quality requirements laid down in Article 108, the Bank shall assess the credit quality of RMBDs on the basis of a jurisdiction-specific credit assessment framework laid down in this Directive.

Section 3 - Eurosystem's credit quality requirements for DECCs

Article 112a

The Eurosystem's credit quality requirements for DECCs

1. DECCs shall not be required to be assessed by one of the four credit assessment sources accepted by the Eurosystem in accordance with the general acceptance criteria in Title V of Part Four.
2. Each underlying credit claim in the cover pool of DECCs shall have a credit assessment provided by one of the four credit assessment sources accepted by the Eurosystem in accordance with the general acceptance criteria in Title V of Part Four. In addition, the credit assessment system or source used shall be the same system or source selected by the originator in accordance with Article 110. The rules on the Eurosystem's credit quality requirements for the underlying credit claims laid down in Section 1 shall be applicable.

3. The credit quality of each underlying credit claim in the cover pool of DECCs shall be assessed on the basis of the credit quality of the debtor or guarantor, which shall comply, as a minimum, with credit quality step 3, as specified in the Eurosystem's harmonised rating scale.

TITLE IV - Guarantees for marketable and non-marketable assets

Article 113

Applicable requirements for guarantees

1. The Eurosystem's credit quality requirements may be established on the basis of credit assessments provided in respect of guarantors in accordance with Articles 82 to 84 in respect of marketable assets and Article 108 in respect of credit claims.
2. Guarantees provided by guarantors that are required to establish the Eurosystem's credit quality requirements shall comply with this Title.
3. For the purposes of paragraph 1, the relevant guarantor shall be separately assessed on the basis of its credit assessment and shall meet the Eurosystem's credit quality requirements.

Article 114

Features of the guarantee

1. In accordance with the terms of the guarantee, the guarantor shall provide an unconditional and irrevocable first-demand guarantee in respect of the obligations of the issuer or debtor in relation to the payment of the principal, interest and any other amounts due under the marketable asset or credit claim to the holders or creditor thereof, until the marketable asset or credit claim is discharged in full. In this regard, a guarantee shall not be required to be specific to the marketable asset or credit claim but may apply to the issuer or debtor only, provided that the relevant marketable asset or credit claim is covered by the guarantee.
2. The guarantee shall be payable on first demand independently of the guaranteed marketable asset or credit claim. Guarantees given by public sector entities with the right to levy taxes shall

either be payable on first demand or otherwise provide for prompt and punctual payment following any default.

3. The guarantee shall be legally valid, binding and enforceable against the guarantor.

4. The guarantee shall be governed by the law of a Member State.

5. If the guarantor is not a public sector entity with the right to levy taxes, a legal confirmation concerning the legal validity, binding effect and enforceability of the guarantee shall be submitted to the Bank in a form and substance acceptable to the Eurosystem before the marketable assets or credit claim supported by the guarantee can be considered eligible. The legal confirmation shall be prepared by persons who are independent of the counterparty, the issuer/debtor and the guarantor, and legally qualified to issue such confirmation under the applicable law, e.g. lawyers practising in a law firm, or working in a recognised academic institution or public body. The legal confirmation shall also state that the guarantee is not a personal one and is only enforceable by the holders of the marketable assets or the creditor of the credit claim. If the guarantor is established in a jurisdiction other than the one of the law governing the guarantee, the legal confirmation shall also confirm that the guarantee is valid and enforceable under the law of the jurisdiction in which the guarantor is established. For marketable assets, the legal confirmation shall be submitted by the counterparty for review to the NCB that is reporting the relevant asset supported by a guarantee for inclusion in the list of eligible assets. For credit claims, the legal confirmation shall be submitted by the counterparty seeking to mobilise the credit claim for review to the NCB in the jurisdiction of the law governing the credit claim. The requirement of enforceability is subject to any insolvency or bankruptcy laws, general principles of equity and other similar laws and principles applicable to the guarantor and generally affecting creditors' rights against the guarantor.

Article 115

Non-subordination of the obligations of the guarantor

The obligations of the guarantor under the guarantee shall at least rank equally, *pari passu*, and rateably, *pro rata*, with all other unsecured obligations of the guarantor.

Article 116

Credit quality requirements for guarantors

The guarantor shall comply with the Eurosystem's credit quality requirements specified under the ECAF rules for guarantors of marketable assets laid down in Articles 82 to 84 or with the rules for guarantors of credit claims laid down in Article 108.

Article 117

Type of guarantor

The guarantor shall be:

- (a) for marketable assets in accordance with Article 69: a central bank of a Member State, a public sector entity, an agency, a credit institution, a financial corporation other than a credit institution, a non-financial corporation, a multilateral development bank or an international organisation; or
- (b) for credit claims in accordance with Article 95: a non-financial corporation, a public sector entity, a multilateral development bank or an international organisation.

Article 118

Place of establishment of guarantor

1. The guarantor shall be established:
 - (a) in the case of marketable assets in accordance with Article 70, in the EEA, unless a guarantee is not needed to establish the credit quality requirements for a specific debt instrument. The possibility to use an ECAI guarantor rating to establish the relevant credit quality requirements for marketable assets is addressed in Article 84.
 - (b) for debt instruments guaranteed by non-financial corporations for which no credit assessment has been provided by an accepted ECAI for the issue, the issuer or the guarantor, in accordance with Article 70, the guarantor shall be established in a Member State whose currency is the euro;

- (c) in the case of credit claims in accordance with Article 96, in a Member State whose currency is the euro, unless a guarantee is not needed to establish the credit quality requirements for non-marketable assets. The option to use a credit assessment in respect of a guarantor to establish the relevant credit quality requirements for credit claims is addressed in Article 108.
2. Notwithstanding paragraph 1, in accordance with Articles 70 and 96, multilateral development banks and international organisations shall be eligible guarantors irrespective of their place of establishment.

TITLE V - Eurosystem credit assessment framework for eligible assets

Article 119

Accepted credit assessment sources and systems

1. The credit assessment information on which the Eurosystem bases the eligibility assessment of assets eligible as collateral for Eurosystem credit operations shall be provided by credit assessment systems belonging to one of the three following sources:
- (a) ECAIs;
 - (b) NCBs' in-house credit assessment systems (ICASs);
 - (c) counterparties' internal rating-based (IRB) systems.
2. Under each credit assessment source listed in paragraph 1 there may be a set of credit assessment systems. Credit assessment systems shall comply with the acceptance criteria laid down in this Title. A list of the accepted credit assessment systems, i.e. the list of accepted ECAIs and ICASs is published on the ECB's website.
3. All accepted credit assessment systems shall be subject to the ECAF performance monitoring process as laid down in Article 126.
4. By publishing information on the accepted credit assessment systems in conjunction with its Eurosystem credit operations, the Eurosystem shall not assume any responsibility for its evaluation of accepted credit assessment systems.

5. In the event of an infringement of the ECAF rules and procedures, the relevant credit assessment system may be excluded from the ECAF-accepted systems.

Article 120

General acceptance criteria for the external credit assessment institutions as credit assessment systems

1. For the purposes of the ECAF, the general acceptance criteria for ECAIs shall be the following:

(a) ECAIs shall be registered by the European Securities and Markets Authority, in accordance with Regulation (EC) No 1060/2009.

(b) ECAIs shall fulfil operational criteria and provide relevant coverage so as to ensure the efficient implementation of the ECAF. In particular, the use of an ECAI credit assessment is subject to the availability to the Eurosystem of information on these assessments, as well as information for the comparison and the assignment, i.e. mapping of the assessments to the Eurosystem's credit quality steps and for the purposes of the performance monitoring process under Article 126.

2. Following the application process outlined in Annex 9C, the Eurosystem reserves the right to decide whether to initiate an ECAF acceptance procedure upon request from a credit rating agency (CRA). In making its decision, the Eurosystem shall take into account, among other things, whether the CRA provides relevant coverage for the efficient implementation of the ECAF in accordance with the requirements set out in Annex 9A.

2a. Following the initiation of an ECAF acceptance procedure, the Eurosystem shall investigate all additional information deemed relevant to ensure the efficient implementation of the ECAF, including the ECAI's capacity (i) to fulfil the criteria and rules of the ECAF performance monitoring process in accordance with the requirements set out in Annex 9 and the specific criteria in Annex 9B (if relevant), and (ii) to comply with the acceptance criteria set out in Annex 9C. The Eurosystem reserves the right to decide whether to accept an ECAI for the purposes of the ECAF on the basis of the information provided and its own due diligence assessment.

3. Together with the submitted data for ECAF performance monitoring in accordance with Article 126, the ECAI shall submit a signed certification from the CEO of the ECAI, or

authorised signatory with responsibility for the audit or compliance function within the ECAI, confirming the accuracy and validity of the submitted performance monitoring information.

Article 121

General acceptance criteria and operational procedures for the NCBs' in-house credit assessment systems

1. The Bank may decide to use its own ICAS for the purpose of credit assessment. This decision shall be subject to a validation procedure by the Eurosystem.
2. A credit assessment by means of ICAS may be performed in advance, or on a counterparty's specific request upon submission of an asset to the Bank using ICAS (the 'ICAS NCB').
3. With regard to paragraph 2, upon submission of an asset to the ICAS NCB in respect of which the eligibility of a debtor or guarantor shall be assessed, the ICAS NCB informs the counterparty either of its eligibility status or of the lead time necessary to establish a credit assessment. If an ICAS is limited in scope and only assesses specific types of debtors or guarantors, or if the ICAS NCB is unable to receive the information and data necessary for its credit assessment, the ICAS NCB will inform the counterparty thereof without delay. In both cases, the relevant debtor or guarantor is considered ineligible, unless the assets are compliant with credit quality requirements in accordance with an alternative credit assessment source or credit assessment system which the counterparty is allowed to use according to Article 110. In the event that mobilised assets become ineligible due to the deterioration of the creditworthiness of the debtor or the guarantor, the asset shall be removed at the earliest possible date. Since there is neither a contractual relationship between the non-financial corporations and the ICAS NCB, nor any legal obligation for these corporations to provide non-public information to the ICAS NCB, the information is provided on a voluntary basis.
4. In countries in which RMBDs are mobilised as collateral for Eurosystem credit operations, the home NCB shall implement a credit assessment framework for this type of asset in accordance with the ECAF. Such frameworks shall be subject to a validation procedure by the Eurosystem and to a yearly performance monitoring process, as further specified in Article 126.

Article 122

General acceptance criteria for internal ratings-based systems

1. To obtain ECAF approval of an IRB system, a counterparty shall file a request with the Bank.
2. The requirement in paragraph 1 shall apply to all counterparties intending to use an IRB system regardless of their status, i.e. parent, subsidiary or branch, and regardless of whether the endorsement of the IRB system comes from the competent authority in the same country, for a parent company and possibly for subsidiaries, or from a competent authority in the home country of the parent, for branches and possibly for subsidiaries.
3. A request filed by a counterparty in accordance with paragraph 1 shall include the following information and documents which, if necessary, shall be translated into a working language of the Bank:
 - (a) a copy of the decision of the competent authority authorising the counterparty to use its IRB system for capital requirements purposes on a consolidated or non-consolidated basis, together with any specific conditions for such use;
 - (b) an up-to-date assessment by the competent authority reflecting the currently available information on all issues affecting the use of the IRB for collateral purposes and all issues relating to the data used for the ECAF performance monitoring process;
 - (c) information on any changes to the counterparty's IRB system recommended or required by the competent authority, together with the deadline by which such changes must be implemented;
 - (d) information on its approach to assigning probabilities of default to debtors, as well as data on the rating grades and associated one-year probabilities of default used to determine eligible rating grades;
 - (e) a copy of the latest Pillar 3 (market discipline) information that the counterparty is required to publish on a regular basis in accordance with the requirements on market discipline under the Basel III Framework, Directive 2013/36/EU and Regulation (EU) No 575/2013;
 - (f) the name and the address of the competent authority and the external auditor;

- (g) information on the historical record of the counterparty's IRB system's observed default rates per rating grades covering the five calendar years preceding the relevant request. If the competent authority granted the IRB system's authorisation for capital requirements purposes during these calendar years, the information shall cover the time since the IRB system's authorisation for capital requirements purposes. The historical annual data on the observed default rates and potential additional information shall comply with the provisions for performance monitoring in Article 126 as if the IRB system had been subject to these provisions over this time period;
 - (h) information required for performance monitoring outlined in Article 126 as requested from already ECAF-approved IRB systems for the ongoing calendar year at the time of the filing of the request.
4. A counterparty shall not be required to file the information under points (a) to (c) when such information is transmitted directly by the competent authority to the Bank upon the Bank's request.
5. The request made by the counterparty under paragraph 1 shall be signed by the counterparty's CEO, CFO or a manager of similar seniority, or by an authorised signatory on behalf of one of them.

Article 123

Reporting obligations of counterparties using an internal ratings-based system

1. Counterparties shall communicate information to the Bank on Article 122(3)(b) to (f) on an annual basis, or as and when required by the Bank, unless such information is transmitted directly by the competent authority to the Bank upon the Bank's request.
2. The annual communication referred to in paragraph 1 shall be signed by the counterparty's CEO, CFO or a manager of similar seniority, or by an authorised signatory on behalf of one of them. The competent authority and, where applicable, the external auditor of the counterparty shall receive a copy of this letter from the Eurosystem.
3. As part of the regular monitoring on IRB systems, the Bank shall perform on- and off-site inspections on the statistical information provided by counterparties for the purpose of the annual

performance monitoring process. The objective of such controls shall be to verify that static pools are correct, accurate and complete.

4. Counterparties shall fulfil any further operational criteria as may be specified by the Bank in this Directive, including provisions in relation to:

- (a) ad hoc checks on the procedures in place for communicating a credit claim's features to the Bank;
- (b) annual checks by the Bank (or, where relevant, the competent authority or external auditor) to establish the accuracy and validity of static pools as referred to in Annex 9;
- (c) the provision, no later than within the course of the next business day, of information in respect of eligibility changes and the immediate withdrawal of relevant credit claims, if necessary;
- (d) notifications to the Bank of facts or circumstances that could materially influence the continued use of the IRB system for ECAF purposes or the way in which the IRB system leads to the establishment of eligible collateral, including in particular material changes to a counterparty's IRB system which may impact on the manner in which the IRB system's rating grades or probabilities of default correspond with the Eurosystem harmonised rating scale.

Article 124

Deleted by Article 1 of Guideline ECB/2015/34

Article 125

Deleted by Article 1 of Guideline ECB/2015/34

Article 126

ECAF performance monitoring process

1. On an annual basis, all accepted credit assessment systems shall be subject to the ECAF performance monitoring process, in accordance with Annex 9, for the purpose of ensuring that the mapping of the credit assessment information provided by the credit assessment system to the Eurosystem's harmonised rating scale remains appropriate and that the results from credit assessments are comparable across systems and sources.
2. The Eurosystem reserves the right to request any additional information required to conduct the performance monitoring process.
3. The performance monitoring process may result in a correction of the manner in which the credit assessment information provided by the credit assessment system corresponds to the Eurosystem's harmonised rating scale.
4. The Eurosystem may decide to suspend or exclude a credit assessment system on the basis of the outcome of the performance monitoring process.
5. In the event of an infringement of a rule in relation to the ECAF performance monitoring process, the relevant credit assessment system may be excluded from the list of ECAF-accepted systems.

TITLE VI - Risk control and valuation framework of marketable and non-marketable assets

Article 127

Purpose of the risk control and valuation framework

1. Eligible assets mobilised as collateral for Eurosystem credit operations shall be subject to the risk control measures laid down in Article 128(1), which aim to protecting the Eurosystem against the risk of financial loss in the event of a counterparty's default.
2. The Eurosystem may at any time apply additional risk control measures, as laid down in Article 128(2), if required to ensure adequate risk protection of the Eurosystem in line with

Article 18.1 of the Statute of the ESCB. Additional risk control measures may also be applied at the level of individual counterparties, if required to ensure such protection.

3. All risk control measures applied by the Eurosystem shall ensure consistent, transparent and non-discriminatory conditions for any type of mobilised eligible asset across the Member States whose currency is the euro.

Article 128

Risk control measures

1. The Eurosystem shall apply the following risk control measures for eligible assets:
 - (a) valuation haircuts as laid down in Annex 10;
 - (b) variation margins (marking-to-market):

the Eurosystem requires the haircut-adjusted market value of the eligible assets used in its liquidity-providing reverse transactions to be maintained over time. If the value of the eligible assets, which are measured on a daily basis, falls below a certain level, the Bank shall require the counterparty to supply additional assets or cash by way of a margin call. Similarly, if the value of the eligible assets exceeds a certain level following their revaluation, the Bank may return the excess assets or cash;
 - (c) limits in relation to the use of unsecured debt instruments issued by a credit institution or by any other entity with which that credit institution has close links as described in Article 138;
 - (d) valuation markdowns as laid down in Annex 10;
2. The Eurosystem may apply the following additional risk control measures:
 - (a) initial margins, meaning that counterparties provide eligible assets with a value at least equal to the liquidity provided by the Eurosystem plus the value of the relevant initial margin;
 - (b) limits in relation to issuers, debtors or guarantors;
 - (c) the Eurosystem may apply additional limits, other than those applied to the use of unsecured debt instruments referred to in paragraph (1)(c), to the exposure vis-à-vis issuers, debtors or guarantors;

- (d) supplementary haircuts;
- (e) additional guarantees from guarantors meeting the Eurosystem's credit quality requirements in order to accept certain assets;
- (f) the exclusion of certain assets from use as collateral in Eurosystem credit operations.

Chapter 3 - Valuation rules for marketable and non-marketable assets

Article 134

Valuation rules for marketable assets

For the purposes of determining the value of assets used as collateral in open market operations conducted by means of reverse transactions, the Bank shall apply the following rules.

- (a) For each eligible marketable asset, the Eurosystem shall define the most representative price to be used for the calculation of the market value.
- (b) A marketable asset's value shall be calculated on the basis of the most representative price on the business day preceding its valuation date. In the absence of a representative price for a particular asset the Eurosystem shall define a theoretical price.
- (c) The market or theoretical value of a marketable asset shall be calculated including accrued interest.
- (d) For the income flow, such as coupon payments that are related to an asset and are received by the Bank, which are transferred to the counterparty, the Bank shall ensure that the relevant operations are still fully covered by a sufficient amount of eligible assets.

Article 135

Valuation rules for non-marketable assets

Non-marketable assets shall be assigned a value by the Eurosystem corresponding to the outstanding amount of such non-marketable assets.

Article 136

Margin calls

1. Assets mobilised as collateral for Eurosystem credit operations shall be subject to daily valuation by the Bank, in accordance with the valuation rules laid down in Articles 134 and 135. If tri-party services are used, the daily valuation process shall be delegated to the relevant TPA and shall be based on information sent by the Bank to the TPA.

2. If, after valuation and haircuts, the mobilised assets do not match the requirements as calculated on that day, margin calls shall be performed. If the value of the eligible assets mobilised as collateral by a counterparty, following their revaluation, exceeds the amount owed by the counterparty plus the variation margin, the Bank may return the excess assets or any cash that the counterparty has provided for a margin call.
3. In order to reduce the frequency of margin calls, the Bank may apply a threshold of 0.5 % of the amount of liquidity provided. Depending on the applicable national law, if the value of the mobilised assets as collateral falls below the lower threshold, the Bank may require margin calls to be effected either through the supply of additional assets or by means of cash payments by the counterparty. Conversely, if the value of the assets used as collateral exceeds the upper threshold, the Bank may return the excess assets (or cash submitted to meet a margin call) to the counterparty.
4. The deposit facility rate shall also apply to cash margins.

TITLE VII - Acceptance of non euro-denominated collateral in contingencies

Article 137

Acceptance of non euro-denominated collateral in contingencies

1. The ECB's Governing Council may decide to accept certain marketable assets issued by non-euro area G10 central governments in their national currency as collateral. Upon such a decision by the ECB's Governing Council, counterparties shall be informed about the applicable:
 - (a) eligibility criteria;
 - (b) procedures for selection and mobilisation;
 - (c) sources and principles of valuation;
 - (d) risk control measures;
 - (e) settlement procedures.
2. The general eligibility criteria for marketable assets laid down in Title II of Part Four shall apply, except that marketable assets:
 - (a) may be issued, held and settled outside the EEA;

- (b) may be denominated in currencies other than the euro; and
 - (c) shall not have a coupon value that results in a negative cash flow.
3. Counterparties that are branches of credit institutions incorporated outside the EEA or Switzerland shall not be entitled to mobilise as collateral the marketable assets laid down in this Article.

TITLE VIII - Rules for the use of eligible assets

Article 138

Close links between counterparties and the issuer, debtor or guarantor of eligible assets

1. Irrespective of the fact that an asset is eligible, a counterparty shall not submit or use as collateral assets issued, owed or guaranteed by itself or by any other entity with which it has close links.
2. 'Close links' means any of the following situations in which the counterparty and the other entity referred to in paragraph 1 are linked:
 - (a) the counterparty owns directly, or indirectly through one or more other undertakings, 20% or more of the capital of that other entity;
 - (b) that other entity owns directly, or indirectly through one or more other undertakings, 20% or more of the capital of the counterparty;
 - (c) a third party owns, either directly or indirectly through one or more undertakings, 20% or more of the capital of the counterparty and 20% or more of the capital of the other entity.

For the purposes of assessing the existence of close links in the case of multi-cédulas, the Eurosystem shall apply a 'look-through approach', i.e. it shall consider close links between each of the underlying cédulas issuers and the counterparty.

3. Paragraph 1 shall not apply with respect to any of the following:
 - (a) close links, as defined in paragraph 2, created as a result of the existence of an EEA public sector entity that has the right to levy taxes and is either (i) an entity that owns directly, or indirectly through one or more undertakings, 20% or more of the capital

of the counterparty, or (ii) a third party that owns, directly or indirectly through one or more undertakings, 20% or more of the capital of the counterparty and 20% or more of the capital of the other entity, provided that no other close links exist between the counterparty and the other entity except the close links resulting from one or more EEA public sector entities that have the right to levy taxes;

(b) EEA-legislative covered bonds that:

- (i) meet the requirements set out in Article 129(1) to (3) and (6) of Regulation (EU) No 575/2013;
- (ii) do not contain in their cover pool unsecured debt instruments issued by the counterparty or any other entity closely linked to that counterparty, as defined in paragraph 2, and fully guaranteed by one or several EEA public sector entities which have the right to levy taxes; and
- (iii) have an ECAI issue rating as defined in point (a) of Article 83 which fulfils the requirements of Annex 9B;

(c) non-marketable RMBDs and DECCs;

4. If compliance with paragraph 3(b)(ii) needs to be verified, that is, for EEA legislative covered bonds, where the applicable legislation or prospectus do not exclude debt instruments referred to in paragraph 3(b)(ii) as cover pool assets and where the counterparty or an entity closely linked to the counterparty has issued such debt instruments, the Bank may take all or some of the following measures to conduct ad hoc checks of compliance with paragraph 3(b)(ii).

(a) The Bank may obtain regular surveillance reports providing an overview of assets in the cover pool of EEA legislative covered bonds;

(b) If surveillance reports do not provide sufficient information for verification purposes, the Bank may obtain a self-certification and undertaking of the counterparty mobilising an EEA legislative covered bond by which the counterparty shall confirm that the cover pool of EEA legislative covered bonds does not include, in breach of paragraph 3(b)(ii), unsecured bank bonds which are issued by that counterparty or any other entity closely linked to that counterparty, and are fully guaranteed by one or several EEA public sector entities which have the right to levy taxes. The counterparty's self-certification must be

signed by the counterparty's CEO, CFO or a manager of similar seniority, or by an authorised signatory on their behalf.

(c) On an annual basis, the Bank may obtain from the counterparty mobilising an EEA-legislative covered bonds an *ex post* confirmation by external auditors or cover pool monitors that the cover pool of EEA legislative covered bonds does not include, in breach of paragraph 3(b)(ii), unsecured bank bonds which are issued by that counterparty or any other entity closely linked to that counterparty, and are fully guaranteed by one or several EEA public sector entities which have the right to levy taxes.

(d) If the counterparty does not provide the self-certification or confirmation referred to in points (b) and (c) upon request from the Bank, the EEA legislative covered bond shall not be mobilised as collateral by that counterparty.

Article 138a

Use of debt instruments in connection with in-kind recapitalisation with public debt instruments

Public debt instruments used in an in-kind recapitalisation of a counterparty may only be used as collateral by that counterparty or by any other counterparty which has 'close links', as defined in Article 138(2), to that counterparty if the Eurosystem considers that the level of market access of their issuer is adequate, also taking into account the role played by such instruments in the recapitalisation.

Article 139

Use of guaranteed unsecured debt instruments issued by a counterparty or its closely linked entity

1. *Deleted*
2. In exceptional cases, the ECB's Governing Council may decide on temporary derogations from Article 138(1), by allowing a counterparty to use unsecured debt instruments issued by that counterparty or any other entity closely linked to that counterparty, and fully guaranteed by one or several EEA public sector entities which have the right to levy taxes, for a maximum of three years. A request for a derogation shall be accompanied by a funding plan by the requesting

counterparty that indicates the manner in which the mobilisation of the respective assets will be phased out within three years following the granting of the derogation. Such a derogation shall only be provided where the nature of the guarantee provided by one or several EEA central governments, regional governments, local authorities or other public sector entities which have the right to levy taxes complies with the requirements for guarantees laid down in Article 114.

Article 140

Close links with respect to asset-backed securities and currency hedges

A counterparty may not mobilise as collateral any ABSs if the counterparty, or any entity with which it has close links, as laid down in Article 138, provides a currency hedge to the ABSs by entering into a currency hedge transaction with the issuer as a hedge counterparty.

Article 141

Limits with respect to unsecured debt instruments issued by credit institutions and their closely linked entities

1. A counterparty shall not submit or use as collateral unsecured debt instruments issued by a credit institution or by any other entity with which that credit institution has close links, to the extent that the value of such collateral issued by that credit institution or other entity with which it has close links taken together exceeds 10 % of the total value of the assets used as collateral by that counterparty after the applicable haircut. This threshold shall not apply in the following cases:

- (a) if the value of such assets does not exceed EUR 50 million after any applicable haircut;
- (b) if such assets are guaranteed by a public sector entity which has the right to levy taxes by way of a guarantee that complies with the features laid down in Article 114; or;
- (c) if such assets are issued by an agency, a multilateral development bank or an international organisation.

2. If a close link is established or a merger takes place between two or more issuers of unsecured debt instruments, the threshold in paragraph 1 shall apply from six months after the date on which the close link is established or the merger becomes effective.
3. For the purposes of this Article, 'close links' between an issuing entity and another entity has the same meaning as 'close links' between a counterparty and another entity, as referred to in Article 138.

Article 142

Liquidity support in respect of asset-backed securities

1. With effect from 1 November 2015, a counterparty may not mobilise as collateral any ABSs if the counterparty or any entity with which it has close links provides liquidity support as specified below. The Eurosystem takes into account two forms of liquidity support for ABSs: cash reserves and liquidity facilities.
2. For liquidity support in the form of cash reserves, a counterparty shall not be permitted to mobilise as collateral any ABSs if the following three conditions are met simultaneously:
 - (a) the counterparty has close links with the issuer account bank in the ABSs transaction;
 - (b) the current amount of the reserve fund of the ABSs transaction is greater than 5% of the initial outstanding amount of all senior and subordinated tranches of the ABSs transaction;
 - (c) the current amount of the reserve fund of the ABSs transaction is greater than 25% of the current outstanding amount of the subordinated tranches of the ABSs transaction.
3. For liquidity support in the form of liquidity facilities, a counterparty shall not be permitted to mobilise as collateral any ABSs if the following two conditions are met simultaneously:
 - (a) the counterparty has close links with a liquidity facility provider; and
 - (b) the current amount of the liquidity facility of the ABSs transaction is greater than 20% of the initial outstanding amount of all senior and subordinated tranches of the ABSs transaction.
4. Close links in respect of this Article shall have the same meaning as laid down in Article 138(2).

Article 143

Deleted by Article 1 of Guideline ECB/2016/31

Article 144

Non-acceptance of eligible assets for operational reasons

Irrespective of the fact that an asset is eligible, the Bank may, for operational reasons, request the counterparty to remove such asset before the occurrence of a cash flow, including payment of principal or coupons, as further defined in the relevant national documentation.

Article 144a

Eligible assets with negative cash flows

1. The Bank shall provide that a counterparty shall remain liable for the timely payment of any amount of negative cash flows related to eligible assets submitted or used by it as collateral.
2. If a counterparty fails to effect timely payment pursuant to paragraph 1, the Eurosystem may, but is not obliged to, discharge the relevant payment. The counterparty shall refund the Eurosystem, immediately upon request from the Eurosystem, of any amount of negative cash flows paid by the Eurosystem as a result of the counterparty's failure. If a counterparty fails to make a timely payment pursuant to paragraph 1, the Eurosystem shall have the right to debit immediately and without prior notification an amount equal to the amount the Eurosystem has to pay on behalf of such counterparty either from:
 - (a) the relevant counterparty's payment module (PM) account in TARGET2, as provided for in Article 36(6) of Annex 2 to Guideline ECB/2012/27; or
 - (b) with the prior authorisation of a settlement bank, the TARGET2 PM account of a settlement bank, used for the relevant counterparty's Eurosystem credit operations; or
 - (c) any other account that can be used for Eurosystem monetary policy operations and that the relevant counterparty has with the Bank;
3. Any amount paid by the Eurosystem under paragraph 2 that is not refunded by a counterparty immediately upon request and that cannot be debited by the Eurosystem from any relevant

account as provided for under paragraph 2, shall be considered as a credit from the Eurosystem, for which a sanction is applicable in accordance with Article 154.

Article 145

Notification, valuation and removal of assets that are ineligible or contravene the rules for the use of eligible assets

1. If a counterparty has submitted or used assets that it is not or is no longer permitted to use as collateral, including due to the identity of the issuer, debtor or guarantor, or the existence of close links, it shall immediately notify the Bank thereof.
2. The assets referred to in paragraph 1 shall be valued at zero on the next valuation date at the latest and a margin call may be triggered.
3. A counterparty that has submitted or used any assets referred to in paragraph 1 shall remove such assets on the earliest possible date.
4. A counterparty shall provide the Eurosystem with accurate and up-to-date information affecting the value of collateral.

Article 146

Sanctions for non-compliance with the rules for the use of eligible assets

Non-compliance with the rules laid down in this Title shall be subject to sanctions, as applicable, in accordance with Articles 154 to 157. Sanctions shall be applicable, regardless of whether a counterparty is actively participating in monetary policy operations.

Article 147

Information sharing within the Eurosystem

For monetary policy implementation purposes, in particular to monitor compliance with the rules for the use of eligible assets, the Eurosystem shall share information on capital holdings provided by the competent authority for such purposes. The information shall be subject to the same secrecy standards as those applied by the competent authority.

TITLE IX - Cross-border use of eligible assets

Article 148

General principles

1. Counterparties may use eligible assets on a cross-border basis throughout the euro area for the handling of all types of Eurosystem credit operations.
2. Counterparties may mobilise eligible assets other than fixed-term deposits, for cross-border use in accordance with the following.
 - (a) marketable assets shall be mobilised via one of the following: (i) eligible links; (ii) applicable CCBM procedures; (iii) eligible links in combination with the CCBM procedures; and
 - (b) DECCs and RMBDs shall be mobilised in accordance with applicable CCBM procedures; and
 - (c) credit claims shall be mobilised either (i) via applicable CCBM procedures or (ii) in accordance with domestic procedures, as laid down in the relevant national documentation of the home NCB.
3. Marketable assets may be used through an NCB account in a SSS located in a country other than that of the NCB in question if the Eurosystem has approved the use of such an account.
4. De Nederlandsche Bank shall be authorised to use its account with Euroclear Bank to settle collateral transactions in the Eurobonds issued in that ICSD. The Central Bank of Ireland shall be authorised to open a similar account with Euroclear Bank. This account can be used for all eligible assets held in Euroclear Bank, i.e. including eligible assets transferred to Euroclear Bank through eligible links.
5. Counterparties shall execute the transfer of eligible assets via their securities settlement accounts with an eligible SSS.
6. A counterparty that does not have a safe custody account with an NCB or a securities settlement account with an eligible SSS may settle the transactions through the securities settlement account or the safe custody account of a correspondent credit institution.

Article 149

CCBM

1. Under the CCBM, the cross-border relationship is between the NCBs. The NCBs act as custodians (hereinafter ‘correspondents’) for each other and for the ECB in respect of marketable assets accepted in their local depository, TPA or settlement system. Specific procedures apply under the CCBM for credit claims and RMBDs. Details on the CCBM and the applicable procedures are set out in Annex 6 and in the brochure entitled ‘Correspondent central banking model (CCBM) procedure for Eurosystem counterparties’, which is published on the ECB’s website.
2. Assets deposited with a correspondent central bank shall only be used to collateralise Eurosystem credit operations.

Article 150

Eligible links between SSSs

1. In addition to the CCBM, counterparties may use eligible links for the cross-border transfer of marketable assets.
2. Assets held through an eligible link may be used for Eurosystem credit operations, as well as for any other purpose selected by the counterparty.
3. The rules on the use of eligible links are set out in Annex 6.

Article 151

CCBM in combination with eligible links

1. Counterparties may use eligible links in combination with the CCBM to mobilise eligible marketable assets on a cross-border basis.
2. When using eligible links between SSSs in combination with the CCBM, counterparties shall hold the assets issued in the issuer SSS in an account with an investor SSS directly or via a custodian.

3. Assets mobilised under paragraph 2 may be issued in a non-euro area EEA SSS that the Eurosystem has assessed as compliant with the eligibility criteria laid down in Annex 6A, provided that there is an eligible link between the issuer SSS and the investor SSS.

4. The rules on the use of CCBM in combination with eligible links are set out in Annex 6.

Article 152

CCBM and tri-party collateral management services

1. Cross-border tri-party collateral management services shall allow a counterparty to increase or decrease the amount of collateral which it mobilises with its home NCB, through recourse to collateral held with a TPA.

2. The CCBM (including the CCBM in combination with eligible links) may be used as a basis for the cross-border use of tri-party collateral management services. Cross-border use of tri-party collateral management services shall involve a NCB, where tri-party collateral management services are offered for cross-border Eurosystem use, acting as a correspondent for NCBs whose counterparties have requested to use such tri-party collateral management services on a cross-border basis for the purposes of Eurosystem credit operations.

In order to provide its tri-party collateral management services for cross-border use by the Eurosystem in accordance with the first subparagraph, the relevant TPA shall comply with the set of additional functional requirements laid down by the Eurosystem, as referred to in the “Correspondent central banking model (CCBM) – Procedures for Eurosystem counterparties” (Section 2.1.3, second paragraph).

3. A table detailing the use of CCBM with tri-party collateral management services is laid down in Annex 6.

PART FIVE

**SANCTIONS IN THE EVENT OF A FAILURE TO COMPLY WITH
COUNTERPARTY OBLIGATIONS**

Article 153

Sanctions for non-compliance as regards minimum reserves

1. The ECB shall impose sanctions pursuant to Regulation (EC) No 2532/98, Regulation (EC) No 2157/1999 (ECB/1999/4), Regulation (EC) No 2531/98 or Regulation (EC) No 1745/2003 (ECB/2003/9) on institutions which do not comply with obligations arising from ECB regulations and decisions relating to the application of minimum reserves. The relevant sanctions and procedural rules for their application are specified in those regulations.
2. Without prejudice to paragraph 1, in the event of a serious infringement of the minimum reserve requirements, the Eurosystem may suspend a counterparty's participation in open market operations.

Article 154

Sanctions for non-compliance with certain operational rules

1. In accordance with the provisions of this Directive, the Bank shall impose one or more sanctions if a counterparty fails to comply with any of the following obligations:
 - (a) as regards reverse transactions and foreign exchange swaps for monetary policy purposes, the obligations, as laid down in Article 15, to adequately collateralise and settle the amount the counterparty has been allotted over the whole term of a particular operation including any outstanding amount of a particular operation in the case of early termination executed by the Bank over the remaining term of an operation.
 - (b) as regards collection of fixed-term deposits, outright transactions and the issuance of ECB debt certificates, the obligation to settle the transaction, as laid down in Article 16;

- (c) as regards the use of eligible assets, the obligation to mobilise or use only eligible assets and comply with the rules for the use of eligible assets in Title VIII of Part Four;
 - (d) as regards end-of-day procedures and access conditions for the marginal lending facility, the obligation to present sufficient eligible assets in advance as collateral in cases where there is any remaining negative balance on a counterparty's settlement account in TARGET2 after finalisation of the end-of-day control procedures and an automatic request for recourse to the marginal lending facility is therefore considered to arise, as laid down in Article 19(6).
 - (e) any payment obligations pursuant to Article 144a(3).
2. A sanction imposed pursuant to this Article shall involve:
- (a) a financial penalty only; or
 - (b) both a financial penalty and a non-financial penalty.

Article 155

Financial penalties for non-compliance with certain operational rules

1. If a counterparty fails to comply with any of the obligations referred to in Article 154(1), the Eurosystem shall impose a financial penalty for each case of non-compliance. The applicable financial penalty shall be calculated in accordance with Annex 7.
2. Where a counterparty rectifies a failure to comply with an obligation referred to in Article 154(1)(c), and notifies the Bank before the counterparty has been notified of the non-compliance by the Bank (self-reported infringement), the applicable financial penalty as calculated in accordance with Annex 7 shall be reduced by 50%. The reduction of the financial penalty shall also be applicable in cases where the counterparty notifies the NCB of a breach that was not discovered by the ECB or the Bank and in relation to assets that have been demobilised. The reduction of the financial penalty shall not be applicable to assets that fall under the scope of an ongoing verification procedure of which the counterparty is aware due to a notification by the Bank.

Article 156

Non-financial penalties for non-compliance with certain operational rules

1. If a counterparty fails to comply with an obligation referred to in either Article 154(1)(a) or (b) on more than two occasions in a 12-month period and in respect of each failure:

(a) a financial penalty was imposed;

(b) each decision to impose a financial penalty was notified to the counterparty;

(c) each occasion of non-compliance relates to the same type of non-compliance,

the Eurosystem shall suspend the counterparty on the occasion of the third failure and each such subsequent failure to comply with an obligation of that same type in the relevant 12-month period. The 12-month period shall be calculated from the date of the first failure to comply with an obligation referred to in either Article 154(1)(a) or (b), as applicable.

2. Any suspension imposed by the Eurosystem under paragraph 1 shall apply in respect of any subsequent open market operation which is of the same type as the open market operation which resulted in a sanction under paragraph 1.

3. The period of suspension imposed in accordance with paragraph 1 shall be determined in accordance with Annex 7.

4. If a counterparty fails to comply with an obligation referred to in Article 154(1)(c) on more than two occasions in a 12-month period and in respect of each failure:

(a) a financial penalty was imposed;

(b) each decision to impose a financial penalty was notified to the counterparty;

(c) each occasion of non-compliance relates to the same type of non-compliance,

the Eurosystem shall, on the occasion of the third failure to comply, suspend the counterparty from the first liquidity-providing open market operation within the reserve maintenance period following the notification of the suspension.

If subsequently the counterparty again fails to comply, it shall be suspended from the first liquidity-providing open market operation within the reserve maintenance period following notification of suspension until a 12-month period lapses without any further such failure on the part of the counterparty.

Each 12-month period shall be calculated from the date of the notification of a sanction for failure to comply with an obligation referred to in Article 154(1)(c). Second and third breaches committed within 12 months from that notification will be taken into account.

5. In exceptional cases, the Eurosystem may suspend a counterparty for a period of three months in respect of all future Eurosystem monetary policy operations for any failure to comply with any of the obligations laid down in Article 154(1). In such a case, the Eurosystem shall have regard to the seriousness of the case and, in particular, to the amounts involved and to the frequency and duration of non-compliance.

6. The period of suspension imposed by the Eurosystem pursuant to this Article shall be applied in addition to the relevant financial penalty applicable in accordance with Article 155.

Article 157

Application of non-financial penalties to branches for non-compliance with certain operational rules

When the Eurosystem suspends a counterparty in accordance with Article 156(5), that suspension may also be applied to branches of that counterparty established in other Member States whose currency is the euro.

PART SIX

DISCRETIONARY MEASURES

Article 158

Discretionary measures on the grounds of prudence or following an event of default

1. On the grounds of prudence, the Eurosystem may take any of the following measures:
 - (a) suspend, limit or exclude a counterparty's access to Eurosystem monetary policy operations, pursuant to any contractual or regulatory arrangements applied by the Bank or by the ECB;

- (b) reject, limit the use of or apply supplementary haircuts to assets mobilised as collateral in Eurosystem credit operations by a specific counterparty on the basis of any information the Eurosystem considers relevant, in particular if the credit quality of the counterparty appears to exhibit a high correlation with the credit quality of the assets mobilised as collateral.
- 2. Counterparties that are subject to supervision as referred to in Article 55(b)(i) but which do not meet the own funds requirements laid down in Regulation (EU) No 575/2013, on an individual and/or consolidated basis, in accordance with the supervisory requirements, and counterparties that are subject to supervision of a comparable standard as referred to in Article 55(b)(iii) but which do not meet requirements comparable to the own funds requirements laid down in Regulation (EU) No 575/2013, on an individual and/or consolidated basis, shall automatically have their access to Eurosystem monetary policy operations limited on the grounds of prudence. The limitation shall correspond to the level of access to Eurosystem monetary policy operations prevailing at the time such undercapitalisation is notified to the Eurosystem. This limitation is without prejudice to any further discretionary measure that the Eurosystem may take. If compliance with own funds requirements has not been restored through adequate and timely measures at the latest within 20 weeks from the reference date of the collection exercise in which the non-compliance was identified, counterparties shall be automatically suspended from accessing Eurosystem monetary policy operations on the grounds of prudence.
- 3. In the context of its assessment of financial soundness of a counterparty pursuant to Article 55(c) and without prejudice to any other discretionary measures, the Eurosystem may limit, on the grounds of prudence, access to Eurosystem monetary policy operations by the following counterparties:
 - (a) counterparties for which information on capital and/or leverage ratios under Regulation (EU) No 575/2013 is incomplete or not made available to the Bank and the ECB in a timely manner and at the latest within 14 weeks from the end of the relevant quarter;
 - (b) counterparties which are not required to report capital and leverage ratios under Regulation (EU) No 575/2013 but for which information of a comparable standard as referred to in Article 55(b)(iii) is incomplete or not made available

to the Bank and the ECB in a timely manner and at the latest within 14 weeks from the end of the relevant quarter.

Access shall be restored once the relevant information has been made available to the Bank and it has been determined that the counterparty fulfils the criterion of financial soundness pursuant to Article 55(c). If the relevant information has not been made available at the latest within 20 weeks from the end of the relevant quarter, the counterparty's access to Eurosystem monetary policy operations shall be automatically suspended on the grounds of prudence.

- 3a. The Eurosystem may suspend, limit or exclude, on the grounds of prudence, access to monetary policy operations by counterparties that channel Eurosystem liquidity to another entity that belongs to the same banking 'group' (as defined in point (26) of Article 2(1) of Directive 2014/59/EU and point (11) of Article 2 of Directive 2013/34/EU of the European Parliament and of the Council¹⁴) where the entity receiving such liquidity is (i) a non-eligible wind-down entity or (ii) subject to a discretionary measure on the grounds of prudence.
4. Without prejudice to any other discretionary measures, the Eurosystem shall, on the grounds of prudence, limit access to Eurosystem monetary policy operations by counterparties deemed to be "failing or likely to fail" by the relevant authorities based on the conditions laid down in Article 18(4)(a) to (d) of Regulation (EU) No 806/2014 or laid down in national legislation implementing Article 32(4)(a) to (d) of Directive 2014/59/EU. The limitation shall correspond to the level of access to Eurosystem monetary policy operations prevailing at the time when such counterparties are deemed to be 'failing or likely to fail'. The Bank will ensure by means of its contractual or regulatory arrangements that the limitation of access is automatic vis-à-vis the relevant counterparty, without necessitating a specific decision, and that the limitation of access is effective on the day following the day on which the relevant authorities deemed the relevant counterparty "failing or likely to fail". This limitation is without prejudice to any further discretionary measures that the Eurosystem may take.

¹⁴ Directive 2013/34/EU of the European Parliament and of the Council of 26 June 2013 on the annual financial statements, consolidated financial statements and related reports of certain types of undertakings, amending

5. In addition to limiting access to Eurosystem monetary policy operations under paragraph 4, the Eurosystem may, on the grounds of prudence, suspend, further limit or exclude counterparties from accessing Eurosystem monetary policy operations if they are deemed to be “failing or likely to fail” under paragraph 4 and they meet any of the following:
- (a) are not made subject to a resolution action by the resolution authority because there are reasonable prospects that an alternative private sector measure or supervisory action, as referred to in Article 18(1)(b) of Regulation (EU) No 806/2014 and national legislation implementing Article 32(1)(b) of Directive 2014/59/EU, would prevent the failure of the institution within a reasonable timeframe, in view of the development of the alternative private sector measure or supervisory action;
 - (b) are assessed as meeting the conditions for resolution pursuant to Article 18(1) of Regulation (EU) No 806/2014 or national legislation implementing Article 32(1) of Directive 2014/59/EU, in view of the development of the resolution action;
 - (c) result from a resolution action as defined under Article 3(10) of Regulation (EU) No 806/2014 and national legislation implementing Article 2(40) of Directive 2014/59/EU or from an alternative private sector measure or supervisory action as referred to in Article 18(1)(b) of Regulation (EU) No 806/2014 and national legislation implementing Article 32(1)(b) of Directive 2014/59/EU.
6. Beyond a limitation of access to Eurosystem monetary policy operations pursuant to paragraph 4, the Eurosystem shall suspend, further limit or exclude from access to Eurosystem monetary policy operations on the grounds of prudence counterparties which have been deemed to be ‘failing or likely to fail’ but for which neither a resolution action has been provided for, nor are there reasonable prospects that an alternative private sector measure or supervisory action would prevent the failure of the institution within a reasonable timeframe as referred to in Article 18(1)(b) of Regulation (EU) No 806/2014 and national legislation implementing Article 32(1)(b) of Directive 2014/59/EU.

7. In the event that a discretionary measure is based on prudential information, the Eurosystem shall use any such information, provided either by supervisors or by counterparties, in a manner strictly commensurate with, and necessary for, the performance of the Eurosystem's tasks of conducting monetary policy.
8. In the case of an occurrence of an event of default, the Eurosystem may suspend, limit or exclude access to Eurosystem monetary policy operations with regard to counterparties that are in default pursuant to any contractual or regulatory arrangements applied by the Eurosystem.
9. All discretionary measures of the Eurosystem shall be applied in a proportionate and non-discriminatory manner and shall be duly justified by the Eurosystem.

Article 159

Discretionary measures relating to the Eurosystem's credit quality assessment

1. The Eurosystem shall determine whether an issue, issuer, debtor or guarantor fulfils the Eurosystem's credit quality requirements on the basis of any information it considers relevant.
2. The Eurosystem may reject, limit the mobilisation or use of assets or apply supplementary haircuts on the grounds provided for in paragraph 1, if such decision is required in order to ensure adequate risk protection of the Eurosystem.
3. In the event that a rejection as referred to in paragraph 2 is based on prudential information, the Eurosystem shall use any such information, transmitted either by counterparties or by supervisors, in a manner that is strictly commensurate with, and necessary for, the performance of the Eurosystem's tasks of conducting monetary policy.
4. The Eurosystem may exclude the following assets from the list of eligible marketable assets:
 - (a) assets issued, co-issued, serviced or guaranteed by counterparties, or entities closely linked to counterparties subject to freezing of funds and/or other measures imposed by the Union under Article 75 of the Treaty or by a Member State restricting the use of funds; and/or

and 83/349/EEC (OJ, L 182, 29.6.2013).

- (b) assets issued, co-issued, serviced or guaranteed by counterparties, or entities closely linked to counterparties in respect of which the Eurosystem has suspended, limited or excluded their access to Eurosystem monetary policy operations.

PART SEVEN

ADDITIONAL MINIMUM COMMON FEATURES IN RELATION TO EUROSISTEM MONETARY POLICY OPERATIONS

Article 160

Legal relationship between the Bank and its counterparties

Pursuant to Article 1(3), Eurosystem monetary policy operations conducted with a Counterparty under this Directive shall apply in conformity with the provisions of this Part Seven.

Chapter 1 – Additional minimum common features applicable to all arrangements for Eurosystem monetary policy operations

Article 161

Amendments to the implementation of the Eurosystem monetary policy framework

1. The Bank shall implement without undue delay any changes relevant to the Eurosystem monetary policy framework by amending this Directive.
2. The Bank shall give counterparties as much advance notice as possible of such changes. Such notices shall be provided to counterparties by electronic means and/or written procedures and shall state the specific date on which the change becomes legally effective which will only be after receipt of the notice.

Article 162

Denomination of payments

All payments relating to Eurosystem monetary policy operations, other than foreign currency payments in foreign exchange swaps for monetary policy purposes, shall be in euro.

Article 163

Form of contractual arrangements

If it becomes necessary to constitute all transactions with a counterparty under a single contractual agreement, the Bank may require the counterparty to enter into a master agreement to be provided by the Bank to allow effective termination and close-out (including netting) of all outstanding transactions upon an event of default.

Article 164

Forms, data carriers and means of communication

Annex 13 of this Directive contains rules relating to the use of forms, including the confirmation of terms of transactions and the means of communication which the counterparty shall comply with.

Article 165

Events of default

1. The following shall constitute events of default under this Directive:
 - (a) a decision is made by a competent judicial or other authority to implement, in relation to the counterparty, a procedure for the winding-up of the counterparty or the appointment of a liquidator or analogous officer over the counterparty, or any other analogous procedure;
 - (b) a decision is made by a competent judicial or other authority to implement, in relation to the counterparty, a reorganisation measure or other analogous procedure intended to

- safeguard or restore the financial situation of the counterparty and to avoid the taking of a decision of the kind referred to in point (a);
- (c) a declaration by the counterparty in writing of its inability to pay all or any part of its debts or to meet its obligations arising in relation to monetary policy transactions, or a voluntary general agreement or arrangement entered into by it with its creditors, or if the counterparty is, or is deemed to be insolvent or is deemed to be unable to pay its debts;
 - (d) procedural steps preliminary to a decision being taken under paragraphs (a) or (b) above;
 - (e) any representation or other pre-contractual statement made by the counterparty, or which is implied to have been made by the counterparty, under Maltese law that is incorrect or untrue;
 - (f) the counterparty's authorisation to conduct activities under either: (a) Directive 2013/36 EU and Regulation (EU) No 575/2013; or (b) Directive 2004/39/EC as implemented in the relevant Member State whose currency is the euro, is either suspended or revoked;
 - (g) the counterparty is suspended or expelled from membership of any payment system or arrangement through which payments under monetary policy transactions are made or (except for foreign exchange swap transactions) is suspended or expelled from membership of any securities settlement system used for the settlement of Eurosystem monetary policy operations;
 - (h) measures such as those referred to in Articles 41(1), 43(1) and 44 of Directive 2013/36/EU are taken against the counterparty;
 - (i) in relation to reverse transactions, the counterparty fails to comply with provisions concerning risk control measures;
 - (j) in relation to repurchase transactions, the counterparty fails to pay the purchase price or the repurchase price or fails to deliver purchased or repurchased assets; or in respect to collateralised loans, the counterparty fails to deliver assets or reimburse the credit on the applicable dates for such payments and deliveries;
 - (k) in relation to foreign exchange swap transactions for monetary policy purposes and fixed-term deposits, the counterparty fails to pay the euro amount; or in relation to foreign exchange swaps for monetary policy purposes, fails to pay foreign currency amounts on the applicable dates for such payments;

- (l) the occurrence of an event of default, not materially different from those defined in this Article, in relation to the counterparty under an agreement concluded for the purposes of the management of the foreign reserves or own funds of the ECB or any NCBs;
- (m) the counterparty fails to provide relevant information, thus causing severe consequences for the Bank;
- (n) the counterparty fails to perform any other of its obligations under arrangements for reverse transactions and foreign exchange swap transactions and, if capable of remedy, does not remedy such failure within a maximum of thirty (30) days in the case of collateralised transactions and a maximum of ten (10) days in the case of foreign exchange swap transactions after notice is given by the Bank requiring it to do so;
- (o) an event of default occurs in relation to the counterparty in any agreement with another member of the Eurosystem entered into for the purpose of effecting Eurosystem monetary policy operations in respect of which that other member of the Eurosystem has exercised its right to close out any transaction under such agreement by reason of the event of default;
- (p) the counterparty becomes subject to the freezing of funds and/or other measures imposed by the Union under Article 75 of the Treaty restricting the counterparty's ability to use its funds;
- (q) the counterparty becomes subject to the freezing of funds and/or other measures imposed by a Member State whose currency is the euro restricting the counterparty's ability to use its funds;
- (r) all or a substantial part of the counterparty's assets are subject to a freezing order, attachment, seizure or any other procedure that is intended to protect the public interest or the rights of the counterparty's creditors;
- (s) all or a substantial part of the counterparty's assets are assigned to another entity;
- (t) any other impending or existing event the occurrence of which may threaten the performance by the counterparty of its obligations under the arrangement it entered into for the purpose of effecting Eurosystem monetary policy operations or any other rules applying to the relationship between the counterparty and any of the NCBs.

2. If the events referred to in paragraphs (a) and (p) of sub-article(1) above take effect in respect of the counterparty, the Bank shall terminate all outstanding monetary policy operations undertaken with the counterparty. The Bank may also terminate all outstanding monetary policy operations if the events referred to in paragraphs (b), (c) and (q) of Article 165(1) take effect. In the case any of the events referred to in Articles 165(1) (d) to (o) and (r) to (t) occur, the Bank shall cancel all outstanding monetary policy operations undertaken with the counterparty by a written notice given to the same counterparty. The Bank may, at its discretion, grant the counterparty a maximum period of three business days to rectify the default before the notice of termination takes effect.

Article 166

Remedies in the event of default or on the grounds of prudence

1. The Bank may take the following actions in case an event of default occurs or on grounds of prudence: (i) suspend, limit or exclude the counterparty from access to open market operations; (ii) suspend, limit or exclude the counterparty from access to the standing facilities; (iii) terminate all outstanding agreements and transactions; (iv) demand, accelerated performance of claims that have not yet matured or are contingent; (v) use deposits of the counterparty placed with the Bank to set off claims against that counterparty; (vi) suspend the performance of obligations against the counterparty until the claim on the counterparty has been satisfied.
2. The Bank may exercise upon the occurrence of an event of default any of the following actions in addition to the remedies referred to in paragraph 1 above: (i) claim default interest and (ii) claim an indemnity for any losses sustained as a consequence of a default by the counterparty.
3. The Bank may, on grounds of prudence, reject, limit the use of or apply supplementary haircuts to assets mobilised as collateral in Eurosystem credit operations by counterparties.
4. The Bank may, at all times, realise all assets provided as collateral without undue delay in accordance with article 17(7) of the Central Bank of Malta Act, if the counterparty does not settle its negative balance promptly.
- 4a. The Bank shall impose a financial penalty for a failure of a counterparty to reimburse or pay, in full or in part, any amount of the credit or of the repurchase prices, or to deliver the purchased

assets, at maturity or when otherwise due, in the event that no remedy is available to it pursuant to Article 166(2). The Bank shall calculate the financial penalty in accordance with Annex 7, Section 3 to this Directive, taking into account the amount of cash that the counterparty could not pay or reimburse, or of the assets the counterparty could not deliver, and the number of calendar days during which the counterparty did not pay, reimburse or deliver.

5. In order to ensure the uniform implementation of the measures imposed in the Eurosystem, the Governing Council may decide on the remedies, including suspension, limitation or exclusion from access to open market operations or the Eurosystem's standing facilities.

Article 167

Provision of information by counterparties

The Bank may request the Counterparty to submit any relevant information relating to the Eurosystem monetary policy operations within such period as requested by the Bank.

Article 168

Notices and other communications

1. All notices or other communication in relation to this Directive shall be in written and/or electronic form.
2. The notice or other communication shall specify the date on which the notification being made becomes effective which will only be after receipt of the notice. Confirmations sent shall be delivered and checked promptly.

Article 169

Third Party Rights

1. The rights and obligations of the counterparty shall not be assigned, charged, novated or otherwise dealt with by the same counterparty without the prior written consent of the Bank.
2. Only the Bank and the identified counterparty shall have rights and obligations arising under the transaction. However, other relationships between the NCBs and/ or the ECB arising out of

the cross-border use of eligible assets and as necessary for operations effected with counterparties acting through an intermediary institution shall be allowed.

Article 170

Governing law and jurisdiction

1. All the transactions undertaken under this Directive shall be governed by Maltese law, except where the cross-border use of eligible assets requires otherwise.
2. Without prejudice to the competence of the Court of Justice of the European Union, the Maltese Courts or Tribunals shall have jurisdiction for all disputes, arising out of, or in connection with the provisions of this Directive.

Article 171

Settlement days with regard to fixed-term deposits

Settlement with regard to both taking in and paying out fixed-term deposits shall take place on the days specified in the ECB's announcement of the deposit operation.

Chapter 2 – Additional minimum common features applicable to both repurchase and collateralised loan agreements

Article 172

Date of reverse leg of the transaction

The date of the reverse leg of the transaction, including the date of repayment of the collateralised loan agreement, as applicable, shall be fixed at the time of entering into each transaction.

Article 173

Business days

The term 'business day' shall have the same meaning as defined in Article 2 (6) of the Directive.

Article 174

Interest rates

1. In a repurchase agreement, the price differential between the purchase price and the repurchase price shall correspond to the aggregate amount obtained by application of a specified rate to the purchase price during the period from the scheduled purchase date to the repurchase date.
2. In a collateralised loan, the interest rate shall be determined by applying the specified interest rate on the credit amount over the maturity of the operation.
3. The rate applied to reverse transactions shall be equal to a simple interest rate based on the actual/360 day-count convention.

Article 175

Mechanisms for converting non-euro amounts

The rate used to convert non-euro amounts into euro shall be the ECB daily euro foreign exchange reference rate or, if unavailable, the spot rate of exchange indicated by the ECB on the business day before the day on which the conversion is to be made for the sale by it of euro against a purchase by it of the other currency.

Chapter 3 – Additional minimum common features exclusive to repurchase agreements

Article 176

Subject matter of repurchase agreements

1. When entering into repurchase agreements, the Bank shall ensure that there is a sale of eligible assets against euro cash, together with a simultaneous agreement to sell back equivalent assets against euro cash at a specified time.
2. The term ‘equivalent assets’ shall mean assets of the same issuer, forming part of the same issue, irrespective of the date of issue, and being of identical type, nominal value, amount and description to those assets to which such comparison is made.

3. If the assets in respect of which the comparison under paragraph 2 is made have been converted or redenominated or a call has been made thereon, the definition of equivalence shall be modified to mean:

- (a) in the case of conversion, those into which the assets have converted;
- (b) in the case of a call being made on assets, equivalent assets to the paid-up assets, provided that the seller has paid to the buyer a sum equal to the value of the call;
- (c) in the case of redenominated assets, equivalent assets to those into which the original assets have been redenominated with, as necessary, a sum of money equal to any difference in value between the assets before and after their redenomination.

Article 177

Close-out netting arrangements with respect to repurchase agreements

3. Upon the occurrence of an event of default, the Bank shall be entitled to terminate and close-out all outstanding repurchase transactions.

4. In relation to netting the Bank shall apply the following arrangements:

(a) Upon the occurrence of an event of default, the repurchase date for each transaction shall be deemed to occur immediately and be subject to either the following options:

i) any equivalent margin assets shall be immediately deliverable, so that performance of respective obligations of the parties with regard to the delivery of assets and the payment of the repurchase price for any repurchased assets shall be effected only in accordance with paragraphs (b) – (d); or

ii) the repurchase transaction will be terminated.

(b) the default market values of the repurchased assets and any equivalent margin assets to be transferred and the repurchase price to be paid by each party shall be established by the Bank for all transactions as at the repurchase date in a commercially reasonable manner. (c) On the bases of point (b), the Bank shall calculate what is due from each party to the other at the repurchase date. The sums due from one party must be set off against the sums due from the other and only the net balance is payable by the party having the claim thereby valued at the lower amount.

(c) The net balance shall be due and payable on the next day on which TARGET2 is operational to effect a payment. For the purposes of this calculation, any sums not denominated in euro must be converted into euro on the appropriate date at the rate calculated in accordance with Article 175.

3. The term ‘default market value’ shall have the same meaning as in Article 2 (19) of the Directive.

Article 178

Compliance with risk control measures

Substitution of collateral shall take place in accordance to the risk control measures provided in Part 4, Title VI and if applicable in accordance with the provisions provided in Annex 13.

Article 179

Cash Margins

Margins shall be paid or returned in cash. Any further obligation to return or provide margins shall first be satisfied by the use of cash up to the same amount, together with any interest applicable to it.

Article 180

Further provisions pertaining to repurchase agreements

Without prejudice to the provisions of this Directive, the Bank may include additional provisions as deemed necessary in its repurchase agreements.

Chapter 4 – Additional minimum common features exclusive to collateralised loan arrangements

Article 181

Provision and realisation of collateral

1. The Bank shall provide liquidity in the form of collateralised lending, with collateral being pledged in favour of the Bank. This entails the signing of a pledge agreement with the Bank, as specified in Annex 13, and which shall apply to any domestic and foreign marketable and non-marketable assets.
2. Eligible assets provided as collateral must be free from prior claims and other encumbrance rendering it impossible for third parties including any liquidating authority in the event of insolvency, to intervene and successfully claim the assets provided as collateral, in the absence of fraud, or any rights attaching to them.
3. Upon the occurrence of an event of default as specified in Article 165, the Bank shall proceed with the enforcement of the security pledged in its favour and the realisation of the assets.

Article 182

Overnight extension of intraday operations

Operations which are entered into on an intraday basis may be extended overnight.

Chapter 5 – Additional minimum common features exclusive to foreign exchange swaps for monetary policy purposes

Article 183

Simultaneous spot-and-forward sale and purchase agreement

Foreign exchange swaps executed for monetary policy purposes consist of simultaneous spot and forward sale and purchase transactions of the euro against one foreign currency.

Article 184

Timing and mechanics of transfer of payments

The date of the forward sale and purchase shall be fixed at the time of entering into each transaction.

Article 185

Definition of specific terms

The Bank shall apply the following definitions with respect to foreign currency, spot rate, forward rate, transfer date and retransfer date:

- (a) 'foreign currency' shall mean any lawful currency other than the euro;
- (b) 'spot rate' shall mean, in relation to a specific transaction, the rate (as calculated in accordance with Article 175 applied to convert the euro amount into such amount in the foreign currency relevant for that transaction as one party shall be obliged to transfer to the other at the transfer date against payment of the euro amount and which rate shall be set out in the confirmation;

- (c) 'forward rate' shall mean the rate calculated in accordance with Article 175 and applied to convert the euro amount into such amount in the foreign currency as one party shall be obliged to transfer to the other at the retransfer date against payment of the euro amount, which rate shall be as set out in the confirmation and defined in the Directive;
- (d) 'retransfer foreign currency amount' shall mean such amount of foreign currency as is required to purchase the euro amount as at the retransfer date;
- (e) 'transfer date' shall mean, with regard to any transaction, the date and, where appropriate, the time on that date when the transfer of the euro amount by one party to the other is to become effective, that is the date and, where appropriate, the time on that date, when the parties have agreed that settlement of a transfer of the euro amount will occur;
- (f) 'retransfer date' shall mean, with regard to any transaction, the date and, where appropriate, the time on that date, when one party is required to retransfer the euro amount to the other.

Article 186

Close-out netting arrangements with respect to foreign exchange swaps

1. Upon the occurrence of an event of default, the Bank shall be entitled to terminate and close-out all outstanding transactions.
2. In relation to netting, the Bank shall apply the following provisions:
 - (a) If an event of default has occurred, each transaction shall be deemed to have been terminated and the replacement values of the euro and the retransfer foreign currency amounts shall be established by the Bank on the basis that such replacement values are the amounts that would be necessary to preserve the economic equivalent of any payments that would have been required for the Bank.
 - (b) On the basis of the sums so established, the Bank shall calculate what is due from each party to the other at the retransfer date. The sums due by one party must be converted into euro where necessary in accordance with Article 175 and set off against the sums due by the other. Only the net balance shall be payable by the party having the claim thereby valued at the lower amount. Such net balance is due and payable on the next day on which TARGET2 is operational to effect such a payment.

Article 187

Further provisions relating to foreign exchange swaps

Without prejudice to the requirements laid down in this Directive, the Bank may include additional provisions as deemed necessary in its contractual documentation on foreign exchange swaps.

PART EIGHT

FINAL PROVISIONS

Article 188

Sharing of information

The Bank may, if necessary for the implementation of monetary policy, share with other NCBs individual information, such as operational data, relating to counterparties participating in Eurosystem monetary policy operations. Such information shall be subject to the requirement concerning professional secrecy in Article 38 of the Statute of the ESCB.

Article 189

Anti-money laundering and counter-terrorist financing legislation

Counterparties to Eurosystem monetary policy operations shall be aware of, and comply with, all obligations imposed on them by anti-money laundering and counter-terrorist financing legislation.

ANNEXES

ANNEX 1 - MINIMUM RESERVES

The content of this Annex is for information purposes only.

In the event of conflict between this Annex and the legal framework for the Eurosystem's minimum reserve system as described in paragraph 1, the latter prevails.

1. Pursuant to Article 19 of the Statute of the European System of Central Banks and of the European Central Bank (hereinafter the 'Statute of the ESCB'), the European Central Bank (ECB) requires credit institutions to hold minimum reserves on accounts with national central banks (NCBs) within the framework of the Eurosystem's minimum reserve system. The legal framework for this system is laid down in Article 19 of the Statute of the ESCB, Regulation (EC) No 2531/98 and Regulation (EC) No 1745/2003 (ECB/2003/9). The application of Regulation (EC) No 1745/2003 (ECB/2003/9) ensures that the terms and conditions of the Eurosystem's minimum reserve system are uniform throughout Member States whose currency is the euro.

2. The Eurosystem's minimum reserves system primarily pursues the aims of stabilising money market interest rates and creating (or enlarging) a structural liquidity shortage.

3. In accordance with Article 2(1) of Regulation (EC) No 1745/2003 (ECB/2003/9), the Eurosystem's minimum reserve system applies to credit institutions established in Member States whose currency is the euro. In addition, branches in the euro area of credit institutions not incorporated in the euro area are also subject to the Eurosystem's minimum reserve system. However, branches established outside the euro area of credit institutions incorporated in the euro area are not subject to this system.

4. Pursuant to Article 2(2) of Regulation (EC) No 1745/2003 (ECB/2003/9), institutions will be automatically exempt from reserve requirements from the start of the maintenance period within which their authorisation is withdrawn or surrendered, or within which a decision to submit the institution to winding-up proceedings is taken by a judicial authority or any other competent authority of a Member State.

5. Pursuant to Article 2(2) of Regulation (EC) No 1745/2003 (ECB/2003/9), the ECB may exempt, on a non-discriminatory basis, the institutions listed in points (a) to (c) thereof from reserve requirements. Such institutions include, inter alia, institutions subject to reorganisation measures and institutions subject to the freezing of funds and/or other measures imposed by the Union under Article 75 of the Treaty or by a Member State restricting the use of their funds or a

decision of the Eurosystem suspending or excluding their access to open market operations or the Eurosystem's standing facilities.

6. Pursuant to Article 2(3) of Regulation (EC) No 1745/2003 (ECB/2003/9), the ECB establishes and maintains a list of institutions subject to the Eurosystem's minimum reserve system.

7. The ECB also publishes a list of any institutions exempt from their obligations under this system for reasons other than their being subject to reorganisation measures or the freezing of funds and/or other measures imposed by the Union under Article 75 of the Treaty or by a Member State restricting the use of their funds or in respect of which the ECB's Governing Council issued a decision suspending or excluding their access to open market operations or the Eurosystem's standing facilities.

8. The reserve base of each institution is determined in relation to elements of its balance sheet. The balance sheet data are reported to the NCBs within the general framework of the ECB's monetary and financial statistics. Institutions calculate the reserve base in respect of a particular maintenance period on the basis of the data relating to the month that is two months prior to the month within which the maintenance period starts pursuant to Article 3(3) of Regulation (EC) No 1745/2003 (ECB/2003/9) subject to the exceptions for tail institutions, as laid down in Article 3(4) of the same Regulation.

9. The reserve ratios are determined by the ECB subject to the maximum limit specified in Regulation (EC) No 2531/98.

10. The amount of minimum reserves to be held by each institution in respect of a particular maintenance period is calculated by applying the reserve ratios to each relevant item of the reserve base for that period. The minimum reserves identified by the relevant participating NCB and by the institution in accordance with the procedures mentioned in Article 5 of Regulation (EC) No 1745/2003 (ECB/2003/9) constitute the basis for: (a) remuneration of holdings of required reserves; and (b) assessment of an institution's compliance with the obligation to hold the required amount of minimum reserves.

11. In order to pursue the aim of stabilising interest rates, the Eurosystem's minimum reserve system enables institutions to make use of averaging provisions, implying that compliance with reserve requirements is determined on the basis of the average of the end-of-calendar-day balances on the counterparties' reserve accounts over a maintenance period. Compliance with the reserve requirement is determined on the basis of an institution's average daily reserve holdings

over the maintenance period. The maintenance period is defined in Article 7 of Regulation (EC) No 1745/2003 (ECB/2003/9).

12. In accordance with Article 8 of Regulation (EC) No 1745/2003 (ECB/2003/9), institutions' holdings of required reserves are remunerated at the average, over the maintenance period, of the ECB's rate (weighted according to the number of calendar days) on the main refinancing operations according to the following formula (whereby the result is rounded to the nearest cent):

$$R_t = \frac{H_t \cdot n_t \cdot r_t}{100 \cdot 360}$$

$$r_t = \sum_{i=1}^{n_t} \frac{MR_i}{n_t}$$

Where:

R_t = remuneration to be paid on holdings of required reserves for the maintenance period t ;

H_t = average daily holdings of required reserves for the maintenance period t ;

n_t = number of calendar days in the maintenance period t ;

r_t = rate of remuneration on holdings of required reserves for the maintenance period t . Standard rounding of the rate of remuneration to two decimals shall be applied;

i = i th calendar day of the maintenance period t ;

MR_i = marginal interest rate for the most recent main refinancing operation settled on or before calendar day i .

13. Where an institution fails to comply with other obligations under ECB regulations and decisions relating to the Eurosystem's minimum reserve system (e.g. if relevant data are not transmitted in time or are not accurate), the ECB is empowered to impose sanctions in accordance with Regulation (EC) No 2532/98 and Regulation ECB/1999/4. The ECB's Executive Board may specify and publish the criteria according to which it will apply the sanctions provided for in Article 7(1) of Regulation (EC) No 2531/98.

ANNEX 2 - ANNOUNCEMENT OF TENDER OPERATIONS

The public tender announcement contains the following indicative information:

- (a) the reference number of the tender operation;
- (b) the date of the tender operation;
- (c) the type of operation (provision or absorption of liquidity, and the type of monetary policy instrument to be used);
- (d) the maturity of the operation;
- (e) the duration of the operation (normally expressed in a number of days);
- (f) the type of auction, e.g. fixed rate or variable rate tender;
- (g) for variable rate tenders, the method of allotment, e.g. the single rate auction (Dutch auction) or multiple rate auction (American auction) procedure;
- (h) the intended operation volume, normally only in the case of longer-term refinancing operations;
- (i) for fixed rate tenders, the fixed tender interest rate, price, swap point or spread (the reference index in the case of indexed tenders and the quotation type in the case of an interest rate or spread);
- (j) the minimum or maximum accepted interest rate, price or swap point, if applicable;
- (k) the start date and maturity date of the operation, if applicable, or the value date and the maturity date of the instrument, in the case of the issuance of European Central Bank (ECB) debt certificates;
- (l) the currencies involved and for foreign exchange swaps, the amount of the currency which is kept fixed;
- (m) for foreign exchange swaps, the reference spot exchange rate to be used for the calculation of bids;
- (n) the maximum bid limit, if any;
- (o) the minimum individual allotment amount, if any;
- (p) the minimum allotment ratio, i.e. the lower limit, expressed in percentage terms, of the ratio of bids at the marginal interest rate to be allotted in a tender operation, if any;
- (q) the time schedule for the submission of bids;

- (r) in the case of the issuance of ECB debt certificates, the denomination of the certificates and the ISIN code of the issue;
- (s) the maximum number of bids per counterparty (for variable rate tenders, in the event that the ECB intends to limit the number of bids, this is normally set at ten bids per counterparty);
- (t) the quotation type (rate or spread);
- (u) the reference entity in the case of indexed tenders.

ANNEX 3 - ALLOTMENT OF TENDERS AND TENDER PROCEDURES

Table 1: Allotment of fixed rate tenders

The percentage of allotment is:	
	$all \% = \frac{A}{\sum_{i=1}^n a_i}$
The amount allotted to the <i>i</i> th counterparty is:	
	$all_i = all \% \times (a_i)$
where:	
A	= total amount allotted
n	= total number of counterparties
a _i	= bid amount of the <i>i</i> th counterparty
all%	= percentage of allotment
all _i	= total amount allotted to the <i>i</i> th counterparty

Table 2: Allotment of variable rate tenders in euro (the example refers to bids quoted in the form of interest rates)

The percentage of allotment at the marginal interest rate is:	
	$all \% (r_m) = \frac{A - \sum_{s=1}^{m-1} a(r_s)}{a(r_m)}$
The allotment to the <i>i</i> th counterparty at the marginal interest rate is:	
	$all (r_m)_i = all \% (r_m) \times a(r_m)_i$
The total amount allotted to the <i>i</i> th counterparty is:	
	$all_i = \sum_{s=1}^{m-1} a(r_s)_i + all (r_m)_i$
where:	
A	= total amount allotted
r _s	= <i>s</i> th interest rate bid by the counterparties
N	= total number of counterparties

$a(r_s)_i$	=	amount bid at the sth interest rate (r_s) by the i th counterparty
$a(r_s)$	=	total amount bid at the sth interest rate (r_s)
		$a(r_s) = \sum_{i=1}^n a(r_s)_i$
r_m	=	marginal interest rate: $r_1 \geq r_s \geq r_m$ for a liquidity-providing tender $r_m \geq r_s \geq r_1$ for a liquidity-absorbing tender
r_{m-1}	=	interest rate before the marginal interest rate (last interest rate at which bids are completely satisfied): $r_{m-1} > r_m$ for a liquidity-providing tender $r_m > r_{m-1}$ for a liquidity-absorbing tender
$all\%(r_m)$	=	percentage of allotment at the marginal interest rate
$all(r_s)_i$	=	allotment to the i th counterparty at the sth interest rate
all_i	=	total amount allotted to the i th counterparty

Table 3: Allotment of variable rate foreign exchange swap tenders

The percentage of allotment at the marginal swap point quotation is:	
	$all\%(\Delta_m) = \frac{A - \sum_{s=1}^{m-1} a(\Delta_s)}{a(\Delta_m)}$
The allotment to the i th counterparty at the marginal swap point quotation is:	
	$all(\Delta_m)_i = all\%(\Delta_m) \times a(\Delta_m)_i$
The total amount allotted to the i th counterparty is:	
	$all_i = \sum_{s=1}^{m-1} a(\Delta_s)_i + all(\Delta_m)_i$
where:	
A	= total amount allotted
Δ_s	= sth swap point quotation bid by the counterparties
N	= total number of counterparties

$a(\Delta_s)_i$	=	amount bid at the s th swap point quotation (Δ_s) by the i th counterparty
$a(\Delta_s)$	=	total amount bid at the s th swap point quotation (Δ_s)
		$a(\Delta_s) = \sum_{i=1}^n a(\Delta_s)_i$
Δ_m	=	marginal swap point quotation: $\Delta_m \geq \Delta_s \geq \Delta_1$ for a liquidity-providing foreign exchange swap $\Delta_1 \geq \Delta_s \geq \Delta_m$ for a liquidity-absorbing foreign exchange swap
Δ_{m-1}		swap point quotation before the marginal swap point quotation (last swap point quotation at which bids are completely satisfied): $\Delta_m > \Delta_{m-1}$ for a liquidity-providing foreign exchange swap $\Delta_{m-1} > \Delta_m$ for a liquidity-absorbing foreign exchange swap
$all\%(\Delta_m)$		percentage of allotment at the marginal swap point quotation
$all(\Delta_s)_i$		allotment to the i th counterparty at the s th swap point quotation
all_i		total amount allotted to the i th counterparty

ANNEX 4 - ANNOUNCEMENT OF TENDER RESULTS

The public tender result message contains the following indicative information:

- (a) the reference number of the tender operation;
- (b) the date of the tender operation;
- (c) the type of operation;
- (d) the maturity of the operation;
- (e) the duration of the operation (normally expressed in a number of days);
- (f) the total amount bid by Eurosystem counterparties;
- (g) the number of bidders;
- (h) for foreign exchange swaps, the currencies involved;
- (i) the total amount allotted;
- (j) for fixed rate tenders, the percentage of allotment;
- (k) for foreign exchange swaps, the spot exchange rate;
- (l) for variable rate tenders, the marginal interest rate, price, swap point or spread accepted and the percentage of allotment at the marginal interest rate, price or swap point;
- (m) for multiple rate auctions, the minimum bid rate and the maximum bid rate, i.e. the lower and upper limit to the interest rate at which counterparties submitted their bids in variable rate tenders, and the weighted average allotment rate;
- (n) the start date and the maturity date of the operation, if applicable, or the value date and the maturity date of the instrument, in the case of the issuance of ECB debt certificates;
- (o) the minimum individual allotment amount, if any;
- (p) the minimum allotment ratio, if any;
- (q) in the case of the issuance of ECB debt certificates, the denomination of the certificates and the ISIN code of the issue;
- (r) the maximum number of bids per counterparty (for variable rate tenders, in the event that the ECB intends to limit the number of bids, this is normally set at ten bids per counterparty).

ANNEX 5 - CRITERIA FOR THE SELECTION OF COUNTERPARTIES TO PARTICIPATE IN FOREIGN EXCHANGE INTERVENTION OPERATIONS

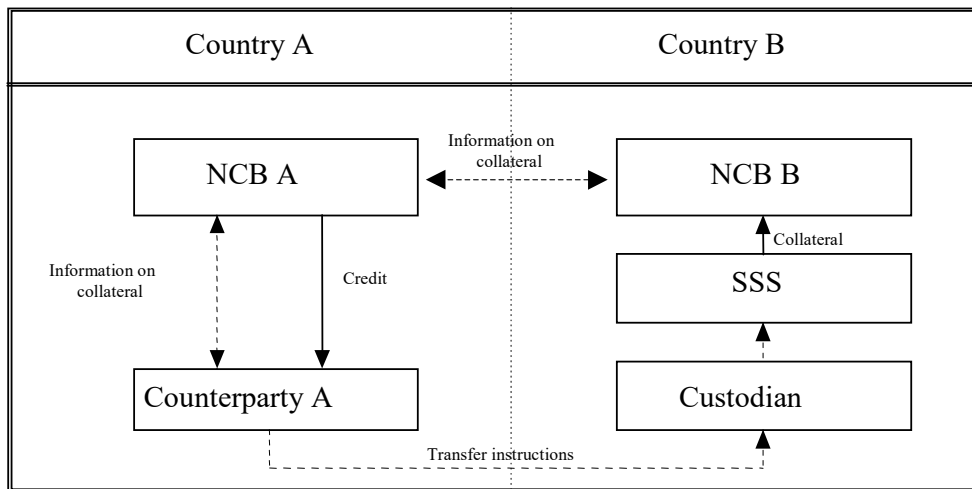

1. The selection of counterparties for Eurosystem foreign exchange intervention operations is based on two sets of criteria relating to the principles of prudence and efficiency.
2. The criteria relating to efficiency are only applied once the criteria relating to the principle of prudence have been applied.
3. The criteria relating to the principle of prudence comprise the following:
 - (a) creditworthiness of the counterparty, which is assessed using a combination of different methods, e.g. using credit ratings available from commercial agencies and the in-house analysis of capital and other business ratios;
 - (b) a counterparty is supervised by a recognised supervisor;
 - (c) a counterparty has a good reputation and observes high ethical standards.
4. The criteria relating to the principle of efficiency comprise, inter alia, the following:
 - (a) a counterparty's competitive pricing behaviour and its ability to conduct large-volume foreign exchange operations efficiently under all market conditions; and
 - (b) the quality and coverage of information provided by the counterparty.
5. In order to be able to intervene efficiently in different geographical locations, the Bank may select counterparties for their foreign exchange intervention operations in any international financial centre.

ANNEX 6 - CROSS-BORDER USE OF ELIGIBLE ASSETS

I. THE CORRESPONDENT CENTRAL BANKING MODEL (CCBM)

Table 1: The Correspondent Central Banking Model (CCBM)

Use of eligible assets deposited in country B by a counterparty established in country A in order to obtain credit from the national central bank (NCB) of country A

1. All NCBs maintain securities accounts with each other for the cross-border use of eligible assets. The precise procedure of the CCBM depends on whether the eligible assets are earmarked for each individual transaction or whether they are held in a pool of underlying assets.
2. In an earmarking system, as soon as a counterparty's bid for credit is accepted by its home NCB the counterparty instructs, via its own custodian if necessary, the securities settlement systems (SSS) in the country in which its marketable assets are held, to transfer them to the central bank of that country (hereinafter the 'correspondent central bank') for the account of the home NCB. Once the home NCB has been informed by the correspondent central bank that the collateral has been received, it transfers the funds to the counterparty. The NCBs do not advance funds until they are certain that the counterparties' marketable assets have been received by the correspondent central bank. Where necessary to meet settlement deadlines, counterparties may be able to pre-deposit assets with correspondent central banks for the account of their home NCB using the CCBM procedures.

3. In a pooling system, the counterparty may at any time provide the correspondent central bank with marketable assets for the account of the home NCB. Once the home NCB has been informed by the correspondent central bank that the marketable assets have been received, it will add these marketable assets to the pool account of the counterparty.

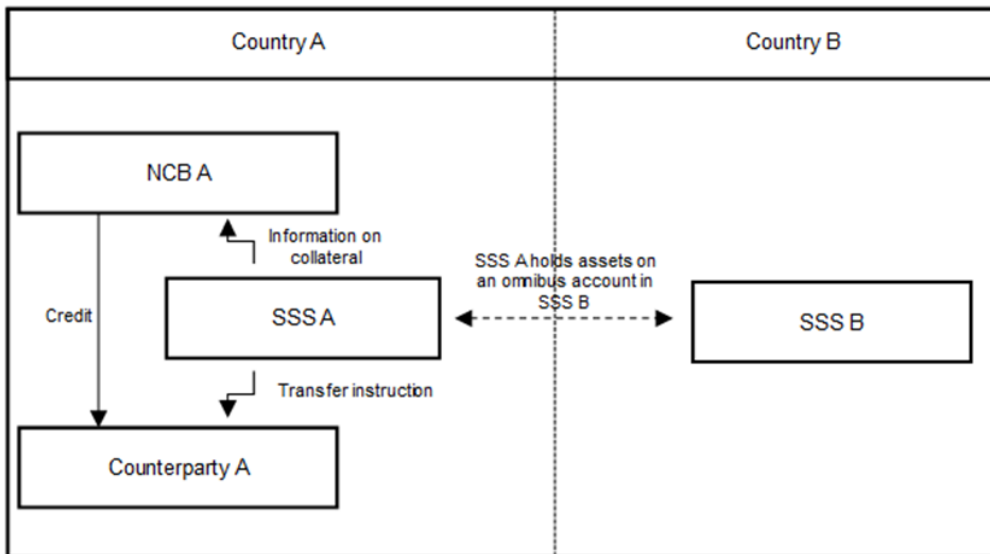

4. Specific procedures for cross-border use have been developed for certain non-marketable assets, i.e. credit claims and retail mortgage-backed debt instruments (RMBDs). When credit claims are used as collateral in a cross-border context, a CCBM variant is applied to credit claims, using a transfer of ownership, an assignment or a pledge in favour of the home NCB, or a charge in favour of the correspondent central bank, acting as the agent for the home NCB. A further ad-hoc variant based on the charge in favour of the correspondent central bank acting as the agent for the home NCB is applied to allow the cross-border use of RMBDs.

5. The CCBM is available to counterparties, both for marketable and non-marketable assets, as a minimum from 9 a.m. to 4 p.m. CET on each TARGET2 business day. A counterparty wishing to make use of the CCBM must advise the NCB from which it wishes to receive credit, i.e. its home NCB, before 4 p.m. CET. The counterparty must ensure that the collateral for securing the credit operation is delivered to the account of the correspondent central bank by 4.45 p.m. CET at the latest. Instructions or deliveries that do not respect this deadline will only be dealt with on a best effort basis and may be considered for credit that will be given on the following TARGET2 business day. When counterparties foresee a need to use the CCBM late in the day, they should, where possible, pre-deposit the assets. Under exceptional circumstances or when required for monetary policy purposes, the ECB may decide to extend the CCBM's closing time until the TARGET2 closing time, in cooperation with central securities depositories regarding their availability to extend their cut-off times for marketable assets.

II. ELIGIBLE LINKS BETWEEN SSSS

Table 2: Eligible links between securities settlement systems

Use of eligible assets issued in the SSS of country B held by a counterparty established in country A through an eligible link between the SSSs in countries A and B in order to obtain credit from the NCB of country A.

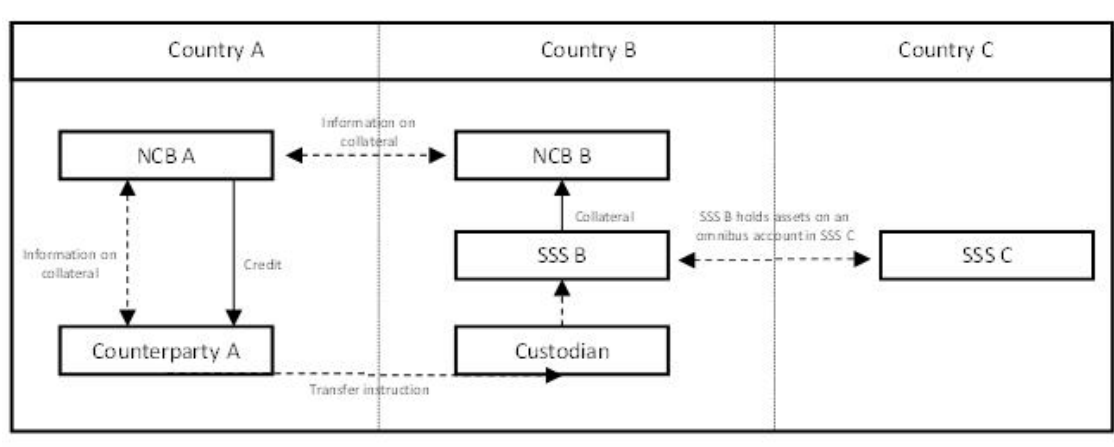

1. Eligible links between two SSSs in the European Economic Area (EEA) consist of a set of procedures and arrangements for the cross-border transfer of securities through a book-entry process. They take the form of an omnibus account opened by an SSS (hereinafter the ‘investor SSS’) in another SSS (hereinafter the ‘issuer SSS’).
2. Eligible links allow a participant in one SSS in the EEA to hold securities issued in another SSS in the EEA without being a participant therein. When using links between SSSs, the counterparties hold the assets on their own account with their home SSS and have no need for a custodian.

III. CCBM IN COMBINATION WITH ELIGIBLE LINKS

Table 3: CCBM in combination with eligible links

Use of eligible assets issued in the SSS of country C and held in the SSS of country B by a counterparty established in country A through an eligible link between the SSSs in countries B and C in order to obtain credit from the NCB of country A.

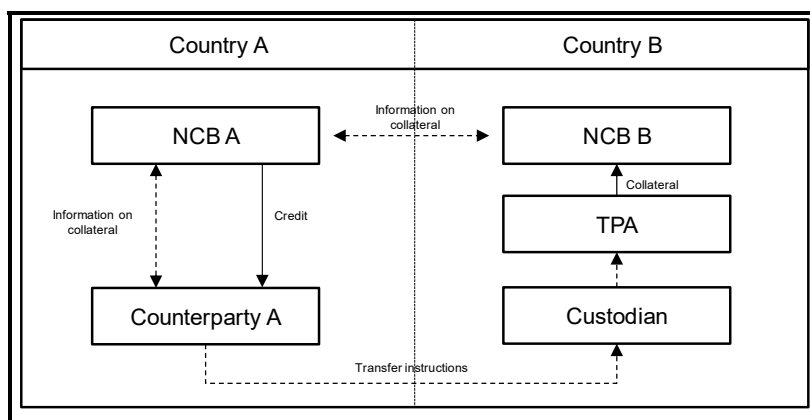

Where eligible assets in the form of securities are to be transferred via the CCBM with links, counterparties must ensure that the securities are delivered to an account at the relevant investor SSS by 4 p.m. CET on the settlement date in order to ensure settlement of same-day value operations. Any request for mobilisation received by home NCBs from their counterparties after 4 p.m. CET, or any request for the delivery of eligible assets to an account at the relevant investor SSS after 4 p.m. CET, is dealt with on a best efforts basis, according to the cut-off times of the SSSs involved.

IV. CCBM WITH TRI-PARTY COLLATERAL MANAGEMENT SERVICES

Table 4: Cross-border triparty services

Use of eligible assets held in the tri-party agent (TPA) of country B by a counterparty established in country A in order to obtain credit from the NCB of country A.

The arrow 'Information on collateral' between counterparty A and NCB A may not be relevant in the case of certain TPAs, depending on the contractual model chosen, and in such cases the counterparty does not send an instruction to NCB A or receive a confirmation from NCB A.

**ANNEX 6A – ELIGIBILITY CRITERIA FOR THE USE OF SECURITIES
SETTLEMENT SYSTEMS AND LINKS BETWEEN SECURITIES SETTLEMENT
SYSTEMS IN EUROSYSTEM CREDIT OPERATIONS**

Section I: Eligibility criteria for securities settlement systems (SSSs) and links between SSSs

1. The Eurosystem determines the eligibility of an SSS operated by a central securities depository (CSD) or a national central bank (NCB) or a public body as specified in Article 1(4) of Regulation (EU) No 909/2014 of the European Parliament and of the Council¹⁵ established in a Member State whose currency is the euro (hereinafter an ‘SSS operator’ or an “operator of an SSS”) on the basis of the following criteria:
 - (a) the euro area SSS operator complies with the requirements for authorisation as a CSD laid down in Regulation (EU) No 909/2014; and
 - (b) the NCB of the Member State in which the respective SSS operates has set up and maintains appropriate contractual or other arrangements with the euro area SSS operator, which include the Eurosystem requirements laid down in Section II of this Annex.

If the authorisation procedure laid down in Title III of Regulation (EU) No 909/2014 in respect of a euro area CSD has not been completed, points (a) and (b) do not apply. In this situation, the SSS operated by this CSD must instead be positively assessed under the “Framework for the assessment of securities settlement systems and links to determine their eligibility for use in Eurosystem credit operations”, January 2014, which is published on the ECB’s website.

2. The Eurosystem determines the eligibility of a direct link or a relayed link on the basis of the following criteria:
 - (a) the direct link or, in the case of a relayed link, each of the underlying direct links, complies with the requirements laid down in Regulation (EU) No 909/2014;
 - (b) the NCBs of the Member States in which the investor SSS, any intermediary SSS and the issuer SSS are established have set up and maintain appropriate

¹⁵ Regulation (EU) No 909/2014 of the European Parliament and of the Council of 23 July 2014 on improving securities settlement in the European Union and on central securities depositories and amending Directives 98/26/EC and 2014/65/EU and Regulation (EU) No 236/2012 (OJ L 257, 28.8.2014, p. 1).

contractual or other arrangements with the euro area SSS operators, which include the Eurosystem requirements laid down in Section II;

- (c) the investor SSS, any intermediary SSS and the issuer SSS involved in the link are all considered eligible by the Eurosystem.

If the authorisation procedure laid down in Title III of Regulation (EU) No 909/2014 in respect of any CSD operating an SSS involved in a link has not been completed, points (a) to (c) do not apply. In this situation, links involving an SSS operated by such a CSD must instead be positively assessed under the “Framework for the assessment of securities settlement systems and links to determine their eligibility for use in Eurosystem credit operations”, January 2014.

3. Before determining the eligibility of a direct link or relayed link involving one or more SSSs operated by CSDs or NCBs or public bodies established in a European Economic Area (EEA) State whose currency is not the euro (hereinafter a “non-euro area EEA SSS” operated by a “non-euro area EEA SSS operator”), the Eurosystem carries out a business case analysis which takes into account, inter alia, the value of the eligible assets issued by or held in those SSSs.
4. Subject to the business case analysis having a positive outcome, the Eurosystem determines the eligibility of a link involving non-euro area EEA SSSs on the basis of the following criteria:
 - (a) The non-euro area EEA operators of the SSSs involved in the link and the link itself comply with the requirements laid down in Regulation (EU) No 909/2014.
 - (b) For direct links, the NCB of the Member State in which the investor SSS operates has set up and maintains appropriate contractual or other arrangements with the euro area operator of the investor SSS. These contractual or other arrangements must stipulate the obligation of the euro area SSS operator to implement the provisions laid down in Section II of this Annex in its legal arrangements with the non-euro area EEA operator of the issuer SSS.

For relayed links, each of the underlying direct links in which a non-euro area EEA SSS acts as issuer SSS must fulfil the criterion in the first paragraph of point (b). In a relayed link where both the intermediary SSS and the issuer SSS are non-euro area EEA SSSs, the NCB of the Member State in which the investor SSS operates must set up and maintain appropriate contractual or other

arrangements with the euro area operator of the investor SSS. These contractual or other arrangements must stipulate not only the obligation of the euro area SSS operator to implement the provisions laid down in Section II of this Annex in its legal arrangements with the non-euro area EEA operator of the intermediary SSS, but also the obligation of the non-euro area EEA operator of the intermediary SSS to implement the legal provisions laid down in Section II in its contractual or other arrangements with the non-euro area EEA operator of the issuer SSS.

- (c) All euro area SSSs involved in the link are considered eligible by the Eurosystem.
- (d) The NCB of the non-euro area EEA State in which the investor SSS operates has committed to reporting information on the eligible assets traded on domestic acceptable markets in a manner determined by the Eurosystem.

If the authorisation procedure laid down in Title III of Regulation (EU) No 909/2014 in respect of any CSD operating the investor SSS, intermediary SSS or issuer SSS in a link has not been completed, points (a) to (d) do not apply. In this situation, links involving an SSS operated by such a CSD must instead be positively assessed under the “Framework for the assessment of securities settlement systems and links to determine their eligibility for use in Eurosystem credit operations”, January 2014.

Section II: Eurosystem requirements

1. In order to ensure legal soundness, an SSS operator must satisfy the NCB of the Member State in which the respective SSS operates, by reference to binding legal documentation, whether in the form of a duly executed contract or by reference to the mandatory terms and conditions of the relevant SSS operator or otherwise, that:
 - (a) the entitlement to securities held in an SSS operated by that SSS operator, including to securities held through the links operated by the SSS operator (held in accounts maintained by the linked SSS operators), is governed by the law of an EEA State;
 - (b) the entitlement of the participants in the SSS to securities held in that SSS is clear, unambiguous and ensures that the participants in the SSS are not exposed to the insolvency of that SSS operator;

- (c) where the SSS acts in the capacity of an issuer SSS, the entitlement of the linked investor SSS to securities held in the issuer SSS is clear, unambiguous and ensures that the investor SSS and its participants are not exposed to the insolvency of the issuer SSS operator;
 - (d) where the SSS acts in the capacity of an investor SSS, the entitlement of that SSS to the securities held in the linked issuer SSS is clear, unambiguous and ensures that the investor SSS and its participants are not exposed to the insolvency of the issuer SSS operator;
 - (e) no lien or similar mechanism provided for under applicable law or contractual arrangements will have a negative impact on the Bank's entitlement to the securities held in the SSS;
 - (f) the procedure for allocating any shortfall of securities held in the SSS, in particular in the event of the insolvency of: (i) the SSS operator; (ii) any third party involved in safekeeping the securities; or (iii) any linked issuer SSS, is clear and unambiguous;
 - (g) the procedures to be followed in order to claim securities under the legal framework of the SSS are clear and unambiguous, including, where the SSS acts as an investor SSS, any formalities to be fulfilled towards the linked issuer SSS.
2. An SSS operator must ensure that when the SSS it operates acts as an investor SSS, securities transfers made via links will be final within the meaning of Directive 98/26/EC of the European Parliament and of the Council¹⁶, i.e. it is not possible to revoke, unwind, rescind or otherwise undo such securities transfers.
 3. When the SSS that it operates acts as an issuer SSS, an SSS operator must ensure that it does not make use of a third-party institution, such as a bank or any party other than the SSS acting as intermediary between the issuer and the issuer SSS, or the SSS operator must ensure that its SSS has a direct or relayed link with an SSS which has this (unique and direct) relationship.
 4. In order to utilise the links between SSSs used to settle central bank transactions, facilities must be in place to allow either intraday delivery-versus-payment settlement in central bank money or intraday free of payment (FOP) settlement, which may take the form of real-time gross settlement or a series of batch processes

with intraday finality. Owing to the settlement features of TARGET2-Securities, this requirement is considered as already fulfilled for direct and relayed links in which all SSSs involved in the link are integrated in TARGET2-Securities.

5. With regard to operating hours and opening days:
 - (a) an SSS and its links must provide settlement services on all TARGET2 business days;
 - (b) an SSS must operate during daytime processing as referred to in Appendix V of Annex II to Guideline ECB/2012/27 of the European Central Bank¹⁷;
 - (c) SSSs involved in direct links or relayed links must enable their participants to submit instructions for same-day delivery-versus-payment settlement via the issuer and/or the intermediary SSS (as applicable) to the investor SSS until at least 3.30 p.m. Central European Time (CET)¹⁸;
 - (d) SSSs involved in direct links or relayed links must enable their participants to submit instructions for same-day FOP settlement via the issuer or intermediary SSS (as applicable) to the investor SSS until at least 4 p.m. CET;
 - (e) SSSs must have measures in place to ensure that the operating times specified in points (b) to (d) above are extended in the event of emergency.

Owing to the settlement features of TARGET2-Securities, these requirements are considered as already fulfilled for SSSs integrated in TARGET-2 Securities, and for direct and relayed links in which all SSSs involved in the link are integrated in TARGET2-Securities.

Section III: Application procedure

1. Euro area SSS operators that intend for their services to be used in Eurosystem credit operations should submit an application for an assessment of eligibility to the NCB of the Member State in which the SSS is established.
2. For links, including those involving a non-euro area EEA SSS, the operator of the investor SSS should submit the application for an assessment of eligibility to the NCB of the Member State in which the investor SSS operates.

¹⁶ Directive 98/26/EC of the European Parliament and of the Council of 19 May 1998 on settlement finality in payment and securities settlement systems (OJ L 166, 11.6.1998, p. 45).

¹⁷ Guideline ECB/2012/27 of the European Central Bank of 5 December 2012 on a Trans-European Automated Real-time Gross settlement Express Transfer system (TARGET2) (OJ L 30, 30.1.2013, p. 1).

¹⁸ CET takes account of the change to Central European Summer Time.

3. The Eurosystem may reject an application or, where the SSS or link is already eligible, it may suspend or withdraw eligibility if:
 - (a) one or more of the eligibility criteria provided for in Section I of this Annex are not met;
 - (b) the use of the SSS or link could affect the safety and efficiency of Eurosystem credit operations and expose the Eurosystem to the risk of financial losses, or is otherwise deemed, on the grounds of prudence, to pose a risk.
4. The Eurosystem decision on the eligibility of an SSS or link is notified to the SSS operator which submitted the application for an assessment of eligibility. The Eurosystem will provide reasons for any negative decision.
5. The SSS or link may be used for Eurosystem credit operations once it has been published in the Eurosystem lists of eligible SSSs and eligible links on the ECB's website.

**ANNEX 7 - CALCULATION OF SANCTIONS TO BE APPLIED IN ACCORDANCE
WITH PART FIVE AND FINANCIAL PENALTIES TO BE APPLIED IN
ACCORDANCE WITH PART SEVEN**

I. CALCULATION OF FINANCIAL PENALTIES TO BE APPLIED IN ACCORDANCE WITH PART FIVE

1. Where a financial penalty is to be imposed by the Bank on any of its counterparties in accordance with Part Five, the Bank shall calculate the penalty in accordance with a pre-specified penalty rate, as follows.

(a) For failure to comply with an obligation referred to in Article 154(1)(a), (b) or (c) a financial penalty is calculated using the marginal lending facility rate that applied on the day when the non-compliance began plus 2,5 percentage points.

(b) For failure to comply with an obligation referred to in Article 154(1)(d) or (e), a financial penalty is calculated using the marginal lending facility rate that applied on the day when the non-compliance began plus 5 percentage points. For repeated infringements of the obligation referred to in Article 154(1)(d) or of the obligation referred to in Article 154(1)(e) within a 12-month period, starting from the day of the first infringement, the penalty rate increases by a further 2.5 percentage points for each infringement.

2. For failure to comply with an obligation referred to in Article 154(1)(a) or (b), a financial penalty is calculated by applying the penalty rate, in accordance with paragraph 1(a), to the amount of collateral or cash that the counterparty could not deliver or settle, multiplied by the coefficient $X/360$, where X is the number of calendar days, with a maximum of seven, during which the counterparty was unable to collateralise or settle: (a) the allotted amount as specified in the certification of individual tender allotment results during the maturity of an operation; or (b) the remaining amount of a particular operation if there are early terminations executed by the Bank over the remainder of the term of the operation.

3. For failure to comply with an obligation referred to in Article 154(1)(c), a financial penalty is calculated by applying the penalty rate, in accordance with paragraph 1(a), to the value of the ineligible assets or the assets that may not be mobilised or used by the counterparty after haircuts, as follows:

(a) in the case of ineligible assets which are provided by the counterparty to an NCB, the value of the ineligible assets after haircuts are taken into account; or

- (b) in the case of assets which were originally eligible but became ineligible or may no longer be mobilised or used by the counterparty, the value after haircuts of the assets that have not been removed by or before the start of the eighth calendar day, following an event after which the eligible assets became ineligible or may no longer be mobilised or used by the counterparty, are taken into account.
4. The amounts referred to in paragraph 3(a) and (b) are multiplied by the coefficient $X/360$, where X is the number of calendar days, with a maximum of seven, during which the counterparty failed to comply with its obligations in respect of the use of assets submitted as collateral for Eurosystem credit operations. In the case of paragraph 3(b), the calculation of X begins after the expiry of the grace period of seven calendar days.

$$\begin{aligned} & [EUR \text{ [value of ineligible assets after haircuts on the first day of the infringement]} * \\ & \text{(the applicable marginal lending facility rate on the day when the infringement began +} \\ & \text{2,5\%)} * X/360 = EUR \text{ [...]} \end{aligned}$$

5. For limit breaches as regards unsecured debt instruments issued by a credit institution or their closely linked entities as laid down in Article 141, the application of a grace period is determined as follows:

- (a) A grace period of seven calendar days applies if the breach resulted from a change in the valuation, without a submission of additional such unsecured debt instruments and without removal of assets from the total collateral pool, on the basis of the following:
- (i) the value of those already submitted unsecured debt instruments has increased;
or
 - (ii) the total value of the collateral pool has decreased.

In such cases the counterparty is required to adjust the value of its total collateral pool and/or the value of such unsecured debt instruments within the grace period, to ensure compliance with the applicable limit.

- (b) The submission of additional unsecured debt instruments issued by a credit institution or its closely linked entities breaching the applicable limit does not entitle the counterparty to a grace period.
6. If the counterparty has provided information that affects the value of its collateral negatively from the Eurosystem's perspective with regard to Article 145(4), e.g. incorrect information on

the outstanding amount of a used credit claim that is or has been false or out of date, or if the counterparty fails to timely provide information as required under Article 101(a)(iv), the amount (value) of the collateral that has been negatively affected is taken into account for the calculation of the financial penalty under paragraph 3 and no grace period shall be applicable. If the incorrect information is corrected by the next business day pursuant to Article 109(2), no penalty is to be applied.

7. For failure to comply with the obligations referred to in Article 154(1)(d) or (e), a financial penalty is calculated by applying the penalty rate, in accordance with paragraph 1(b), to the amount of the counterparty's unauthorised access to the marginal lending facility or unpaid credit from the Eurosystem.

8. The Bank will impose a minimum financial penalty of EUR 500 where the calculation in accordance with this Annex results in an amount of less than EUR 500. A financial penalty will not be imposed where a breach is rectified within an applicable grace period.

II. CALCULATION OF NON-FINANCIAL PENALTIES TO BE APPLIED IN ACCORDANCE WITH PART FIVE

Suspension for non-compliance with obligations referred to in Article 154(1)(a) or (b)

Where a suspension period applies in accordance with Article 156(1), the Bank will impose the suspension in accordance with the following:

- (a) if the amount of non-delivered collateral or cash is up to 40% of the total collateral or cash to be delivered, a suspension of one month applies;
- (b) if the amount of non-delivered collateral or cash is between 40% and 80% of the total collateral or cash to be delivered, a suspension of two months applies;
- (c) if the amount of non-delivered collateral or cash is between 80% and 100% of the total collateral or cash to be delivered, a suspension of three months applies.

With regard to I and II above, if a sanction relates to a transaction between a counterparty and the ECB in a bilateral procedure, the above provisions are interpreted to cater for the imposition of sanctions by the ECB.

III. CALCULATION OF FINANCIAL PENALTIES TO BE APPLIED IN ACCORDANCE WITH PART SEVEN

1. The Bank shall calculate the financial penalty pursuant to Article 166(4a) in accordance with the following:
 - (a) For failure to comply with an obligation referred to in Article 166(4a), the financial penalty is calculated using the marginal lending facility rate that applied on the day when the non-compliance began plus 2,5 percentage points.
 - (b) The financial penalty is calculated by applying the penalty rate, in accordance with paragraph (a), to the amount of cash that the counterparty could not reimburse or pay, or to the value of the assets which were not delivered, multiplied by the coefficient $X/360$, where X is the number of calendar days, with a maximum of seven, during which the counterparty was unable to: (i) reimburse any amount of the credit, pay the repurchase price or the cash otherwise due; or (ii) deliver the assets at maturity or when otherwise due according to the contractual or regulatory arrangements.
2. The following formula shall be used for the calculation of the financial penalty in accordance with paragraph 1(a) and (b) above:

[EUR [amount of cash that the counterparty could not reimburse or pay, or value of assets that the counterparty could not deliver] * (the applicable marginal lending facility rate on the day when the non-compliance began plus 2,5 percentage points) * $[X]/360$ (where X is the number of calendar days during which the counterparty did not pay, reimburse or deliver) = EUR [...]]'.

ANNEX 8 - LOAN-LEVEL DATA REPORTING REQUIREMENTS FOR ASSET- BACKED SECURITIES AND THE REQUIREMENTS FOR LOAN-LEVEL DATA REPOSITORIES

This Annex applies to the provision of comprehensive and standardised loan-level data on the pool of cash-flow generating assets backing the asset-backed securities (ABSs), as specified in Article 78, and sets out the requirements for loan-level data repositories.

I. SUBMISSION OF LOAN-LEVEL DATA

1. Loan-level data must be submitted by the relevant parties to a loan-level data repository in accordance with this Annex. The loan-level data repository publishes such data electronically.

2. Loan-level data must be submitted for each individual transaction using:

(a) for transactions reported to an ESMA securitisation repository, the relevant templates specified in the implementing technical standards adopted by the Commission under Article 7(4) of Regulation (EU) 2017/2402; or

(b) for transactions reported to a Eurosystem designated repository, the up-to-date relevant ECB loan-level data reporting template, published on the ECB's website.

In each case, the relevant template to be submitted depends on the type of asset backing the ABS, as defined in Article 73(1).

2a. Submission of loan-level data in accordance with paragraph 2(a) will commence at the beginning of the calendar month immediately following the date which is three months from the ESMA reporting activation date.

Submission of loan-level data in accordance with paragraph 2(b) is permitted until the end of the calendar month in which the date three years and three months from the ESMA reporting activation date falls.

2b. Notwithstanding the second subparagraph of paragraph 2a, loan-level data for an individual transaction must be submitted in accordance with paragraph 2(a) where both:

(a) the relevant parties to a transaction are obliged pursuant to Article 7(1)(a) and Article 7(2) of Regulation (EU) 2017/2402 to report loan-level data on the individual transaction to an ESMA securitisation repository using the relevant templates specified in the implementing technical standards adopted by the Commission under Article 7(4) of that Regulation; and

(b) submissions of loan-level data in accordance with paragraph 2(a) have commenced.

3. Loan-level data must be reported at least on a quarterly basis, but no later than one month following a due date for the payment of interest on the relevant ABSs. As regards the data submitted, the pool cut-off date may not be more than two months old, i.e. the ‘date of submission of report’ less the ‘pool cut-off date’ must be less than two months. The ‘pool cut-off date’ is defined as the date on which a snapshot of the performance of the underlying assets was captured for the respective report.
4. To ensure compliance with the requirements in paragraphs 2 and 3, the loan-level data repository conducts automated consistency and accuracy checks on reports of new and updated loan-level data for each transaction.

II. LEVEL OF REQUIRED DETAIL

1. After the date of application of loan-level data reporting requirements for the specific class of cash-flow generating assets backing the ABSs as specified on the European Central Bank’s (ECB’s) website, detailed loan-by-loan level information must be provided for ABSs to become or remain eligible.
2. The ABSs for which the ECB’s loan-level data reporting template is used must achieve a compulsory minimum compliance level of A1 data score assessed by reference to the availability of information, in particular the data fields of the loan-level data reporting template, calculated in accordance with the methodology set out in Section III of this Annex. Notwithstanding the required scoring values set out in Section III in respect of loan-level data, the Eurosystem may accept as collateral for ABSs for which the ECB’s loan-level data reporting templates are used with a score lower than the required scoring value (A1), on a case-by-case basis and subject to the provision of adequate explanations for the failure to achieve the required score. For each adequate explanation, the Eurosystem will specify a maximum tolerance level and a tolerance horizon, as further specified on the ECB’s website. The tolerance horizon will indicate the time period within which the data quality for the ABSs must improve.
3. To capture non-available fields, a set of six ‘no data’ (ND) options are included in the ECB’s loan-level data reporting templates and must be filled in whenever particular data cannot be submitted in accordance with the loan-level data reporting template. .

TABLE 1: EXPLANATION OF THE ND OPTIONS

'no data' options	Explanation
ND1	Data not collected as not required by the underwriting criteria
ND2	Data collected on application but not loaded into the reporting system on completion
ND3	Data collected on application but loaded it on a separate system from the reporting one
ND4	Data collected but will only be available from MM-YYYY
ND5	Not relevant
ND6	Not applicable for the jurisdiction

III. ECB DATA SCORE METHODOLOGY

1. The loan-level data repository generates and assigns a score to each ABS transaction upon submission and processing of loan-level data.
2. This score reflects the number of mandatory fields that contain ND1 and the number of mandatory fields that contain ND2, ND3 or ND4, compared in each case against the total number of mandatory fields. In this regard, the options ND5 and ND6 may only be used if the relevant data fields in the relevant loan-level data reporting template so permit. Combining the two threshold references produces the following range of loan-level data scores.

TABLE 2: LOAN-LEVEL DATA SCORES

Scoring value matrix		ND1 fields			
		0	≤ 10 %	≤ 30 %	> 30 %
ND2	0	A1	B1	C1	D1
or	≤ 20 %	A2	B2	C2	D2
ND3	≤ 40 %	A3	B3	C3	D3
or	> 40 %	A4	B4	C4	D4
ND4					

IV. EUROSISTEM DESIGNATION OF LOAN-LEVEL DATA REPOSITORIES

I. REQUIREMENTS FOR DESIGNATION

1. In order to be designated by the Eurosystem, loan-level data repositories must comply with the applicable Eurosystem requirements, including open access, non-discrimination, coverage, appropriate governance structure and transparency.

2. In relation to the requirements of open access and non-discrimination, a loan-level data repository:

- (a) may not unfairly discriminate between data users when providing access to loan-level data;
- (b) must apply criteria for access to loan-level data which are objective, non-discriminatory and publicly available;
- (c) may only restrict access to the least possible extent so as to meet the requirement of proportionality;
- (d) must establish fair procedures for instances where it denies access to data users or data providers;
- (e) must have the necessary technical capabilities to provide access to both data users and data providers in all reasonable circumstances, including data backup procedures, data security safeguards, and disaster recovery arrangements;
- (f) may not impose costs for data users for the supply or extraction of loan-level data which are discriminatory or give rise to undue restrictions on access to loan-level data.

3. In relation to the requirement of coverage, a loan-level data repository:

- (a) must establish and maintain robust technology systems and operational controls to enable it to process loan-level data in a manner that supports the Eurosystem's requirements for submission of and access to loan-level data in relation to eligible assets subject to loan-level data disclosure requirements, as specified both in Article 78 and in this Annex;

In particular, the loan-level data repository's technology system must allow data users to extract loan-level data, loan-level data scores and timestamp of data submissions, through both manual and automatic processes that cover all loan-level data submissions of all ABS

transactions which have been submitted through that loan-level data repository and an extraction of multiple loan-level data files if required in one download request.

- (b) must credibly demonstrate to the Eurosystem that its technical and operational capacity would permit it to achieve substantial coverage should it obtain designated loan-level data repository status.

4. In relation to the requirements of an appropriate governance structure and transparency, a loan-level data repository:

- a. must establish governance arrangements that serve the interests of stakeholders in the ABS market in fostering transparency;
- b. must establish clearly documented governance arrangements, respect appropriate governance standards and ensure the maintenance and operation of an adequate organisational structure to ensure continuity and orderly functioning; and
- c. must grant the Eurosystem sufficient access to documents and supporting information in order to monitor, on an ongoing basis, the continued appropriateness of the loan-level data repository's governance structure.

II. PROCEDURES FOR DESIGNATION AND WITHDRAWAL OF DESIGNATION

1. An application for designation by the Eurosystem as a loan-level data repository must be submitted to the ECB's Directorate Risk Management. The application must provide appropriate reasoning and complete supporting documentation demonstrating the applicant's compliance with the requirements for loan-level data repositories set out in this Directive. The application, reasoning and supporting documentation must be provided in writing and, wherever possible, in electronic format. No application for designation will be accepted after 13 May 2019. Any application received prior to that date will be processed in accordance with this Annex.
2. Within 25 working days of receipt of the application, the ECB will assess whether the application is complete. If the application is not complete, the ECB will set a deadline by which the loan-level data repository is to provide additional information.
3. After assessing an application as complete, the ECB will notify the loan-level data repository accordingly.

4. The Eurosystem will, within a reasonable time frame (aiming for 60 working days of the notification referred to in paragraph 3), examine an application for designation made by a loan-level data repository based on the compliance of the loan-level data repository with the requirements set out in this Annex. As part of its examination, the Eurosystem may require the loan-level data repository to conduct one or more live interactive demonstrations with Eurosystem staff, to illustrate the loan-level data repository's technical capabilities in relation to the requirements set out in Section IV.I, paragraphs 2 and 3 of this Annex. If such a demonstration is required, it shall be considered a mandatory requirement of the application process. The demonstration may also include the use of test files.
5. The Eurosystem may extend the period of examination by 20 working days, in cases where additional clarification is deemed necessary by the Eurosystem or where a demonstration has been required in accordance with paragraph 4.
6. The Eurosystem will aim to adopt a reasoned decision to designate or to refuse designation within 60 working days of the notification referred to in paragraph 3, or within 80 working days thereof where paragraph 5 applies.
7. Within five working days of the adoption of a decision under paragraph 6, the Eurosystem will notify its decision to the loan-level data repository concerned. Where the Eurosystem refuses to designate the loan-level data repository or withdraws the designation of the loan-level data repository, it will provide reasons for its decision in the notification.
8. The decision adopted by the Eurosystem pursuant to paragraph 6 will take effect on the fifth working day following its notification pursuant to paragraph 7.
9. A designated loan-level data repository must, without undue delay, notify the Eurosystem of any material changes to its compliance with the requirements for designation.
10. The Eurosystem will withdraw the designation of a loan-level data repository where the loan-level data repository:
 - (a) obtained the designation by making false statements or by any other irregular means; or
 - (b) no longer fulfils the requirements under which it was designated.
11. A decision to withdraw the designation of a loan-level data repository will take effect immediately. ABSs in relation to which loan-level data was made available through a loan-level data repository whose designation was withdrawn in accordance with

paragraph 10 may remain eligible as collateral for Eurosystem credit operations, providing all other requirements are fulfilled, for a period

- (a) until the next required loan-level data reporting date specified in Section I.4 of Annex 8 ; or
- (b) if the period permitted under (a) is technically infeasible for the party submitting loan-level data and a written explanation has been provided to the NCB assessing eligibility by the next required loan-level data reporting date specified in Section I.4 of Annex 8, three months following the decision under paragraph 10.

After the expiry of this period the loan-level data for such ABSs must be made available through a designated loan-level data repository in accordance with all applicable Eurosystem requirements.

- 12. The Eurosystem will publish on the ECB's website a list of loan-level data repositories designated in accordance with this Directive. That list will be updated within five working days following the adoption of a decision under paragraph 6 or paragraph 10.

IIa. MINIMUM INFORMATION REQUIRED FOR AN APPLICATION FOR DESIGNATION TO BE DEEMED COMPLETE

- 1. As regards the Eurosystem requirements of open access, non-discrimination, and transparency, applicants must provide information on the following:
 - (a) detailed access criteria and any access restrictions to loan-level data for data users, and details of and reasons for any variations in such access criteria and access restrictions for data users;
 - (b) policy statements or other written description of the process and criteria applied for granting a data user access to a specific loan-level data file, as well as further details, whether in such policy statements or other written description, of any technical or procedural safeguards that exist to ensure non-discrimination.
- 2. As regards the Eurosystem requirement of coverage, applicants must provide information on the following:

- (a) The number of staff employed by the applicant in the area of loan-level data repository services, the technical background of the staff employed in and/or other resources dedicated to this area, and how the applicant manages and retains the technical know-how of such staff and/or other resources to ensure technical and operational continuity on a daily basis despite any changes to staff or resources.
- (b) Up-to-date coverage statistics, including how many outstanding ABSs eligible for Eurosystem collateral operations are currently hosted by the applicant, including a breakdown of such ABSs based on geographical location of the debtors of the cash-flow generating assets and the type of cash-flow generating asset classes specified in Article 73(1). In the event that any asset class is not currently hosted by the applicant, information must be provided on the applicant's plans and the technical feasibility to cover such asset class in the future.
- (c) The technical operation of the applicant's loan-level data repository system, including a written description of:
 - (i) the user guide to its user interface, explaining how to access, extract and submit loan-level data, from both a data user perspective and a data provider perspective;
 - (ii) the current technical and operational capacity of the applicant's repository system, such as how many ABS transactions can be stored in the system (and whether the system can easily be upscaled), how loan-level data regarding historical ABS transactions are stored and accessed by data users and data providers and any maximum limits for the number of loans that can be uploaded by a data provider in one ABS transaction;
 - (iii) the applicant's current technical and operational capabilities regarding the submission of data by data providers, i.e. the technical process by which the data provider can submit loan-level data and whether this is a manual or automatic process; and
 - (iv) the applicant's current technical and operational capabilities regarding the extraction of data by data users, i.e. the technical

process by which the data user can extract loan-level data, whether this is a manual or automatic process.

- (d) A technical description of:
 - (i) the file formats submitted by data providers and accepted by the applicant for the submission of loan-level data (Excel template file, XML schemas, etc.), including an electronic soft copy of each such file format, and an indication of whether the applicant provides tools for data providers to convert loan-level data into the file formats accepted by the applicant;
 - (ii) the applicant's current technical and operational capabilities regarding the testing and validation documentation for the applicant's system, including the calculation of the loan-level data compliance score;
 - (iii) the frequency of updates and new releases of its system, and the maintenance policy and testing policy;
 - (iv) the applicant's technical and operational capabilities to adapt to future Eurosystem loan-level data template updates, such as changes in current fields, and the addition or deletion of fields;
 - (v) the applicant's technical capabilities regarding disaster recovery and business continuity, specifically with regard to the degree of redundancy of individual storage and backup solutions in its data centre and server architecture;
 - (vi) a description of the applicant's current technical capabilities regarding its internal control architecture in relation to loan-level data, including information system controls and data integrity.
3. As regards the Eurosystem requirement of an appropriate governance structure, applicants must provide the following:
- (a) details of its corporate status, i.e. its statute or articles of association, and its shareholder structure;
 - (b) information on the applicant's internal audit procedures (if any), including the identity of those responsible for conducting such audits, whether audits are

externally verified and, if audits are conducted internally, what arrangements are taken to prevent or manage any conflicts of interest;

- (c) information on how the applicant's governance arrangements serve the interests of ABS market stakeholders, in particular whether its pricing policy is considered in the context of this requirement;
 - (d) written confirmation that the Eurosystem will have access, on an ongoing basis, to the documentation necessary for it to monitor the continued appropriateness of the applicant's governance structure and compliance with the governance requirements in paragraph 4 of Section IV.I.
4. The applicant must provide a description of the following:
- (a) how the applicant calculates the data quality score, and how the score is published in the applicant's repository system and thereby made available to data users;
 - (b) the data quality checks carried out by the applicant, including the process, the number of checks and the list of fields checked;
 - (c) the applicant's current capabilities regarding the reporting of consistency and accuracy checks, i.e. how existing reports are produced by the applicant for data providers and data users, the ability of the applicant's platform to build automated and custom reports according to data users' requests, and the ability of the applicant's platform to automatically send notifications to data users and data providers (for example, notifications of loan-level data having been uploaded for a particular transaction).'

ANNEX 9 - EUROSISTEM CREDIT ASSESSMENT FRAMEWORK PERFORMANCE MONITORING PROCESS

1. For each credit assessment system, the Eurosystem credit assessment framework (ECAAF) performance monitoring process consists of an annual *ex post* comparison of:
 - (a) the observed default rates for all eligible entities and debt instruments rated by the credit assessment system, whereby these entities and instruments are grouped into static pools based on certain characteristics, e.g. credit rating, asset class, industry sector, credit quality assessment model; and
 - (b) the maximum probability of default associated with the respective credit quality step of the Eurosystem's harmonised rating scale.
2. The first element of the process is the annual compilation by the credit assessment system provider of the list of entities and debt instruments with credit quality assessments that satisfy the Eurosystem credit quality requirements at the beginning of the monitoring period. This list must then be submitted by the credit assessment system provider to the Eurosystem, using the template provided by the Eurosystem, which includes identification, classification and credit quality assessment-related fields.
3. The second element of the process takes place at the end of the 12-month monitoring period. The credit assessment system provider updates the performance data for the entities and debt instruments on the list. The Eurosystem reserves the right to request any additional information required in order to conduct performance monitoring.
4. The observed default rate of the static pools of a credit assessment system recorded over a one-year horizon is input to the ECAAF performance monitoring process, which comprises an annual rule and a multi-period assessment.
5. In the event of a significant deviation between the observed default rate of the static pools and the maximum probability of default of the relevant credit quality step over an annual and/or a multi-annual period, the Eurosystem will consult the credit assessment system provider to analyse the reasons for that deviation.

ANNEX 9A-MINIMUM COVERAGE REQUIREMENTS FOR EXTERNAL CREDIT ASSESSMENT INSTITUTIONS IN THE EUROSISTEM CREDIT ASSESSMENT FRAMEWORK

This Annex applies to the acceptance of a credit rating agency (CRA) as an ECAI in the Eurosystem credit assessment framework, as specified in Article 120(2).

1. COVERAGE REQUIREMENTS

1. Concerning current coverage, in each of at least three out of the four asset classes (a) unsecured bank bonds, (b) corporate bonds, (c) covered bonds and (d) ABS, the CRA must provide a minimum coverage of:
 - (i) 10% in the eligible universe of euro area assets, computed in terms of rated assets and rated issuers, except for the ABS asset class, for which coverage in terms of rated assets only will apply;
 - (ii) 20% in the eligible universe of euro area assets, computed in terms of nominal amounts outstanding;
 - (iii) in at least 2/3 of the euro area countries with eligible assets in the respective asset classes, the CRA must provide the required coverage of rated assets, rated issuers or rated nominal amounts as referred to in points (i) and (ii).
2. The CRA must provide sovereign ratings for, at a minimum, all euro area issuer residence countries where assets in one of the four asset classes mentioned in paragraph 1 are rated by this CRA, with the exception of assets for which the Eurosystem considers the respective country risk assessment to be irrelevant for the credit rating provided by the CRA for the issue, issuer or guarantor.
3. Concerning historical coverage, the CRA must meet at least 80% of the minimum coverage requirements outlined in paragraphs 1 and 2 in each of the last three years prior to the application for ECAF acceptance, and must meet 100% of those requirements at the time of application and during the entire period of ECAF acceptance.

2. CALCULATION OF COVERAGE

1. Coverage is calculated on the basis of credit ratings issued or endorsed by the CRA in accordance with Regulation (EC) No 1060/2009 and meeting all other requirements for ECAF purposes. For historical coverage, only the Eurosystem collateral eligibility requirements that were in force at the relevant point in time and only ratings that had been issued or endorsed in accordance with Regulation (EC) No 1060/2009 at the relevant point in time will be considered.

2. The coverage of a given CRA is based on credit ratings of eligible assets for Eurosystem monetary policy operations, and is computed in line with the priority rules under Article 84 by considering only that CRA's ratings.
 3. In the calculation of the minimum coverage of a CRA not yet accepted for ECAF purposes, the Eurosystem also includes relevant credit ratings provided for assets that are not eligible because of the lack of a rating from ECAF-accepted external credit assessment institutions (ECAI).
3. REVIEW OF COMPLIANCE
1. The compliance of ECAIs accepted with these coverage requirements will be reviewed annually.
 2. Non-compliance with the coverage requirements may be sanctioned in accordance with ECAF rules and procedures.

**ANNEX 9B - MINIMUM REQUIREMENTS IN THE EUROSYTEM CREDIT
ASSESSMENT FRAMEWORK FOR NEW ISSUE AND SURVEILLANCE REPORTS
ON COVERED BOND PROGRAMMES**

1. Introduction

For the purposes of the Eurosystem credit assessment framework (ECAAF), external credit assessment institutions (ECAIs), in respect of the Article 120(2), must comply with specific operational criteria in relation to covered bonds. In particular, ECAIs shall:

- (a) explain newly rated covered bond programmes in a publicly available credit rating report; and
- (b) make surveillance reports on covered bond programmes available on a quarterly basis.

This Annex sets out these minimum requirements in detail.

The requirements apply to issue ratings as referred to in Article 83 and therefore encompass all asset and programme ratings for eligible covered bonds. ECAIs' compliance with these requirements will be regularly reviewed. If the criteria are not fulfilled for a particular covered bond programme, the Eurosystem may deem the public credit rating(s) related to the relevant covered bond programme not to meet the high credit standards of the ECAAF. Thus, the relevant ECAI's public credit rating may not be used to establish the credit quality requirements for marketable assets issued under the specific covered bond programme.

2. Minimum requirements

- (a) The publicly available credit rating reports (new issue report) referred to in paragraph 1(a) must include a comprehensive analysis of the structural and legal aspects of the programme, a detailed collateral pool assessment, an analysis of the refinancing and market risk, an analysis of the transaction participants, ECAI proprietary assumptions and metrics, and an analysis of any other relevant details of the transaction.
- (b) The surveillance reports referred to in paragraph 1(b) must be published by the ECAI no later than eight weeks after the end of each quarter. The surveillance reports must contain the following information.
 - (i) Any ECAI proprietary metrics, including the latest available dynamic proprietary metrics used in the determination of the rating. If the date to which the proprietary metrics refer differs from the publication date of the report, the date to which the proprietary metrics refer should be specified.

- (ii) A programme overview, to include, at a minimum, the outstanding assets and liabilities, the issuer and other key transaction parties, the main collateral asset type, the legal framework to which the programme is subject, and the rating of the programme and the issuer.
- (iii) Overcollateralisation levels, including current and committed overcollateralisation.
- (iv) The asset-liability profile, including the maturity type of the covered bonds, e.g. hard bullet, soft bullet, or pass through, the weighted average life of the covered bonds and of the cover pool and information on interest rate and currency mismatches.
- (v) Interest rate and currency swap arrangements existing at the time of the publication of the report, including the swap counterparty names and, where available, their legal entity identifiers.
- (vi) The distribution of currencies, including a breakdown in terms of value at the level of both the cover pool and the individual bonds and including the percentage of euro-denominated assets and the percentage of euro-denominated bonds.
- (vii) Cover pool assets, including the asset balance, asset types, number and average size of loans, seasoning, maturity, loan-to-valuation ratios, regional distribution and arrears distribution. As regards regional distributions, if the cover pool assets consist of loans originated in different countries, the surveillance report must, as a minimum, present the distribution across countries and the regional distribution for the main country of origin.
- (viii) Cover pool substitute assets, including the asset balance.
- (ix) The list of all rated securities in the programme, identified by their international securities identification number (ISIN). This disclosure can also be made via a separate, downloadable file published on the ECAI's website.
- (x) A list of data definitions and data sources used in the production of the surveillance report. This disclosure can also be made via a separate file published on the ECAI's website.

Surveillance reports for multi-cédulas must contain all information required under points (i) to (x). In addition, these reports must include the list of the relevant originators and their respective shares in the multi-cédula. Asset-specific information must be reported either directly in the multi-cédula's surveillance report or by reference to the surveillance reports for each individual cédula rated by the ECAI.

ANNEX 9C – ECAI ACCEPTANCE CRITERIA AND APPLICATION PROCESS

This Annex sets out in detail the acceptance criteria for external credit assessment institutions (ECAIs) and the process for a credit rating agency (CRA) to apply to become accepted as an ECAI under the Eurosystem credit assessment framework (ECAAF), as provided for in Article 120 of this Directive.

I. Application process for acceptance as an ECAI under the ECAAF

1. An application by a CRA for acceptance as an ECAI under the ECAAF must be submitted to the ECB's Directorate Risk Management (DRMSecretariat@ecb.europa.eu). The application must provide appropriate reasoning and supporting documentation as set out in Section II, demonstrating the applicant's compliance with the requirements for ECAIs set out in this Directive. The application, reasoning and supporting documentation must be provided in writing in English, using any applicable templates and in electronic format.
2. In the first stage of the application process, the CRA must demonstrate its compliance with the relevant coverage requirements set out in Article 120 of and Annex 9A to this Directive, as well as in this Annex, and, if the CRA's application to be accepted under the ECAAF was previously rejected by the Eurosystem, how it has addressed its previous non-compliance. The individual steps in this first stage are as follows.
 - (a) The CRA must provide to the ECB the documentation and information set out in Section II.1 below. The CRA may also provide any other information it considers relevant to demonstrate its compliance with the relevant coverage requirements and, if applicable, how the CRA has remedied its previous non-compliance.
 - (b) The ECB will assess whether the documentation and information provided under Section II.1 is complete. If the information is not complete, the ECB will request the CRA to provide additional information.
 - (c) In accordance with Section II.2, the ECB may request any supplemental information necessary to commence its assessment of the CRA's compliance with the relevant coverage requirements and, if applicable, how the CRA has remedied its previous non-compliance.
 - (d) After the ECB has assessed an application as complete and after having requested and received any supplemental information, if necessary, the ECB will notify the CRA accordingly.
 - (e) The ECB will assess whether the CRA complies with the relevant coverage requirements set out in Article 120 of and Annex 9A to this Directive, as well as in this Annex, based on the information provided pursuant to Section II.1 and 2, taking both a quantitative and qualitative perspective of the concept of coverage as further specified in Section III.2.

- (f) As part of its assessment of the CRA's compliance with relevant coverage requirements, the ECB may require the CRA to grant access to rating reports to illustrate the compliance of ratings with the ECAF requirements.
- (g) The ECB may request additional clarifications or information from the CRA at any time during its assessment of the relevant coverage requirements and, if applicable, how the CRA has remedied its previous non-compliance.
- (h) The Eurosystem will adopt a reasoned decision on the CRA's compliance with the relevant coverage requirements and, if applicable, how the CRA has remedied its previous non-compliance. It will notify its decision to the CRA concerned. Where the Eurosystem decides that the CRA does not meet the relevant coverage requirements and/or, if applicable, has not remedied its previous non-compliance, it will provide reasons for its decision in the notification.
- (i) Simultaneously with any decision notified to the CRA under point (h), the Eurosystem will notify the CRA of whether or not it exercises its reserved right to decide not to initiate an ECAF acceptance procedure pursuant to Article 120(2) of this Directive, that is, not to permit a CRA to proceed to the second stage of the application process. The Eurosystem will provide reasons for its decision in the notification. To support such a decision, the Eurosystem may take into account, among other things, whether information provided by the CRA or derived from other sources raise material concerns that the CRA's acceptance in the ECAF would prevent the efficient implementation of the ECAF or would not be in accordance with the principles of the risk control function of the ECAF for the Eurosystem's collateral framework.

3. If the ECB decides that the CRA complies with the relevant coverage requirements and, where applicable, has remedied its previous non-compliance and the ECB decides to initiate an ECAF acceptance procedure, the CRA may proceed to the second stage of the application process. In the second stage, the CRA must demonstrate its compliance with all other relevant requirements set out in this Directive. The individual steps in the second stage are as follows:

- (a) The CRA must provide to the ECB the documentation and information set out in Section II.3. The CRA may also provide any other information it considers relevant to demonstrate its compliance with the requirements set out in this Directive.
- (b) The ECB will assess whether the documentation and information provided in relation to Section II.3 is complete. If the information is not complete, the ECB will request the CRA to provide additional information.
- (c) In accordance with Section II.4, the ECB may request any supplemental information necessary to commence its assessment of the CRA's compliance with the requirements set out in this Directive.
- (d) After the ECB has assessed an application as complete and after having requested and received any supplemental information, if necessary, in relation to coverage, the ECB will notify the CRA accordingly.
- (e) The Eurosystem will assess whether the CRA complies with the requirements set out in this Directive based on the documentation and information provided pursuant to Section II.3 and 4 and any other relevant information available from other sources, including the CRA's website. It will conduct its assessment with a view to ensuring the efficient

implementation of the ECAF, maintaining the Eurosystem's requirement for high credit standards for eligible assets and safeguarding the risk control function of the ECAF for the Eurosystem's collateral framework.

- (f) As part of its assessment of the CRA's capacity to fulfil the criteria and rules of the ECAF performance monitoring process, the Eurosystem will apply the ECAF performance monitoring process described in Article 126 of this Directive to the CRA's ratings covering at least three years and preferably five years prior to the application, in accordance with Section II.3 and Section III. The Eurosystem may also assess the actual ratings of the CRA against other credit assessment systems, based on its experience and knowledge gained under the ECAF.
- (g) As part of its assessment, the Eurosystem may require the CRA to arrange for one or more on-site visits of Eurosystem staff at the CRA's premises and/or live meetings of the relevant CRA staff with Eurosystem staff at the ECB's premises. If such a visit or meeting is required, it shall be considered a mandatory requirement of the application process.
- (h) As part of its assessment, the Eurosystem may require the CRA to grant access to rating reports to illustrate the compliance of asset ratings with the disclosure requirements set out in Annex 9B and the availability of information requirements in Article 120 and further specified in Section III.3.
- (i) The Eurosystem may request additional clarifications or information from the CRA at any time during its assessment.
- (j) The Eurosystem will adopt a reasoned decision on the CRA's compliance with the requirements set out in this Directive and its acceptance as an ECAI in the ECAF. It will notify its decision to the CRA concerned. Where the ECB decides that the CRA does not meet the requirements set out in this Directive and is not to be accepted as an ECAI in the ECAF, it will provide reasons for its decision in the notification.
- (k) If the Eurosystem decides to accept the CRA as an ECAI in the ECAF, the ECB will also notify the CRA of the next steps required to integrate the CRA as an ECAI in the ECAF on an operational level.

II. Information required for an application for ECAF acceptance to be deemed complete

1. As regards the first stage of the application process, a CRA must provide the following information.

- (a) The CRA's own estimates of its rating coverage.
- (b) A statement certified by the CRA attesting to its compliance with all ECAF requirements contained in this Directive for which it can assess its own compliance.
- (c) Disaggregated ratings data on a granular rating level to permit the ECB to confirm the compliance of the CRA with the relevant coverage requirements. The ratings data must be submitted in the applicable ECB templates available provided by the ECB and which contain instructions regarding the presentation of the data. The data must cover all asset, issuer and guarantor ratings that are eligible for ECAF purposes in accordance with this Directive as well as static information on the related assets, issuers and guarantors as provided for in the templates.

- (d) Ratings data demonstrating the required rating coverage at the time of the application and in each of the three year's prior to the application, that is, 36 months prior to the application date. The ratings data must show the required coverage with data snapshots measured at every six month interval in the relevant 36 months preceding the application.
 - (e) If the CRA's application to be accepted under the ECAF was previously rejected by the Eurosystem, supporting documentation demonstrating how it has addressed its previous non-compliance.
2. The ECB may request supplemental information, for example, to demonstrate the stability of a CRA's coverage over time, the CRA's rating issuance practices and the quality of the CRA's ratings during the relevant coverage period.
 3. As regards the second stage of the application process, a CRA must provide the following documentation and information:
 - (a) A description of the CRA's organisation, including its corporate and ownership structure, its business strategy, in particular regarding its strategy to maintain relevant coverage for ECAF purposes, and its rating process, in particular how rating committees are composed and their decision-making processes.
 - (b) All documents relevant to its rating methodologies, rating scale(s) and default definitions.
 - (c) New issue, rating and surveillance reports related to ratings selected by the ECB.
 - (d) The historical record of the CRA's default events covering at least three years and preferably five years as well as the definition of default used by the CRA, in order for the Eurosystem to perform an ex post performance monitoring of the CRA in accordance with the performance monitoring framework. This will also form the basis for mapping the ratings to the Eurosystem's harmonised rating scale. The submission must include:
 - (i) global disaggregated data on all ratings, including those that are not ECAF-eligible, for example due to geographic or other restrictions;
 - (ii) corresponding rating transition tables and default statistics.

The disaggregated ratings data must be submitted in the applicable ECB templates available on the ECB's website and which contain instructions regarding the presentation of the data. The data must cover all asset, issuer and guarantor ratings that are eligible for ECAF purposes in accordance with this Directive as well as static information on the related assets, issuers and guarantors as provided for in the templates.
 - (e) Information on the operational aspects of how the Eurosystem would be able to access and use the CRA's ratings, including the CRA's data feed, fees and necessary contractual arrangements to access ratings.
 4. The ECB may request relevant supplemental information from the CRA, such as in relation to the CRA's ratings of assets, issuers and guarantors which are not eligible under the ECAF, for example, due to geographical restrictions.

III. ECAF acceptance criteria

1. In order to be accepted in the ECAF, a CRA must comply with the applicable requirements in this Directive, including relevant coverage so as to ensure the efficient implementation of the ECAF, operational criteria, the availability of information on ECAI credit

assessments and for the purposes of the performance monitoring processes and the capacity to fulfil the criteria and rules of the ECAF performance monitoring process

2. In relation to the requirement of relevant coverage:
 - (a) a CRA must comply with the coverage requirements specified in Annex 9a to this Directive.
 - (b) only ratings that were actually issued or endorsed by the CRA in accordance with Regulation (EC) No 1060/2009 at the relevant point in time in the three years prior to the data of the application are considered by the Eurosystem, retrospective ratings are not accepted.
 - (c) the Eurosystem will take the stability of the relevant coverage over time into account, including the pace of any increases or decreases in such coverage.
3. In relation to the availability of information on ECAI credit assessments and for the purposes of the performance monitoring processes:
 - (a) a CRA must ensure high levels of transparency in documents relevant to its rating methodologies and actual rating actions. The CRA must ensure that all information necessary to understand an ECAI credit assessment, such as rating or surveillance reports or other publications on its website, are readily accessible and comprehensible. If a specific asset rating does not comply with applicable disclosure requirements, this renders it ineligible for ECAF purposes but it may be considered in the Eurosystem's assessment of the transparency of the CRA's general rating processes.
 - (b) a CRA must ensure transparency in relation to its rating process and how it maintains sound rating issuance practices. All methodological documents shall demonstrate a thorough expertise and the methodologies should take into account all relevant information for the purpose of issuing credit assessments. In this regard, the Eurosystem may analyse, among other things, the number of ratings issued per analyst, the size, composition and expertise of members of the rating committee, the degree of independence of the rating committee from rating analysts, the frequency of rating reviews and the reasons for large issuances of ratings. The Eurosystem may take into account any current and past supervisory measures against a CRA by ESMA pursuant to Article 24(1) of Regulation (EC) No 1060/2009 in its assessment of the reliability and quality of a CRA's rating processes and practices.
 - (c) a CRA must apply its methodologies consistently to its credit ratings.
4. In relation to a CRA's capacity to fulfil the criteria and rules of the ECAF performance monitoring process, the performance of the CRA's ratings and its default assignments must be consistent over time to (a) ensure the appropriate mapping of the credit assessment information provided by the credit assessment system to the Eurosystem's harmonised rating scale and (b) to maintain the comparability of the results from the CRA's credit assessments across the ECAF's systems and sources. The CRA's observed rating transition tables and default statistics should be in line with the expected values based on the CRA's own rating scales, because, as set out in Annex 9 to this Directive, deviations between observed default rates and assigned probability of default can call into question the quality of credit assessments, thus hampering the efficient implementation of the ECAF.
5. In relation to the operational criteria:

- (a) a CRA must provide daily rating information to all Eurosystem central banks in accordance with the format and distribution method required by the Eurosystem;
 - (b) a CRA must ensure prompt access to relevant rating information for the Eurosystem that is necessary for ECAF eligibility and on-going monitoring requirements, including press releases, new issue reports, surveillance reports, information regarding rating coverage, in a resource- and cost-efficient manner;
 - (c) a CRA must be willing to enter into contractual arrangements with the Eurosystem in the event of its acceptance in the ECAF with sufficient data access and reasonable access fees.
6. All ECAF acceptance criteria must be fulfilled in order for a CRA to be accepted in the ECAF. As the application to be accepted in the ECAF requires a highly technical qualitative and quantitative assessment, the Eurosystem may assess further relevant factors related to the requirements of this Directive on the ECAF, if necessary.

IV. ECAF acceptance criteria for ECAs and compliance over time

1. The acceptance criteria for ECAs must be fulfilled by CRAs at the time of their application for acceptance and at all times after their acceptance under the ECAF.
2. The Eurosystem may apply measures pursuant to Article 126 of this Directive to a CRA that:
 - (a) was accepted in the ECAF after making false statements or by any other irregular means; or
 - (b) no longer fulfils the acceptance criteria for the ECAF.

When notifying the CRA of its decision to apply measures pursuant to Article 126, the Eurosystem will provide reasons for its decision.’

ANNEX 10 – VALUATION HAIRCUTS APPLIED IN THE IMPLEMENTATION OF THE EUROSISTEM MONETARY POLICY FRAMEWORK

Article 1

Valuation haircuts applied to eligible marketable assets

1. In accordance with Title VI of Part Four of this Directive, marketable assets shall be subject to valuation haircuts, as defined in Article 2(97) of this Directive at the levels set forth in Tables 2 and 2 (a) provided in the Schedules of this Annex.

2. The valuation haircut for a specific asset depends on the following factors:
 - (a) The haircut category to which the asset is allocated, as defined in Article 2;
 - (b) The residual maturity or the weighted average life of the asset, as defined in Article 3;
 - (c) The coupon structure of the asset;
 - (d) The credit quality step to which the asset is allocated.

Article 2

Determination of haircut categories for marketable assets

Eligible marketable assets shall be allocated to one of the five haircut categories, based on the type of issuer and/or the type of asset, as reflected in Table 1 provided in the Schedule of this Annex:

- (a) debt instruments issued by central governments, ECB debt certificates and debt certificates issued by NCBs prior to the date of adoption of the euro in their respective Member State whose currency is the euro are included in haircut category I;
- (b) debt instruments issued by: (i) local and regional governments; (ii) entities which are credit institutions or non-credit institutions classified by the Eurosystem as agencies and which meet the quantitative criteria set out in Annex 12A to this Directive; (iii) multilateral development banks and international organisations; as well as jumbo covered bonds, are included in haircut category II;

- (c) Legislative covered bonds other than jumbo covered bonds; *multi-cedulas* ; and debt instruments issued by (i) non-financial corporations, (ii) corporations in the government sector, and (iii) agencies which are non-credit institutions that do not meet the quantitative criteria set out in Annex 12A to this Directive, are included in haircut category III;
- (d) unsecured debt instruments issued by: (i) credit institutions; (ii) agencies which are credit institutions that do not meet the quantitative criteria set out in Annex 12A to this Directive; and (iii) financial corporations other than credit institutions, are included in haircut category IV;
- (e) asset-backed securities (ABSs) are included in haircut category V, regardless of the classification of the issuer.

Article 3

Valuation haircuts for marketable assets

1. The valuation haircuts for marketable assets allocated to haircut categories I to IV shall be determined based on:
 - (a) the allocation of the specific asset to credit quality step 1,2 or 3;
 - (b) the residual maturity of the asset as detailed in paragraph 2;
 - (c) the coupon structure of the asset as detailed in paragraph 2.
2. For marketable assets allocated to haircut categories I to IV, the applicable valuation haircut shall depend on the residual maturity and coupon structure of the asset (fixed, zero, floating) as determined based on Table 2 in this Annex to this Directive. The relevant maturity for determining the valuation haircut to be applied shall be the residual maturity of the asset, irrespective of the type of coupon structure. The following provisions shall apply with respect to coupon structure:
 - (a) floating coupons with a resetting period longer than one year shall be treated as fixed rate coupons;
 - (b) floating coupons that have a euro area inflation index as a reference rate shall be treated as fixed rate coupons;
 - (c) floating coupons with a floor that does not equal zero and/or floating coupons with a ceiling shall be treated as fixed rate coupons;

- (d) the valuation haircut applied to assets that have more than one type of coupon structure shall solely depend on the coupon structure in place during the remaining life of the asset and shall equal the highest haircut applicable to a marketable asset with the same residual maturity and credit quality step. Any type of coupon structure in place during the remaining life of the asset may be considered for this purpose.
- 2a. The residual maturity for own-use covered bonds shall be defined as the maximum legal maturity, taking into account any extension rights for principal repayments contained in their terms and conditions. For this purposes of this paragraph, “own-use” shall mean the submission or use by a counterparty of covered bonds that are issued or guaranteed by the counterparty itself or by any other entity with which that counterparty has close links as determined in accordance with Article 138 of this Directive.
3. For marketable assets allocated to haircut category V, regardless of their coupon structure, the valuation haircuts shall be determined based on the weighted average life of the asset as detailed in paragraphs 4 and 5. The valuation haircuts applicable to marketable assets in category V are laid down in Table 2a in this Annex to this Directive.
4. The weighted average life of the senior tranche of an asset-backed security shall be estimated as the weighted average time remaining until repayment of the expected cash flows for that tranche. For retained mobilised ABSs, the calculation of the weighted average life shall assume that issuer call options will not be exercised.
5. For the purposes of paragraph 4, “retained mobilised asset-backed securities” shall mean
- ABSs used in a percentage greater than 75% of the outstanding nominal amount by a counterparty that originated the ABS or by entities closely linked to the originator. Such close links shall be determined in accordance with Article 138 of this Directive.

Article 4

Additional valuation haircuts applied to specific types of marketable assets

In addition to the valuation haircuts laid down in Article 3 of this Annex, the following additional valuation haircuts shall apply for specific types of marketable assets:

- (a) ABSs, covered bonds and unsecured debt instruments issued by credit institutions that are theoretically valued in accordance with the rules contained in Article 134 of this

- Directive shall be subject to an additional valuation haircut in the form of a valuation markdown of 4%;
- (b) own-use covered bonds shall be subject to an additional valuation haircut of (i) 6.4% applied to the value of the debt instruments allocated to credit quality steps 1 and 2, and (ii) 9.6% applied to the value of the debt instruments allocated to credit quality step 3;
 - (c) for the purposes of paragraph (b), ‘own-use’ shall mean the submission or use by a counterparty of covered bonds that are issued or guaranteed by the counterparty itself or by any entity with which that counterparty has close links as determined in accordance with Article 138 of this Directive;
 - (d) if the additional valuation haircut referred to in paragraph (b) cannot be applied with respect to a collateral management system of an NCB, triparty agent, or TARGET2-Securities for auto-collateralisation, the additional valuation haircut shall be applied in such systems or platform to the entire issuance value of the covered bonds that can be own used.

Article 5

Valuation haircuts applied to eligible non-marketable assets

1. Individual credit claims shall be subject to specific valuation haircuts determined according to the residual maturity, the credit quality step and the interest rate structure as laid down in Table 3 of this Annex.
2. The following provisions shall apply with respect to the interest rate structure of credit claims:
 - (a) ‘zero coupon’ credit claims shall be treated as fixed rate credit claims;
 - (b) floating rate credit claims with a resetting period longer than one year shall be treated as fixed rate credit claims;
 - (c) floating rate credit claims with a ceiling shall be treated as fixed rate credit claims;
 - (d) floating rate credit claims with a resetting period of one year or less and with a floor, but without a ceiling, shall be treated as floating rate credit claims;
 - (e) the valuation haircut applied to a credit claim with more than one type of interest payment shall depend only on the interest payments during the remaining life of the credit claim. If there is more than one type of interest payment during the

remaining life of the credit claim, the remaining interest payments shall be treated as fixed-rate payments, with the relevant maturity for the haircut being the residual maturity of the credit claim.

3. Non-marketable retail mortgage-backed debt instruments shall be subject to a valuation haircut of 25.2 %.
4. Fixed-term deposits shall not be subject to valuation haircuts.
5. Each underlying credit claim included in the cover pool of a non-marketable debt instrument backed by eligible credit claims ('DECC') shall be subject to a valuation haircut applied at an individual level following the rules set out in paragraphs 1 to 2 above. The aggregate value of the underlying credit claims included in the cover pool after the application of valuation haircuts shall, at all times, remain equal to or above the value of the principal amount of the DECC that is outstanding. If the aggregate value falls below the threshold referred to in the previous sentence, the DECC shall be deemed ineligible.

SCHEDULE

Table 1: Haircut categories for eligible marketable assets based on the type of issuer and/or type of asset

<i>Category I</i>	<i>Category II</i>	<i>Category III</i>	<i>Category IV</i>	<i>Category V</i>

(*) i.e. [0-1) residual maturity less than one year, [1-3) residual maturity equal to or greater than one year and less than three years, etc.

ANNEX 11 - SECURITY FORMS

On 13 June 2006 the European Central Bank (ECB) announced the new global notes (NGN) criteria for international global bearer form securities that would be eligible as collateral for Eurosystem credit operations from 1 January 2007. On 22 October 2008 the ECB announced that international debt securities in global registered form issued after 30 September 2010, would only be eligible as collateral for Eurosystem credit operations when the new safekeeping structure for international debt securities (NSS) is used.

The following table summarises the eligibility rules for the different forms of securities with the introduction of the NGN and NSS criteria.

Table 1 Eligibility rules for different security forms

Global /individual	Bearer /registered	NGN /classic global note (CGN)/NSS	Is the common safekeeper (CSK) an ICSD*?	Eligible?
Global	Bearer	NGN	Yes	Yes
			No	No
Global	Bearer	CGN	N/A	No, but those securities issued before 1 January 2007 will be grandfathered until maturity, plus any tap issues from 1 January 2007 when the ISINs are fungible.
Global	Registered	CGN	N/A	Bonds issued under this structure after 30 September 2010 are no longer eligible.
Global	Registered	NSS	Yes	Yes
Individual	Bearer	N/A	N/A	Bonds issued under this structure after 30 September 2010 are no longer eligible. Individual bearer notes issued on or before 30 September 2010 are grandfathered until maturity

* Or, should it become applicable, in a positively assessed central securities depository

ANNEX 12 - EXAMPLES OF EUROSISTEM MONETARY POLICY OPERATIONS AND PROCEDURES

List of examples

- Example 1 Liquidity-providing reverse transaction by fixed rate tender
- Example 2 Liquidity-providing reverse transaction by variable rate tender
- Example 3 Issuance of ECB debt certificates by variable rate tender
- Example 4 Liquidity-absorbing foreign exchange swap by variable rate tender
- Example 5 Liquidity-providing foreign exchange swap by variable rate tender
- Example 6 Risk control measures

I. EXAMPLE 1: LIQUIDITY-PROVIDING REVERSE TRANSACTION BY FIXED RATE TENDER

1. The ECB decides to provide liquidity to the market by means of a reverse transaction organised with a fixed rate tender procedure.
2. Three counterparties submit the following bids:

Counterparty	Bid (EUR millions)
Bank 1	30
Bank 2	40
Bank 3	70
Total	140

3. The ECB decides to allot a total of EUR 105 million.
4. The percentage of allotment is:

$$\frac{105}{(30 + 40 + 70)} = 75 \%$$

5. The allotment to the counterparties is:

Counterparty	Bid (EUR millions)	Allotment (EUR millions)
Bank 1	30	22,5
Bank 2	40	30,0
Bank 3	70	52,5
Total	140	105,0

II. EXAMPLE 2: LIQUIDITY-PROVIDING REVERSE TRANSACTION BY VARIABLE RATE TENDER

1. The ECB decides to provide liquidity to the market by means of a reverse transaction organised with a variable rate tender procedure.
2. Three counterparties submit the following bids:

Interest rate (%)	Amount (EUR millions)				
	Bank 1	Bank 2	Bank 3	Total bids	Cumulative bids
3,15				0	0
3,10		5	5	10	10
3,09		5	5	10	20
3,08		5	5	10	30
3,07	5	5	10	20	50
3,06	5	10	15	30	80
3,05	10	10	15	35	115
3,04	5	5	5	15	130
3,03	5		10	15	145
Total	30	45	70	145	

3. The ECB decides to allot EUR 94 million, implying a marginal interest rate of 3,05 %.
4. All bids above 3.05% (for a cumulative amount of EUR 80 million) are fully satisfied. At 3,05 % the percentage of allotment is:

$$\frac{94-80}{35} = 40\%$$

5. The allotment to Bank 1 at the marginal interest rate is, for example:

$$0,4 \times 10 = 4$$

6. The total allotment to Bank 1 is:

$$5 + 5 + 4 = 14$$

7. The allotment results can be summarised as follows:

Counterparties	Amount (EUR millions)			Total
	Bank 1	Bank 2	Bank 3	
Total bids	30,0	45,0	70,0	145
Total allotment	14,0	34,0	46,0	94

8. If the allotment procedure follows a single rate (Dutch) auction, the interest rate applied to the amounts allotted to the counterparties is 3,05 %.

9. If the allotment procedure follows a multiple rate (American) auction, no single interest rate is applied to the amounts allotted to the counterparties; for example, Bank 1 receives EUR 5 million at 3,07 %, EUR 5 million at 3,06 % and EUR 4 million at 3,05 %.

III. EXAMPLE 3: ISSUANCE OF ECB DEBT CERTIFICATES BY VARIABLE RATE TENDER

1. The ECB decides to absorb liquidity from the market by issuing debt certificates using a variable rate tender procedure.

2. Three counterparties submit the following bids:

Interest rate (%)	Amount (EUR millions)				Cumulative bids
	Bank 1	Bank 2	Bank 3	Total	
3,00				0	0
3,01	5		5	10	10
3,02	5	5	5	15	25
3,03	5	5	5	15	40
3,04	10	5	10	25	65
3,05	20	40	10	70	135
3,06	5	10	10	25	160
3,08	5		10	15	175
3,10		5		5	180
Total	55	70	55	180	

3. The ECB decides to allot a nominal amount of EUR 124,5 million, implying a marginal interest rate of 3,05 %.

4. All bids below 3,05 % (for a cumulative amount of EUR 65 million) are fully satisfied. At 3,05 % the percentage of allotment is:

$$\frac{124,5 - 65}{70} = 85 \%$$

5. The allotment to Bank 1 at the marginal interest rate is, for example:

$$0,85 \times 20 = 17$$

6. The total allotment to Bank 1 is:

$$5 + 5 + 5 + 10 + 17 = 42$$

7. The allotment results can be summarised as follows:

	Amount (EUR millions)			
Counterparties	Bank 1	Bank 2	Bank 3	Total
Total bids	55,0	70,0	55,0	180,0
Total allotment	42,0	49,0	33,5	124,5

IV. EXAMPLE 4: LIQUIDITY-ABSORBING FOREIGN EXCHANGE SWAP BY VARIABLE RATE TENDER

1. The ECB decides to absorb liquidity from the market by executing a foreign exchange swap on the EUR/USD rate by means of a variable rate tender procedure. (Note: The euro is traded at a premium in this example.)

2. Three counterparties submit the following bids:

	Amount (EUR millions)				
Swap points (x 10 000)	Bank 1	Bank 2	Bank 3	Total	Cumulative bids
6,84				0	0
6,80	5		5	10	10
6,76	5	5	5	15	25
6,71	5	5	5	15	40
6,67	10	10	5	25	65
6,63	25	35	40	100	165
6,58	10	20	10	40	205
6,54	5	10	10	25	230
6,49		5		5	235
Total	65	90	80	235	

3. The ECB decides to allot EUR 158 million, implying 6,63 marginal swap points. All bids above 6,63 (for a cumulative amount of EUR 65 million) are fully satisfied. At 6,63 the percentage of allotment is:

$$\frac{158 - 65}{100} = 93\%$$

4. The allotment to Bank 1 at the marginal swap points is, for example:

$$0,93 \times 25 = 23,25$$

5. The total allotment to Bank 1 is:

$$5 + 5 + 5 + 10 + 23,25 = 48,25$$

6. The allotment results can be summarised as follows:

Counterparties	Amount (EUR millions)			
	Bank 1	Bank 2	Bank 3	Total
Total bids	65,0	90,0	80,0	235,0
Total allotment	48,25	52,55	57,20	158,0

7. The ECB fixes the spot EUR/USD exchange rate for the operation at 1,1300.

8. If the allotment procedure follows a single rate (Dutch) auction, at the start date of the operation the Eurosystem buys EUR 158 000 000 and sells USD 178 540 000. At the maturity date of the operation, the Eurosystem sells EUR 158 000 000 and buys USD 178 644 754 (the forward exchange rate is $1,130663 = 1,1300 + 0,000663$).

9. If the allotment procedure follows a multiple rate (American) auction, the Eurosystem exchanges the amounts of euro and US dollars shown in the following table:

Spot transaction			Forward transaction		
Exchange rate	Buy EUR	Sell USD	Exchange rate	Sell EUR	Buy USD
1,1300			1,130684		
1,1300	10 000 000	11 300,000	1,130680	10 000 000	11 306 800
1,1300	15 000 000	16 950 000	1,130676	15 000 000	16 960 140
1,1300	15 000 000	16 950 000	1,130671	15 000 000	16 960 065

1,1300	25 000 000	28 250 000	1,130667	25 000 000	28 266 675
1,1300	93 000 000	105 090 000	1,130663	93 000 000	105 151 659
1,1300			1,130658		
1,1300			1,130654		
1,1300			1,130649		
Total	158 000 000	178 540 000		158 000000	

V. EXAMPLE 5: LIQUIDITY-PROVIDING FOREIGN EXCHANGE SWAP BY VARIABLE RATE TENDER

1. The ECB decides to provide liquidity to the market by executing a foreign exchange swap on the EUR/USD rate by means of a variable rate tender procedure. (Note: The euro is traded at a premium in this example.)

2. Three counterparties submit the following bids:

Swap points (x 10 000)	Amount (EUR millions)				Cumulative bids
	Bank 1	Bank 2	Bank 3	Total	
6,23					
6,27	5		5	10	10
6,32	5		5	10	20
6,36	10	5	5	20	40
6,41	10	10	20	40	80
6,45	20	40	20	80	160
6,49	5	20	10	35	195
6,54	5	5	10	20	215
6,58		5		5	220
Total	60	85	75	220	

3. The ECB decides to allot EUR 197 million, implying 6,54 marginal swap points. All bids below 6,54 (for a cumulative amount of EUR 195 million) are fully satisfied. At 6,54 the percentage of allotment is:

$$\frac{197-195}{20} = 10\%$$

4. The allotment to Bank 1 at the marginal swap points is, for example:

$$0,10 \times 5 = 0,5$$

5. The total allotment to Bank 1 is:

$$5 + 5 + 10 + 10 + 20 + 5 + 0,5 = 55,5$$

6. The allotment results can be summarised as follows:

Counterparties	Amount (EUR millions)			Total
	Bank 1	Bank 2	Bank 3	
Total bids	60,0	85,0	75,0	220
Total allotment	55,5	75,5	66,0	197

7. The ECB fixes the spot EUR/USD exchange rate for the operation at 1,1300.

8. If the allotment procedure follows a single rate (Dutch) auction, at the start date of the operation the Eurosystem sells EUR 197 000 000 and buys USD 222 610 000. At the maturity date of the operation, the Eurosystem buys EUR 197 000 000 and sells USD 222 738 838 (the forward exchange rate is $1,130654 = 1,1300 + 0,000654$).

9. If the allotment procedure follows a multiple rate (American) auction, the Eurosystem exchanges the amounts of euro and US dollars shown in the following table:

Spot transaction			Forward transaction		
Exchange rate	Sell EUR	Buy USD	Exchange rate	Buy EUR	Sell USD
1,1300			1,130623		
1,1300	10 000 000	11 300 000	1,130627	10 000 000	11 306 270

VI. EXAMPLE 6: RISK CONTROL MEASURES

1. This example illustrates the risk control framework applied to assets mobilised as collateral in the Eurosystem credit operations. It is based on the assumption that, in the calculation of the need for a margin call, accrued interest on the liquidity provided is taken into account and a trigger point of 0,5 % of the liquidity provided is applied. The example is based on the assumption that a counterparty participates in the following Eurosystem monetary policy operations:

- (a) a main refinancing operation starting on 30 July 2014 and ending on 6 August 2014 where the counterparty is allotted EUR 50 million at an interest rate of 0,15%;
 - (b) a longer-term refinancing operation starting on 31 July 2014 and ending on 23 October 2014 where the counterparty is allotted EUR 45 million at an interest rate of 0,15%;
 - (c) a main refinancing operation starting on 6 August 2014 and ending on 13 August 2014 where the counterparty is allotted EUR 35 million at an interest rate of 0,15%.
4. The characteristics of the marketable assets mobilised by the counterparty to cover these operations are specified in Table 1.

TABLE 1: MARKETABLE ASSETS MOBILISED IN THE TRANSACTIONS

Characteristics						
Name	Asset class	Maturity date	Coupon definition	Coupon frequency	Residual maturity	Haircut
Asset A	jumbo covered bond	30.8.2018	Fixed rate	6 months	4 years	2,50 %
Asset B	Central government bond	19.11.2018	Variable rate	12 months	4 years	0,50 %
Asset C	Corporate bond	12.5.2025	Zero coupon rate		> 10 years	13,00 %

Prices in percentages (including accrued interest) (*)

30.7.2014	31.7.2014	1.8.2014	4.8.2014	5.8.2014	6.8.2014	7.8.2014
101,61	101,21	99,50	99,97	99,73	100,01	100,12
	98,12	97,95	98,15	98,56	98,59	98,57
					53,71	53,62

(*) The prices shown for a specific valuation date correspond to the most representative price on the business day preceding this valuation date.

VII. EARMARKING SYSTEM

First, it is assumed that the transactions are carried out with an NCB using a system where underlying assets are earmarked for each transaction. The valuation of assets mobilised as collateral is carried out on a daily basis. The risk control framework can then be described as follows (see also Table 2 below):

1. On 30 July 2014, the counterparty enters into a repurchase transaction with the Bank, which purchases EUR 50,6 million of Asset A. Asset A is a jumbo covered bond with a fixed coupon maturing on 30 August 2018 and allocated to credit quality step 1-2. It thus has a residual maturity of four years, therefore requiring a valuation haircut of 2,5%. The market price of Asset A on its reference market on that day is 101,61%, which includes the accrued

interest on the coupon. The counterparty is required to provide an amount of Asset A, which, after deduction of the 2,5% valuation haircut, exceeds the allotted amount of EUR 50 million. The counterparty therefore delivers Asset A for a nominal amount of EUR 50,6 million, the adjusted market value of which is EUR 50 129 294 on that day.

2. On 31 July 2014, the counterparty enters into a repurchase transaction with the Bank, which purchases EUR 21 million of Asset A (market price 101,21%, valuation haircut 2,5%) and EUR 25 million of Asset B (market price 98,02%). Asset B is a central government bond with variable rate coupon payments and allocated to credit quality step 1-2, to which a 0,5% valuation haircut is applied. The adjusted market value of Asset A and Asset B on that day is EUR 45 130 098, thus exceeding the required amount of EUR 45 000 000.

3. On 31 July 2014, the assets underlying the main refinancing operation initiated on 30 July 2014 are revalued. With a market price of 101,21%, the haircut-adjusted market value of Asset A is still within the lower and upper trigger amounts. The collateral that was mobilised initially is consequently considered to cater for both the initial amount of liquidity provided and the accrued interest amounting to EUR 208.

4. On 1 August 2014, the underlying assets are revalued: the market price of Asset A is 99,50% and the market price of Asset B is 97,95%. Accrued interest amounts to EUR 417 on the main refinancing operation initiated on 30 July 2014 and EUR 188 on the longer-term refinancing operation initiated on 31 July 2014. As a result, the adjusted market value of Asset A in the first transaction falls below the transaction's amount to be covered, i.e. the liquidity provided plus the accrued interest, by EUR 912 092, but also below the lower trigger level of EUR 49 750 415. The counterparty delivers EUR 950 000 of Asset A in nominal value terms, which, after deducting a 2,5 % haircut from the market value based on a price of 99,50%, restores sufficient collateral coverage. The Bank may perform margin calls in cash rather than securities.

A margin call is also needed on the second transaction since the adjusted market value of the underlying assets used in this transaction (EUR 44 737 688) is below the lower trigger level (EUR 44 775 187). The counterparty therefore provides EUR 270 000 of Asset B with an adjusted market value of EUR 263 143.

5. On 4 and 5 August 2014, the underlying assets are revalued, without resulting in any margin call for the transactions entered into on 30 and 31 July 2014.

6. On 6 August 2014, the counterparty repays the liquidity provided under the main refinancing operation initiated on 30 July 2014, including the accrued interest of EUR 1 458. The Bank returns EUR 51 550 000 of Asset A in nominal value.

On the same day the counterparty enters into a new repurchase transaction with the Bank, which purchases EUR 75 million of Asset C in nominal value terms. Since Asset C is a zero coupon corporate bond with a residual maturity of more than ten years and allocated to credit quality step 1-2, requiring a valuation haircut of 13%, the corresponding haircut-adjusted market value on that day is of EUR 35 045 775. The revaluation of assets underlying the long-term refinancing operation initiated on 31 July 2014 reveals that the adjusted market value of the assets provided exceeds the upper trigger level and leads to the Bank returning EUR 262 000 of Asset B in nominal value to the counterparty. If a margin had to be paid to the counterparty by the Bank in relation to the second transaction, such a margin could, in certain cases, be netted out with the margin paid to the Bank by the counterparty in relation to the first transaction. As a result, there would only be one margin settlement.

VIII. POOLING SYSTEM

1. Second, it is assumed that the transactions are carried out with an NCB using a pooling system where assets included in the pool of assets used by the counterparty are not earmarked for specific transactions.

2. The same sequence of transactions is used in this example as in the above example illustrating an earmarking system. The main difference is that, on the revaluation dates, the adjusted market value of all the assets in the pool has to cover the total amount of all of the counterparty's outstanding operations with the Bank. The margin call of EUR 1 174 592 occurring on 1 August 2014 is identical in this example to the one required in the earmarking system case. The counterparty delivers EUR 1 300 000 of Asset A in nominal value terms, which, after deducting a 2,5 % haircut from the market value based on a price of 99,50%, restores sufficient collateral coverage.

3. Moreover, on 6 August 2014, when the main refinancing operation entered into on 30 July 2014 matures, the counterparty may keep the assets on its pool account. An asset can also be exchanged for another asset as shown in the example, where EUR 51,9 million of Asset A in nominal value are replaced with EUR 75,5 million of Asset C in nominal value to cover the liquidity provided and the accrued interest under all refinancing operations.

4. The risk control framework in the pooling system is described in Table 3.

TABLE 2: EARMARKING SYSTEM

* In a pooling system, the lower trigger amount is the lowest threshold for margin calls. In practice most NCBs require additional collateral whenever the haircut adjusted market value of the collateral pool falls below the total amount to be covered.

** In a pooling system, the notion of upper trigger amount is not relevant, since the counterparty will constantly target an excess amount of collateral provided in order to minimise operational transactions.

ANNEX 12A

An entity that is considered an agency as defined in point (2) of Article 2 of this Directive must fulfill the following quantitative criteria in order for its eligible marketable assets to be allocated to haircut category as set out in Table 1 of Annex 10 of this Directive:

- (a) The average of the sum of the nominal values outstanding of all eligible marketable assets issued by the agency is at least EUR10 billion over the reference period; and
- (b) The average of the sum of the nominal values of all eligible marketable assets with a nominal value outstanding of at least EUR500 million issued by the agency over the reference period results in a share equal to 50% or more of the average sum of nominal value outstanding of all eligible marketable assets issued by that agency over the reference period.

Compliance with these quantitative criteria is assessed on an annual basis by calculating, in each given year, the relevant average over a one-year reference period starting on 1 August of the previous year and ending on 31 July of the current year.

Pledge form for Marketable Assets

DEED OF PLEDGE - MARKETABLE SECURITIES

Date: _____

An Agreement Between:

[A] Central Bank of Malta }
Castille Place } hereinafter referred to as
Valletta } **“the Bank”**

And

[B] }
} hereinafter referred to as
} **“the pledgor”**

1. Interpretation

1.1 In this pledge:

(i) **‘DIRECTIVE’** means:

The Central Bank of Malta Directive No. 8 on Monetary Policy Instruments and Procedures.

(ii) '*ELIGIBLE MARKETABLE SECURITIES*' means:

Marketable securities assessed by the Bank in accordance with the eligibility criteria as defined in the Directive to be used as collateral for credit operations with the Bank.

(iii) '*INDEBTEDNESS*' means:

All the pledgor's present or future indebtedness to the Bank on any account held by the pledgor and represents the total monetary amounts advanced to the pledgor by the Bank, included in items 1, 2 and 3 below:

- 1) Any intraday credit provided by the Bank to the pledgor.
- 2) Any possible debit balance in accordance with the Standing Marginal Lending Facility.
- 3) Any liquidity provided to the pledgor by the Bank from open market operations conducted by the Bank on behalf of the Eurosystem.

2. The Pledge

2.1 In consideration of the Bank making available the monetary amounts described in clause 1.1 above to the pledgor, the pledgor, as beneficial owner, hereby declares to pledge in favour of the Bank as a continuing security all rights, title and interest in the eligible marketable securities transferred to the Bank, for the repayment and satisfaction on demand of all Indebtedness. All transactions related to Indebtedness are entered into in reliance on the consideration that this Pledge Agreement forms a single agreement between the Bank and the pledgor and are made in consideration of each other.

2.2 The pledgor represents and warrants that it is and shall remain the sole and beneficial owner of the eligible marketable securities, free from any other pledge, lien, security or other encumbrance. The pledgor undertakes that he will not assign, transfer, create, attempt to create, or permit to subsist any Pledge, lien, security or other encumbrance on or over any part of the eligible marketable securities pledged hereby except with the written consent of the Bank.

2.3 This Pledge shall:

2.3.1 be a continuing security, notwithstanding any fluctuation in the level of the Indebtedness;

2.3.2 remain binding on the pledgor notwithstanding any amalgamation, reconstruction, re-organisation, merger, sale or transfer by or involving the Bank or its assets and this Pledge and all rights conferred on the Bank may be assigned or transferred by the Bank accordingly;

2.3.3 be additional and without prejudice to any other securities which the Bank may hold from time to time.

2.4 In the case of a pledge over domestic eligible marketable securities listed on the Malta Stock Exchange plc, the Bank and the pledgor shall deliver a certified copy of the signed pledge agreement to the Malta Stock Exchange plc in accordance with article 122 of the Companies Act.

When an eligible domestic marketable security is pledged with the Bank for the purpose of providing collateral for the indebtedness mentioned in clause 1 above, the details of the security must be communicated by the pledgor to the Bank in the format and communication means as described in the procedures for collateral management specified in the Annex. Regarding the cross-border use of pledged collateral, the transfer of collateral is done according to the correspondent central bank model, as described in the procedures for collateral management specified in this Annex.

2.5 The Malta Stock Exchange plc shall be notified of the pledge agreement by means of a letter as provided subsequent to this pledge agreement.

- 2.6 Save as provided in this paragraph, any coupon or redemption payments of assets pledged with the Bank shall be received by the Bank which will forward to the pledgor by means of a TARGET2 payment on the same day that such payments are received by the Bank. In the event of a margin call requirement on the pool of collateral (as referred in clause 3 below) of the pledgor, any coupon or redemption payments as referred above received on or after the day when such margin call is made shall be withheld by the Bank until the margin call amount is cancelled through the provision of additional collateral or cash as required by the Bank.
- 2.7 The Bank shall forward to the pledgor any corporate action notification, including pre-notification of coupon payment or redemption payment, deriving from assets pledged with the Bank, on the same day that such notification is received, in the case of cross-border collateral, from the central bank of the country where the Central Securities Depository is located (correspondent central bank) or, in the case of domestic collateral, from the Malta Stock Exchange CSD.

3. Security Margin

If at any time the value of the pool of eligible securities pledged with the Bank falls below the total amount of claims granted by the Bank to the pledgor, the pledgor shall on demand, and at the sole discretion of the Bank, either pay to the Bank an amount in cash or alternatively provide further securities to make up for the required margin call, as specified in the Directive.

4. Remedies of default

If the pledgor shall fail to discharge any Indebtedness on demand or shall fail to comply with any obligation to the Bank, without prejudice to any other rights which the bank may have, the Bank may forthwith (as well before as after demand) proceed according to law for liquidation and sale of the assets pledged with the Bank.

5. Set Off and Conversion

5.1 In addition to any rights mentioned in clause 4 and any similar express or implied rights, the Bank may at any time, as continuous right, without notice or demand:

5.1.1 set-off against the pledgor's obligation hereunder any money in any account of the pledgor with the Bank, or otherwise held by the Bank on behalf of the pledgor; and

5.1.2 combine and consolidate all or any accounts of the pledgor with the Bank.

5.2 The provisions of this clause shall apply in those cases where the pledgor is the borrower or where the pledgor is also a surety for the borrower.

6. Close-out upon Default

Without prejudice to the provisions of article 17(7) of the Central Bank of Malta Act (Cap. 204), upon the occurrence of an event of default in relation to an indebtedness of the pledgor with the Bank, the Bank may accelerate and terminate all outstanding transactions with the pledgor. The Bank shall appropriate or sell the eligible marketable securities pledged with the Bank and shall calculate the value of those securities either at the value provided for those securities in accordance with Eurosystem (CEPH) prices or at the actual price obtained for their transfer. The calculations of the Bank shall be made available upon request to the pledgor. The Bank shall set-off the value of the eligible marketable securities against the aggregate value of the outstanding obligations of the pledgor and may deduct any transaction costs and other expenses incurred or likely to be incurred, including any interest for late payment in accordance with applicable

market conventions, and thereafter shall return any excess eligible marketable securities or the monetary equivalent thereof to the pledgor.

7. In the event that any of the eligible marketable securities are realised during the currency of this continuing pledge, the pledgor hereby irrevocably grants his consent for all proceeds emanating from realisation to be paid to the Bank and be retained by the Bank on his account.
8. The Bank may release or make any arrangement which it deems fit with regard to anything forming the security of the pledgor, and the pledgor hereby renounces to any possible defence which he may have in this regard.

Furthermore, for all intents and purposes, the pledgor renounces to any plea of discussion.

9. Any notice to the pledgor whether by way of request, demand or otherwise shall be deemed served if sent by SWIFT authenticated message or through the post at the address appearing hereon unless a change of address is advised in writing to the Bank by pledgor.

Signed on this day, the _____ of the year _____.

Pledge form for Credit Claims

PLEDGE OVER CREDIT CLAIMS

Date: _____

An Agreement Between:

[A] Central Bank of Malta }
Castille Place } hereinafter referred to as
Valletta } **“the Bank”**

And

[B] }
} hereinafter referred to as
} **“the pledgor”**

2. Interpretation

5.1 In this pledge:

i) **‘CREDIT CLAIMS’** means:

Non-marketable assets granted by the pledgor which meet the eligibility criteria and other legal requirements defined in the Bank’s Directive to be used as collateral for credit operations with the Bank.

ii) **'DIRECTIVE'** means:

The Central Bank of Malta Directive No.8 on Monetary Policy Instruments and Procedures.

iii) **'INDEBTEDNESS'** means:

All the pledgor's present or future indebtedness to the Bank on any account held by the pledgor and represents the total monetary amounts advanced to the pledgor by the Bank, included in items 1, 2, and 3 below:

- 1) Any intraday credit provided by the Bank to the pledgor.
- 2) Any possible debit balance in accordance with the Standing Marginal Lending Facility.
- 3) Any liquidity provided to the pledgor by the Bank from open market operations conducted by the Bank on behalf of the Eurosystem.

2. The Pledge

2.1 In consideration of the Bank making available the monetary amounts described in clause 1.1 above to the pledgor, the pledgor, as beneficial owner, hereby declares to pledge in favour of the Bank as a continuing security all rights, title on the eligible credit claims transferred to the Bank, for the repayment and satisfaction on demand of all Indebtedness. All transactions related to Indebtedness are entered into in reliance on the consideration that this Pledge Agreement forms a single agreement between the Bank and the pledgor and are made in consideration of each other.

2.2 The pledgor represents and warrants to the Bank that it is and shall remain the sole and beneficial owner of the credit claim, free from any other pledge, lien, security or other encumbrance.

- 2.3 The pledgor undertakes that it will not assign, transfer, create, and attempt to create, or permit to subsist any Pledge, lien, security or other encumbrance on or over any part of the credit claim, pledged hereby except with the written consent of the Bank.
- 2.4 The pledgor hereby undertakes that, during the subsistence of this Agreement:
- 2.4.1 it shall cooperate with the Bank and sign or cause to be signed further documents and take such further action as the Bank may from time to time request to perfect and preserve the pledges or to exercise its rights under this Agreement; and
- 2.4.2 it shall act in good faith and not knowingly take any step nor do anything which could adversely affect the existence of the pledge created
- 2.5 This pledge shall:
- 2.5.1 Be a continuing security, notwithstanding any fluctuation in the level of the Indebtedness and shall not be considered as satisfied or discharged or prejudiced by any intermediate payment, satisfaction or settlement of any part of the Indebtedness;
- 2.5.2 Remain binding on the pledgor notwithstanding any amalgamation, reconstruction, re-organisation, merger, sale or transfer by or involving the Bank or its assets and the Pledge and all rights conferred on the Bank may be assigned or transferred by the Bank accordingly;
- 2.5.3 Be additional and without prejudice to any other securities which the Bank may hold from time to time.

- 2.6 The pledgor shall notify the original debtor that the credit claim shall be mobilised and that a pledge was created to the Bank.
- 2.7 The pledgor is obliged to adhere to any other legal and operational requirements as specified in the Directive.

3. Security Margin

If at any time the value of the pool of eligible assets pledged with the Bank falls below the total amount of claims granted by the Bank to the pledgor, the pledgor shall on demand, and at the sole discretion of the Bank, either pay to the Bank an amount in cash or alternatively provide further assets to make up for the required margin call, as specified in the Directive.

4. Remedies on default

If the pledgor shall fail to discharge any Indebtedness on demand or shall fail to comply with any obligation to the Bank, without prejudice to any other rights which the Bank may have, the Bank may forthwith proceed according to law for the liquidation and realisation of the credit claim.

5. Set Off and Conversion

5.1 In addition to any rights mentioned in clause 4 and any similar express or implied rights, the Bank may at any time, as continuous right, without notice or demand:

- 5.1.1 set-off against the pledgor's obligation hereunder any money in any account of the pledgor with the Bank, or otherwise held by the Bank on behalf of the pledgor; and

5.1.2 combine and consolidate all or any accounts of the pledgor with the Bank.

5.2 The provisions of this clause shall apply in those cases where the pledgor is the borrower or where the pledgor is also a surety for the borrower.

6. Close-out upon Default

Without prejudice to the provisions of article 17(7) of the Central Bank of Malta Act (Cap. 204), upon the occurrence of an event of default in relation to an indebtedness of the pledgor with the Bank, the Bank may accelerate and terminate all outstanding transactions with the pledgor. The Bank shall appropriate or sell the credit claims pledged with the Bank and shall calculate the value of those claims either in accordance with the Eurosystem valuation policy or at the actual price obtained for their transfer. The calculations of the Bank shall be made available upon request to the pledgor. The Bank shall set-off the value of the credit claims against the aggregate value of the outstanding obligations of the pledgor and may deduct any transaction costs and other expenses incurred or likely to be incurred, including any interest for late payment in accordance with applicable market conventions, and thereafter shall return any excess credit claims or the monetary equivalent thereof to the pledgor.

7. In the event that any of the credit claims are realised during the currency of this continuing pledge, the pledgor hereby irrevocably grants his consent for all proceeds emanating from redemption to be paid to the Bank and be retained by the Bank on his account.

8. The Bank may release or make any arrangement which it deems fit with regard to anything forming the security of the pledgor, and the pledgor hereby renounces to any possible defence which he may have in this regard.

Furthermore, for all intents and purposes, the pledgor renounces to any plea of discussion.

9. Any notice to the pledgor whether by way of request, demand or otherwise shall be deemed served if sent by SWIFT authenticated message or through the post at the address appearing hereon unless a change of address is advised in writing to the Bank by pledgor.

Signed on this day, the _____ of the year _____.

Settlement procedures for Credit Operations

Settlement procedures in connection with monetary policy operations

Table 1: Provision of Liquidity

Instrument	Type of transaction	Mode of settlement	Deadline for payment	Confirmation of trade
<i>Open Market Operations:</i>				
Main refinancing operation	Reverse transactions	TARGET2 payment	2.00 pm (T+1)	SWIFT or fax
Longer-term refinancing operation	Reverse transactions	TARGET2 payment	2.00 pm (T+1)	SWIFT or fax
Fine-tuning operation	Reverse transactions	TARGET2 payment.	Note 1	SWIFT or fax
	Foreign exchange swaps	TARGET2 payment (EUR) against settlement account (non-euro currency).	Note 2	SWIFT or fax
Structural operations	Reverse transactions	TARGET2 payment.	2.00 pm (T+1)	SWIFT or fax
	Outright purchases	TARGET2 payment	2.00 pm (T+1)	SWIFT or fax
<i>Standing Facility:</i>				
Marginal lending facility	Overnight reverse transactions	Settlement in the Reserve Requirement Account	Note 3	SWIFT or fax
		TARGET2 payment	Note 4	SWIFT or fax

Notes:

1. The payment deadline for fine-tuning operations in reverse transactions is 1.30 hrs after the announcement of the tender results.

2. The payment deadline for fine-tuning operations in foreign exchange swaps is 6.00 pm for TARGET2 payments and the correspondent bank cut-off time for the non-euro currency, if this is earlier than 6.00pm.
3. The payment deadline for the marginal lending facility both by counterparty's request or by automatic recourse is 6.15pm (on the last day of the reserve maintenance period the deadline is 6.30pm).
4. For counterparties which are direct or indirect TARGET2 participants, the payment cut-off time is 6.00pm

Table 2: Absorption of Liquidity

Instrument	Type of transaction	Mode of settlement	Deadline for receipt of payment	Confirmation of trade
<i>Open Operations:</i>				
Fine-tuning operation	Reverse transactions	TARGET2 payment.	Note 1	SWIFT or fax
	Collection of fixed-term deposits	TARGET2 payment.		SWIFT or fax
	Foreign exchange swaps	TARGET2 payment (EUR) against settlement account (non-euro currency).	Note 2	SWIFT or fax
Structural operation	Issuance of ECB debt certificates	TARGET2 payment/ by debit of reserve requirement account	10.30 am (T+2)	Note 5
	Outright sales	TARGET2 payment	2.00 pm (T+1)	SWIFT or fax
<i>Standing Facility:</i>				
Deposit facility	Overnight deposits	By debit of the Reserve Requirement Account	Note 3	SWIFT or fax
		TARGET2 payment	Note 4	

Notes:

1. The payment deadline for fine-tuning operations in reverse transactions is 1.30 hrs after the announcement of the tender results.
2. The payment deadline for fine-tuning operations in foreign exchange swaps is 6.00 pm for TARGET2 payments and the correspondent bank cut-off time for the non-euro currency, if this is earlier than 6.00pm.
3. The payment deadline for overnight deposits settled via debit of the reserve requirement account is 6.15pm (6.30pm for the last day of the reserve maintenance period).
4. For access to overnight deposit facility when the counterparty is a direct or indirect TARGET2 participant, till 6.00pm.
5. Not applicable for primary market issuance.

Table 3: Settlement responsibilities

The Bank settles all monetary policy operations via a TARGET2 payment, taking into consideration the following settlement classification of the counterparties:

<i>Counterparty Category</i>	<i>Level of payment finality</i>	<i>The Bank and the Counterparty agree that:</i>
Direct participant in TARGET2	Payment finality up to receipt by direct participant	The Bank has fulfilled its payment obligations towards the counterparty when the account of the counterparty as direct participant in TARGET2 is credited.
Indirect participant in TARGET2	Payment finality up to receipt by indirect participant	The Bank has fulfilled its payment obligations towards the counterparty when the account of the direct TARGET2 participant representing the counterparty in TARGET2 is credited.
Target2 addressable BIC holder	No payment finality for counterparty through TARGET2	The Bank has fulfilled its payment obligations towards the counterparty when the account of the direct

		TARGET2 participant , representing the counterparty is credited.
Correspondent bank account holder	No payment finality for counterparty through TARGET2	The Bank has fulfilled its payment obligations towards the counterparty when the account of the direct TARGET2 participant, representing the correspondent bank of counterparty is credited.

The Bank undertakes to settle the cash transactions due to its counterparties by the deadlines mentioned in tables 1 and 2 and according to the settlement instructions of counterparties. The Bank shall not assume responsibility for any problems related to such cash settlements, such as settlement delays or failures, which are not due to any faults or negligence on the part of the Bank.

Counterparties are responsible to settle their cash payments due to the Bank from the liquidity absorption operation or the repayment of a liquidity injection operation in its direct TARGET2 settlement account by 2.00pm on settlement date (unless otherwise indicated in tables 1 and 2). Counterparties shall assume responsibility for all damages suffered by the Bank resulting from cash settlement delays, incorrect settlement or settlement failures.

Procedures for Collateral Management

The Bank primarily uses the pooling with pledge system for its collateral management function. This means that the Bank will have a pool of collateral for each counterparty, which can include any eligible domestic and foreign marketable and non-marketable assets that will cover the counterparty's total collateral requirement.

A counterparty's total collateral requirement consists of the combined requirements for open market operations transacted with the Bank and the marginal lending facility including interest thereon; and the intraday overdraft amount with the Bank. In the pooling system, the individual collateral assets are not linked to specific credit operations. The pool will cover all the credits granted by the Bank including the intraday overdraft limit.

In calculating the total collateral value of the pool at its disposal, the Bank takes into account the applicable valuation haircuts, depending on the residual maturity, credit quality, coupon structure and liquidity category of the underlying assets as specified in Part 4, Title VI.

The Bank will on a daily basis compare the counterparty's value of the pool of assets against the total amount of claims granted by the Bank. In this way, the Bank will ensure that the counterparty's pool has adequate collateral to cover all its commitments.

If the sum of the Bank's claims against an individual counterparty exceeds the value of its pool of collateral, the Bank will contact the counterparty to increase the pool with additional collateral or to provide additional cash i.e. conducts a margin call. The Bank will notify the counterparty of the required margin call via e-mail.

Procedures for the use of domestic marketable assets as collateral

A counterparty wishing to include marketable assets in the pool of collateral must ensure that the pledge form on marketable assets has been signed.

To pledge collateral in favour of the Bank, the counterparty will send a Receive Free instruction (MT540) to the Bank (see Annex 13). The counterparty will transmit this information to the Bank via SWIFT or, in exceptional circumstances, by fax on fax number + 356 21 247 487 and backed by a phone call on + 356 2550 3609 (fax/call-back). Simultaneously, the counterparty will send a Deliver Free instruction (MT542) to the Malta Stock Exchange (see Annex 13) via SWIFT or in exceptional circumstances by means of fax. Once the Bank receives the confirmation from the Malta Stock Exchange that the collateral has been pledged in favour of the Bank, the Bank will include the collateral in the counterparty's pool.

For same day settlement of collateral, i.e. inclusion of the collateral in the counterparty's pool on the date of delivery of the instruction, the counterparty must submit the instructions to the Malta Stock Exchange and the Bank by 4.00 pm. Any instructions received after 4.00 pm will be rejected.

After the assets are included in the pool of collateral, the value of the pool increases by the value of those assets (adjusted for valuation haircuts).

A counterparty may withdraw marketable assets from the pool of collateral. To withdraw collateral from the pool, the counterparty will send a Deliver Free instruction (MT542) to the Bank (see Annex 13) by 4.00pm. The counterparty will transmit this information to the Bank via SWIFT or else by fax in exceptional circumstances on fax number +356 21 247 487 and backed by a phone call on +356 2550 3609 (fax/call-back). Any instructions received by the Bank after 4.00pm will be rejected. Simultaneously, the counterparty will send a Receive Free instruction (MT540) to the Malta Stock Exchange¹⁹ (see Annex 13).

In effect, the Malta Stock Exchange will register the withdrawal of the asset, once the Bank confirms that it has accepted the withdrawal of the asset from the pool of collateral. Once the Bank receives the security movement confirmation (MT546) from the Malta Stock Exchange, the Bank will exclude collateral from the counterparty's pool of collateral and reduce the counterparty's credit line accordingly.

¹⁹ The counterparty will send the Receive Free instruction to the Malta Stock Exchange via SWIFT or in exceptional circumstances by means of fax.

If the removal of the collateral from the pool will cause the value of the counterparty's pool to decrease below the sum of the Bank's claims against the counterparty, the Bank will reject the withdrawal of the collateral from the pool. In this case, the Bank will send a notification to the counterparty by SWIFT MT548 (Settlement Status Instruction) or else by fax.

If a marketable asset has matured or else becomes ineligible (because it failed to meet the eligibility criteria or because it is already collateralised), the Bank will immediately exclude it from the pool of collateral. The Bank will inform the counterparty by e-mail of the removal of the assets from the pool. However, if the removal of the collateral from the pool will cause the value of the counterparty's pool to decrease below the sum of the Bank's claims against the counterparty, the Bank will inform the counterparty to provide additional collateral.

Marketable assets are valued by the Bank on a daily basis in the morning. The Bank applies valuation principles as described in Article 134 and Annex 10 of the Directive. If the valuation results in a collateral shortfall in a counterparty's pool, a margin call will be required. As a result, the counterparty must cover the shortfall without delay after being so informed by the Bank immediately via e-mail.

Procedures for the use of foreign marketable assets as collateral

The correspondent central bank model (CCBM) has been developed to ensure that eligible marketable assets issued in other Member States can be used to collateralise open market operations, marginal lending facility and intraday credit. Under the CCBM, national central banks act as correspondents and custodians for each other.

To deliver foreign eligible marketable assets through the CCBM as collateral with the Bank, the counterparty must instruct the Bank by means of SWIFT MT540 (Receive Free Instruction) or in exceptional circumstances by fax on fax number +356 21 247 487 and backed by a phone call + 356 2550 3609 (fax /call) (See Annex 13). Simultaneously, the

counterparty must instruct the foreign Securities Settlement System (SSS) to transfer the security to the collateral account maintained by the correspondent central bank [(CCB) (foreign national central bank)] on behalf of the Bank. The counterparty may opt to use its foreign custodian for delivering the collateral.

Once the Bank is informed by the CCB that a transfer has been completed, the assets can be considered as pledged with the Bank and hence added to the counterparty's pool of collateral. When the collateral is included in the pool, the value of the pool increases by the value of those assets (adjusted for valuation haircuts).

To utilise foreign marketable assets as collateral through the CCBM, the counterparty must submit the transfer instruction between 9.00am and 4.00pm. Instructions received after 4.00pm will be rejected.

The counterparty may withdraw foreign marketable assets from the pool of collateral. The counterparty must instruct the Bank by means of SWIFT MT542 (Deliver Free Instruction) or in exceptional circumstances by fax on fax number +356 21 247 487 and backed by a phone call +356 2550 3609 (fax/call-back) (See Annex 13). Simultaneously, the counterparty will also instruct the foreign SSS or the foreign custodian to transfer the asset from the account of the Bank to its account. The cut-off time for the receipt by the Bank of the counterparty's instruction is 4.00pm. Any instructions received after 4.00pm will be rejected.

Once the Bank receives the security movement confirmation (MT546) from the Correspondent Central Bank, the Bank will exclude the security from the counterparty's pool of collateral and adjust the counterparty's credit line accordingly.

If the removal of the collateral from the pool will cause the value of the counterparty's pool to decrease below the sum of the Bank's claims against the counterparty, the Bank will reject the withdrawal of the collateral from the pool. In this case, the Bank will send a notification to the counterparty by SWIFT MT548 or fax.

If a marketable asset has matured or else becomes ineligible (because it failed to meet the eligibility criteria or because it is already collateralised), the Bank will immediately exclude it from the pool of collateral. The Bank will inform the counterparty by e-mail of the removal of the assets from the pool. However, if the removal of the collateral from the pool will cause the value of the counterparty's pool to decrease below the sum of the Bank's claims against the counterparty, the Bank will inform the counterparty to provide additional collateral.

Foreign marketable assets are valued by the Bank on a daily basis in the morning.

The Bank applies valuation principles as described in Article 134 and Annex10 of this Directive. If the valuation results in a collateral shortfall in a counterparty's pool, a margin call will be required. As a result, the counterparty must cover the shortfall without delay after being so informed by the Bank immediately via e-mail.

(3) The receiving intermediary is used only if counterparty is not a direct client of the receiving agent.	

Procedures for the use of domestic credit claims as collateral

The Bank has developed the procedures for managing domestic credit claims, in accordance with the requirements inherent in the Maltese legislation and its operating environment. In fact, in submitting credit claims as collateral that are subject to Maltese law, counterparties must comply with the following procedures as defined by the Bank.

Procedures prior to the use of credit claims as collateral

- To use credit claims as collateral, the counterparty must sign the pledge agreement for credit claims as specified in Annex 13.
- The counterparty should notify the Bank one-month beforehand with its intention to use credit claims as collateral. This one-month notification is only used when the counterparty is going to use credit claims for the first time. Notification should be done by means of a letter as specified in Annex 13 and submitted by email and subsequently by mail. This notice period is necessary so that the Bank ensures that the counterparty is well informed with the procedures established by the Bank for credit claims. During this period, the Bank will ensure that the counterparty has all the necessary forms and documentation. The Bank will also have enough time to assist the counterparty in filling in the forms and to conduct any testing with the counterparty if deemed necessary. Unless, the ECAF source or system chosen by the counterparty has already been submitted to the Bank, the counterparty must submit the chosen ECAF source or system at the moment the counterparty submits the letter specified in Annex 13 with its intention to use credit claims as collateral.

- The counterparty is responsible to give the debtor, ex ante notification for its use of credit claims as collateral for central bank credit operations. Once the debtor acknowledges ex ante notification, the counterparty will submit the confirmation of the ex ante notification document to the Bank by email and subsequently by mail.
- The counterparty should also submit to the Bank, the credit claim contract which can be either an original copy or a certified version of the document. The contract will be kept at the Bank for the duration that the credit claim is pledged as collateral. This document can be delivered by the counterparty either physically or else through registered mail. The counterparty must enclose any payment schedules and other schedules which are deemed necessary for the Bank.
- The counterparty must provide details of the credit claims to the Bank in the form specified in Annex 13. This form specifies the information required on each credit claim.

This schedule will be submitted to the Bank by e-mail and subsequently by mail. The Bank does not permit the counterparty to submit only part of the credit claim as collateral. This means that the full amount of the credit claim submitted to the Bank will be included in the collateral pool of the counterparty.

Use of credit claims as collateral

Once the Bank has all the necessary above-mentioned documentation on day T, the Bank is responsible for conducting eligibility checks on these credit claims. Eligibility checks of the credit claims should be processed within one business day²⁰ i.e.T+1.

Following the eligibility assessment of the credit claim, if the credit claim fulfils all the eligibility criteria, the Bank will confirm the acceptance of the credit claim to the counterparty (as specified in Annex 13). If the credit claim does not fulfil the eligibility criteria, the Bank will also inform the counterparty giving reasons underlying such a

²⁰ This time limit does not apply to the assessment of creditworthiness of the debtor, as performed by the NCBs ICAS.

decision (as specified in Annex 13). In both instances, the Bank will inform the counterparty via e-mail and subsequently by mail.

On T+2, the counterparty whose assets have been assessed as eligible will instruct the Bank by means of SWIFT MT540 (Receive Free Instruction for credit claims) or in exceptional circumstances by fax on fax number +356 21 247 487 and backed by a phone call +356 2550 3609 (fax/call-back) (see Annex13) to include the credit claim in the pool of collateral. The counterparty should send the instruction by 12 noon. Instructions received after 12 noon may be processed in the following business day.

Following the inclusion in the pool of collateral, the Bank will value the credit claims on a daily basis in the morning. The Bank will also monitor the credit claims on a daily basis. The Bank applies the outstanding amount of the credit claim for valuation purposes.

The counterparty has the responsibility to inform the Bank whenever changes in the credit claim details occur. The changes can include early, partial or full repayments i.e. other payments that are not included in the payment schedule submitted by the counterparty with the credit claim contract. Other changes can also include changes in the debtors' creditworthiness or material changes in the conditions of the credit claim. The counterparty notifies the Bank by using the form attached in Annex 13 by filling in the section 'type of operation' with 'updates of characteristics of credit claims' and sending it to the Bank by e-mail and subsequently by mail.. If a change concerning one debtor affects more than one credit claim used as collateral, the counterparty must update the details of all such credit claims.

If the counterparty wishes to withdraw a credit claim from the pool of collateral (not due to a repayment), it must inform the Bank by filling in the template attached in Annex 13 and fill in the section removal of credit claim. The counterparty will send this template by e-mail and subsequently by mail. The counterparty will also instruct the Bank by means of SWIFT MT542 (Deliver Free Instruction for credit claims) or in exceptional circumstances by fax on fax number +356 21 247 487 and backed by a phone call on +356 2550 3609 (fax/call-back) (see Annex 13) to exclude the credit claim from the pool of collateral. The

counterparty should send the instruction by 12 noon. Instructions received after 12 noon may be processed in the following business day. Once the Bank receives the instruction from the counterparty, the Bank will exclude the credit claim from the counterparty's pool. If the removal of the credit claim from the pool will cause the value of the counterparty's pool to decrease below the sum of the Bank's claims against the counterparty, the Bank will reject the withdrawal of the credit claim from the pool. In this case, the Bank will send a notification to the counterparty by SWIFT MT548 or mail.

If a credit claim becomes ineligible, the Bank will immediately exclude it from the pool of collateral. The Bank will inform the counterparty by e-mail of the removal of the credit claim from the pool of collateral. However, if the removal of the credit claim from the pool will cause the value of the counterparty's pool to decrease below the sum of the Bank's claims against the counterparty, the Bank will request the counterparty to supply additional collateral.

Verifications of the existence of and details of credit claims

The Bank will verify the existence and details of credit claims submitted as collateral, in accordance with Eurosystem rules as follows:

- The Bank will send to the counterparty a quarterly summary of credit claims it has submitted as collateral by e-mail and subsequently by mail. The counterparty must check the information, sign the accompanying certification as attached in Annex 13 and return it to the Bank by e-mail and subsequently by mail.
- The Bank will from time to time verify, through random checks the accuracy and timeliness of details of credit claims submitted as collateral. The Bank will notify the counterparty in advance of such investigation visits.

Procedures for the use of foreign credit claims as collateral

The counterparty may also use as collateral, credit claims that are governed by the law of a euro area Member State other than Malta. These foreign credit claims may be used as collateral according to the CCBM described in Part 4, Title IX. The central bank of the country whose law governs the credit claim will act as correspondent central bank (CCB).

In the case of cross-border use of credit claims, the detailed procedures applied in each country are defined by the CCB in compliance with the country's legal requirements. If a Maltese counterparty uses foreign credit claims as collateral, the counterparty must deliver the information required by the CCB.

If credit claims are granted to foreign debtors, even though they are subject to Maltese law, their use as collateral may require specific measures under foreign legislation. In such cases, the central bank of the country where the debtor is located acts as an assisting central bank and provides, as necessary, information on additional measures that may be required under the legislation of the country concerned.

Each Eurosystem national central bank has issued Terms and Conditions to be observed by foreign counterparties whenever such central bank assumes the role of a CCB or assisting central bank. In order to use credit claims as collateral that are governed by the law of a euro area Member State other than Malta or credit claims that have been granted to debtors located in euro area Member State other than Malta, counterparties can access the Terms and Conditions published by the NCBs when acting as CCB or assisting central bank on their respective websites (see Annex 13) and on the ECB's website (www.ecb.europa.eu). When the Bank is acting as a HCB, the counterparty should also submit a copy of the static data requested by the CCB. Such static data is to be sent via e-mail and subsequently by mail.

[Headed Paper of Credit Institutions]

Monetary Operations & Collateral Management
Economics Division
Central Bank of Malta
Castille Place
Valletta VLT1060

[Please insert date]

Dear Sir/Madam

Kindly note that [name of the counterparty] intends to use credit claims as collateral for Eurosystem credit operations under the collateral management framework established by the ECB.

Yours sincerely

[Signed by an authorised person]

General Application Form for the Selection of the Credit Assessment Source or System

Name of the counterparty: _____

Address of the counterparty: _____

Date of the request: _____

Requested information on the credit assessment source or system selection:

Type of selection:

First selection:

Yearly change:

Ad hoc change:

Credit assessment source:

External Credit Assessment Institutions (ECAI):

In-house Credit Assessment systems (ICAS):

(The CBM currently does not provide ICASs)

Counterparties' Internal Rating Based System (IRB):

Name of credit assessment system: _____

Type of credit assessment source/system:

Main:

Additional:

Reasons for the additional credit assessment source/system (details to be enclosed in a separate document):

Requested information on the credit assessment source/system change:

Name of the changed credit assessment source/system: _____

Reasons for the change of credit assessment source/system (details to be enclosed in a separate document):

**Signature of the counterparty's
authorised person:**

**Name in Block Letters of the
counterparty's authorised person:**

--	--

Instructions for completion

- **Type of selection:** the counterparty can select one of the following:
 - **First selection:** the first selection of the credit assessment source or system
 - **Yearly change:** a change of the credit assessment source or system after the period of previous use for one year or more
 - **Ad hoc change:** a change of the credit assessment source or system in the period of use of less than one year.

- **Credit assessment source:** the counterparty need to select the chosen credit assessment source.

- **Name of credit assessment system:** the counterparty must indicate the name of the chosen credit assessment system in the credit assessment source:
 - In case of ECAI, there is no need for the name of the system since all eligible ECAIs can be used;
 - In case of ICAS, the national central bank of the mentioned ICAS need to be stated;
 - In case of IRB, the name of the IRB system should be provided.

- **Type of credit assessment system/source:** the counterparty need to select if the credit assessment system is main or additional. The counterparty can select only one main credit assessment source or system. However, the counterparty can select an additional credit assessment source or system upon submission of a reasoned request.

- **Reasons for the additional credit assessment source/system:** In case of additional credit assessment source or system, the counterparty should give reasons for the additional credit assessment source or system.

Requested information on the credit assessment system/source change

This section needs to be filled out in case of a change in the credit assessment source/system after the period of use of more than one year.

- **Name of the changed credit assessment source/system:** the counterparty should submit the name of the changed credit assessment source/system.
- **Reasons for the change of credit assessment source/system:** the counterparty should describe the reasons for such a change.

Date:

[Name of credit institution] would like to apply to use its IRB system as a primary credit assessment source under the Eurosystem Credit Assessment Framework.

In this regard, the following documents are attached:

- A copy of the decision of the Malta Financial Services Authority or any other relevant banking supervisory authority within the EU authorising [name of credit institution] to use its IRB system for capital requirements purposes on a consolidated or unconsolidated basis, together with any specific conditions for such use.
- Information on the approach to assigning probabilities of default to debtors as well as data on the rating grades and associated one year probabilities of default used to determine eligible rating grades.
- A copy of the Pillar 3 (market discipline) information that is required to be published on a regular basis in accordance with the requirements on market discipline under Pillar 3 of the Basel II framework and the Capital Requirements Directive.

- The name and address of both the relevant banking supervisory authority and the external auditor.

[Name of credit institution] confirms the ability and willingness to comply with any monitoring and reporting requirements set out in the Central Bank of Malta's Documentation on Monetary Policy Instruments and Procedures.

Verification of Credit Claims

[Headed Paper of Credit Institution]

Monetary Operations & Collateral Management
Economics Division
Central Bank of Malta
Castille Place
Valletta VLT1060

Dear Sir/Madam

We confirm that all credit claims submitted by *[name of the credit institution]* to the Central Bank of Malta as collateral for Eurosystem credit operations comply with the eligibility criteria outlined in the Central Bank of Malta Directive No.8 on the Documentation on Monetary Policy Instruments and Procedures.

Additionally, we confirm and warrant that no credit claim submitted as an underlying asset is being simultaneously used as collateral to the benefit of any third party and undertake that we shall not mobilise any credit claim as collateral to any third party. Hence, all credit claims pledged as collateral with the Central Bank of Malta should be unencumbered.

We also confirm and warrant to communicate to the Central Bank of Malta immediately by not later than within the course of the next business day any event which materially affects the actual contractual relationship between us and the Central Bank of Malta, in particularly early, partial or total repayments, downgrades and material changes in the conditions of the credit claim.

Signed by an authorised person

ANNEX 14– ADDITIONAL TEMPORARY MEASURES RELATING TO EUROSYSTEM REFINANCING OPERATIONS AND ELIGIBILITY OF COLLATERAL

1. Additional measures relating to refinancing operations and eligible collateral

The rules for the conduct of Eurosystem monetary policy operations and the eligibility criteria for collateral laid down in this Annex shall apply in conjunction with the other provisions of the Directive.

In the event of any discrepancy between this Annex and the other provisions of the Directive, the former shall prevail. The CBM shall continue to apply all provisions of the Directive unaltered unless otherwise provided for in this Annex.

2. Option to reduce the amount of, or terminate or longer-term refinancing operations

The Eurosystem may decide that, under certain conditions, counterparties may reduce the amount of, or terminate, certain longer-term refinancing operations before maturity (such reduction of the amount or termination hereinafter also collectively referred to as ‘early repayment’). The tender announcement shall specify whether the option to reduce the amount of, or terminate, the operations in question before maturity applies, as well as the date from when such option may be exercised. This information may alternatively be provided in another format deemed appropriate by the Eurosystem.

A counterparty may exercise the option to reduce the amount of, or terminate, longer-term refinancing operations before maturity by notifying the Bank of the amount it intends to repay under the early repayment procedure, as well as of the date on which it intends to make such early repayment, at least one week in advance of that early repayment date. Unless otherwise specified by the Eurosystem, an early repayment may be effected on any day that coincides with the settlement day of a Eurosystem main refinancing operation, provided that the counterparty makes the notification referred to in this paragraph at least one week in advance.

The notification referred to above shall become binding on the counterparty one week before the early repayment date it refers to. Failure by the counterparty to settle, in full or in part, the amount due under the early repayment procedure by due date may result in the imposition of a financial penalty as set out in Article 155 and Annex 7 of the Directive. The provisions of Annex 7 which apply to infringements of rules related to tender operations shall apply where a counterparty fails to settle, in full or in part, the amount due on the early repayment referred to above. The imposition of a financial penalty shall be without prejudice to the Bank's right to exercise the remedies provided for on the occurrence of an event of default as set out in Part 7 of the Directive.

3. Admission of certain additional asset-backed securities

1. In addition to asset-backed securities (ABS) eligible under Part 4 of the Directive, ABS which do not fulfil the credit assessment requirements under Article 82 of the Directive but which otherwise comply with all eligibility criteria applicable to ABS pursuant to this Directive, shall be eligible as collateral for Eurosystem monetary policy operations, provided that they have two ratings of at least triple B²² from any approved ECAI for the issue. They shall also satisfy all the following requirements:

(a) the cash-flow generating assets backing the ABS shall belong to one of the following asset classes: (i) residential mortgages; (ii) loans to small and medium-sized enterprises (SMEs); (iii) auto loans; (iv) leasing receivables and (v) consumer finance loans; (vi) credit card receivables;

(b) there shall be no mix of different asset classes in the cash-flow generating assets;

(c) the cash-flow generating assets backing the ABS shall not contain loans which are any of the following:

²² A 'triple B' rating is a rating of at least 'Baa3' from Moody's, 'BBB-' from Fitch or Standard & Poor's, or a rating of 'BBBL' from DBRS.

- (i) non- performing at the time of issuance of the ABS;
- (ii) non-performing when incorporated in the ABS during the life of the ABS, for example by means of a substitution or replacement of the cash-flow generating assets;
- (iii) at any time, structured, syndicated or leveraged;

(d) the ABS transaction documents shall contain servicing continuity provisions.

2. ABS referred to in paragraph 1 above that does not have two public credit ratings of at least credit quality step 2 in the Eurosystem harmonised rating scale in accordance with Article 82(1)(b) of Guideline (EU) 2015/510 of the European Central Bank (ECB/2014/60)²³ shall be subject to a valuation haircut that depends on their weighted average life as detailed in table below.

2a. The weighted average life of the senior tranche of an ABS shall be estimated as the weighted average time remaining until repayment of the cash flows expected from the tranche. For retained mobilised ABS, the calculation of the weighted average life shall assume that issuer call options will not be exercised.

3. A counterparty may not submit ABS, which are eligible pursuant to sub-paragraph 1 above as collateral, if the counterparty, or any third party with which it has close links, acts as an interest rate hedge provider in relation to ABS.

4. For the purposes of the above:

(1) 'residential mortgage', besides residential real estate mortgage-backed loans, shall include guaranteed residential real estate loans (without a real estate mortgage) if the guarantee is payable promptly on default. Such guarantee may be provided in different

contractual formats, including contracts of insurance, provided they are granted by a public sector entity or a financial institution subject to public supervision. The credit assessment of the guarantor for the purposes of such guarantees must comply with credit quality step 3 in the Eurosystem's harmonised rating scale over the life of the transaction;

(2) 'small enterprise' and 'medium-sized enterprise' shall mean an entity engaged in an economic activity, irrespective of its legal form, where the reported sales for the entity or if the entity is a part of a consolidated group, for the consolidated group is less than EUR50 million;

(3) 'non-performing loan' shall include loans where payment of interest or principal is past due by 90 or more days and the obligor is in default, as defined in Article 178 of Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms and amending Regulation (EU) No 648/2012.²⁴ or when there are good reasons to doubt the payment will be made in full;

(4) 'structured loan' means a structure involving subordinated credit claims;

(5) 'syndicated loan' means a loan provided by a group of lenders in a lending syndicate;

(6) 'leveraged loan' means a loan provided to a company that already has a considerable degree of indebtedness, such as buy-out or take-over financing, where the loan is used for the acquisition of the equity of a company which is also the obligor of the loan;

(7) 'servicing continuity provisions' means provisions in the legal documentation of an ABS that consist of either back-up servicer provisions or back-up servicer facilitator provisions (if there are no back-up servicer provisions). In the case of back-up servicer

²³ Guideline (EU) 2015/510 of the European Central Bank of 19 December 2014 on the implementation of the Eurosystem monetary policy framework (General Documentation Guideline) (ECB/2014/60) (OJ L 91, 2.4.2015, p. 3).

facilitator provisions, a back-up servicer facilitator should be nominated and mandated to find a suitable back-up servicer. In the case of back-up servicer provisions, the back-up servicer shall not have close links to the servicer. In the case of back-up servicer facilitator provisions, there shall not be close links between each of the servicer, the back-up servicer facilitator and the issuer account bank at the same time;

(8) ‘close links’ has the meaning given in Article 138(2) of this Directive;

(9) ‘retained mobilised ABS’ means ABS used in percentage greater than 75% of the outstanding nominal amount by a counterparty that originated the ABS or by entities with close links to the originator.

Valuation haircuts levels (in %) applied to ABS eligible under this Annex

<i>Weighted Average Life</i> (*)	<i>Valuation haircut</i>
[0,1)	4,8
[1,3)	7,2
[3,5)	10,4
[5,7)	12,0
[7,10)	14,4
[10, ∞)	24,0

²⁴(OJ L 176, 27.6.2013, p.1).

[0-1] residual maturity/WAL less than one year, [1-3] residual maturity/WAL equal to or greater than one year and less than three years, etc.

4. Admission of certain additional credit claims

1. The Bank shall accept as collateral for Eurosystem monetary policy operations credit claims that do not satisfy the Eurosystem eligibility criteria in accordance with the terms and conditions laid down in Annex 15.
2. NCBs that decide to accept credit claims in accordance with paragraph 1 shall establish eligibility criteria and risk control measures for this purpose by specifying deviations from the requirements of this Directive. Such eligibility criteria and risk control measures shall include the criterion that the credit claims are governed by the laws of the Member State of the NCB establishing the eligibility criteria and risk control measures. The eligibility criteria and risk control measures shall be subject to the Governing Council's prior approval.
3. In exceptional circumstances the Bank may, subject to the Governing Council's prior approval, accept credit claims:
 - (a) in application of the eligibility criteria and risk control measures established by another NCB pursuant to paragraphs 1 and 2; or
 - (b) governed by the law of any Member State other than Malta, or
 - (c) that are included in a pool of credit claims or backed by real estate assets, if the law governing the credit claim or the relevant debtor (or guarantor, where applicable) is that of any Member State other than Malta.
4. Another NCB shall only provide assistance to the Bank pursuant to paragraph 1 if bilaterally agreed between the Bank and the other NCB and subject to prior approval by the Governing Council.

5. For failure to comply with an obligation referred to in Article 154(1)(c) of this Directive, the sum of the values in breach of such obligation of all non-compliant credit claims included in the pool of credit claims shall be taken into account for the calculation of the financial penalty in accordance with Annex 7 to this Directive.

5. Non-acceptance of certain short-term debt instruments

The Bank shall not accept as collateral for Eurosystem monetary policy operations certain short-term debt instruments that do not satisfy the Eurosystem eligibility criteria for marketable assets laid down in Chapter 1 – Eligibility criteria for marketable assets of this Directive.

6. Admission of certain assets denominated in pounds sterling, yen or US dollars as eligible collateral

1. Marketable debt instruments as described in Part 4 Title II of this Directive, if denominated in pounds sterling, yen or US dollars, shall constitute eligible collateral for Eurosystem monetary policy operations, provided that: (a) they are issued and held/settled in the euro area; (b) the issuer is established in the EEA; and (c) they fulfil all other eligibility criteria included in Part 4 Title II of this Directive.
2. The Eurosystem shall apply the following valuation markdowns to such marketable debt instruments: (a) a markdown of 16% on assets denominated in pounds sterling or US dollars; and (b) a markdown of 26% on assets denominated in yen’.
3. Marketable debt instruments described in sub-paragraph 1 above, which have coupons linked to a single money market rate in their currency of denomination, or to an inflation index containing no discrete range, range accrual, ratchet or similar complex structures for the respective country, shall also constitute eligible collateral for the purposes of Eurosystem monetary policy operations.

4. The ECB may publish a list of other acceptable benchmark foreign currency interest rates, in addition to those referred to in paragraph 3 above, on its website at www.ecb.europa.eu, following approval by the Governing Council.

5. In addition, paragraphs 1 and 3 of this Annex shall also apply to foreign currency denominated collateral.

7. Suspension of the requirements for credit quality thresholds for certain marketable instruments

1. The Eurosystem's minimum requirements for credit quality thresholds, as specified in the Eurosystem credit assessment framework rules for marketable assets in Article 59 of this Directive shall be suspended in accordance with paragraph 2.
2. On the basis of a specific decision of the Governing Council to that effect, the Eurosystem's credit quality threshold shall not apply to marketable debt instruments issued or fully guaranteed by the central government of a euro area Member State under a European Union/International Monetary Fund programme, for as long as such Member State is considered by the Governing Council to comply with the conditionality of the financial support and/or the macroeconomic programme.

8a. Acceptance of marketable debt securities issued by the central government of the Hellenic Republic

1. The Bank may accept as collateral for Eurosystem credit operations marketable debt instruments issued by the central government of the Hellenic Republic that do not satisfy the Eurosystem's credit quality requirements for marketable assets laid down in Articles 59 and 71 and Chapter 2 of Title II of Part Four of this Directive, provided that these instruments comply with all other eligibility criteria applicable to marketable assets and laid down in this Directive.
2. The securities referred to in paragraph 1 that are accepted by the Bank as collateral shall be subject to valuation haircuts as laid down in the Table 2 below.

8b. Admission of certain marketable assets and issuers eligible on 7 April 2020

1. Terms used in this Section have the same meaning as in this Directive.
2. Notwithstanding the provisions of Article 59(3), Article 71 and Article 82(1)(a) of this Directive, marketable assets – other than ABSs – issued on or before 7 April 2020 that on 7 April 2020 had a public credit rating, provided by at least one accepted ECAI system, that complied with the minimum credit quality requirements of the Eurosystem, shall constitute eligible collateral for Eurosystem credit operations provided that, at all times after 7 April 2020:
 - (a) They have a public credit rating provided by at least one accepted ECAI system that complies with, as a minimum, credit quality step 5 in the Eurosystem’s harmonised rating scale; and
 - (b) They continue to comply with all other eligibility criteria applicable to marketable assets as laid down in this Directive.

For the avoidance of doubt, the public credit rating on 7 April 2020, as referred to in this paragraph, shall be determined by the Eurosystem on the basis of the rules set out in Article 82(1)(a), Article 82(2), Article 83, Article 84(a) and (b), Article 85 and Article 86 of this Directive.

3. Where compliance of a marketable asset with the minimum credit quality requirements of the Eurosystem on 7 April 2020 is determined on the basis of an ECAI issuer rating or an ECAI guarantor rating provided by an accepted ECAI system, that marketable asset shall constitute eligible collateral for Eurosystem credit operations provided that, at all times after 7 April 2020:
 - (a) the ECAI issuer rating or the ECAI guarantor rating, as applicable, for that marketable asset complies with, as a minimum, credit quality step 5 in the Eurosystem’s harmonised rating scale; and
 - (b) that marketable asset continues to comply with all other eligibility criteria applicable to it as laid down in this Directive.

4. Marketable assets – other than ABSs – issued after 7 April 2020 whose issuer or guarantor, as applicable, had on 7 April 2020 a public credit rating, provided by at least one acceptable ECAI system, that complied with the minimum credit quality requirements of the Eurosystem, shall constitute eligible collateral for Eurosystem credit operations provided that, at all times after 7 April 2020:

- (a) Those marketable assets have a public credit rating, provided by at least one accepted ECAI system, that complies with, as a minimum, credit quality step 5 in the Eurosystem’s harmonised rating scale; and
- (b) Those marketable assets comply with all other eligibility criteria applicable to marketable assets as laid down in this Directive.

For the avoidance of doubt, the public credit rating referred to in point (a) of this paragraph shall be determined by the Eurosystem on the basis of the rules set out in Article 82(1)(a), Article 82(2), Article 84(a) and (b), Article 85 and Article 86 of this Directive.

5. Covered bonds issued after 7 April 2020 under a covered bond programme that on 7 April 2020 itself had a credit assessment, provided by at least one accepted ECAI system, that complied with the minimum credit quality requirements of the Eurosystem, shall constitute eligible collateral for Eurosystem credit operations provided that:

- (a) At all times after 7 April 2020 the covered bond programme has a public credit rating provided by at least one accepted ECAI system, that complies with, as a minimum, credit quality step 5 in the Eurosystem’s harmonised rating scale, and
- (b) Those covered bonds comply with all other eligibility criteria applicable to them as laid down in this Directive.

6. The marketable assets referred to in Article 87(2) of this Directive that on 7 April 2020 did not have a public credit rating provided by an accepted ECAI system, but that on 7 April 2020 had an implicit credit assessment derived by the Eurosystem in accordance with the rules laid down in Article 87(1) and (2) of this Directive that complied with the credit quality requirements of the Eurosystem, shall constitute eligible collateral for Eurosystem credit operations irrespective of the date of their issuance provided that, at all times after 7 April 2020:

(a) The issuer or guarantor, as applicable, of these marketable assets complies, as a minimum, with a credit quality requirement corresponding to credit quality step 5 in the Eurosystem's harmonised rating scale;

(b) These marketable assets comply with all other eligibility criteria applicable to them as laid down in this Directive.

7. Notwithstanding the provisions of Article 59(3), Article 71 and Article 82(1)(b) of this Directive, ABS issued on or before 7 April 2020 that on 7 April 2020 had at least two public credit ratings, each provided by a different accepted ECAI system, that complied with the minimum credit quality requirements of the Eurosystem under this Directive, shall constitute eligible collateral for Eurosystem credit operations provided that, at all times after 7 April 2020:

(a) They have at least two public credit ratings, each provided by a different accepted ECAI system, that comply with, as a minimum, credit quality step 4 in the Eurosystem's harmonised rating scale; and

(b) They continue to comply with all other eligibility criteria applicable to ABSs as laid down in this Directive.

For the avoidance of doubt, the requirements laid down in Sections 3(1)(a) to (d) and 3(4) of this Annex shall not apply to the ABS referred to in this paragraph.

8. ABS that on 7 April 2020 were admitted by the Eurosystem as eligible collateral under Section 3(1) of this Annex shall remain eligible provided that, at all times after 7 April 2020:

(a) They have two public credit ratings of at least credit quality step 4 in the Eurosystem's harmonised rating scale provided by two accepted ECAI systems; and

(b) They continue to comply with all other requirements applicable to them under Section 3(1) (except the rating level), Section 3(2a) and Section 3(4) of this Annex.

For the avoidance of doubt, Section 3(2) and Section 3(5) of this Annex shall not apply to the ABS referred to in this paragraph.

9. For as long as they continue to be admitted as eligible collateral by the Eurosystem according to this Section, the marketable assets, including covered bonds, referred to in paragraphs 2 to 6 above shall be subject to the valuation haircuts laid down in Table 2 of this Annex. The ABS referred to in paragraphs 7 and 8 shall be subject to the valuation haircuts laid down in Table 1 of this Annex. The valuation haircuts shall be calculated on the basis of the current rating applicable on any given date after 7 April 2020 in accordance with the rules relating to priority of ECAI credit assessments as set out in Articles 83 to 88 of this Directive.

10. In addition to the valuation haircuts provided in paragraph 9, the following additional valuation haircuts shall apply:

(a) ABS, covered bonds and unsecured debt instruments issued by credit institutions that are theoretically valued in accordance with the rules contained in Article 134 of this Directive shall be subject to an additional valuation haircut in the form of a valuation markdown of 4%;

(b) Own-use covered bonds shall be subject to an additional valuation haircut of (i) 6.4% applied to the value of the debt instruments allocated to credit quality steps 1 and 2 and (ii) 9.6% applied to the value of the debt instruments allocated to credit quality steps 3, 4 and 5;

(c) For the purpose of paragraph (b); ‘own-use’ shall mean the submission or use by a counterparty of covered bonds that are issued or guaranteed by the counterparty itself or by any other entity with which that counterparty has close links as determined in accordance with Article 138 of this Directive;

(d) If the additional valuation haircut referred to in paragraph (b) cannot be applied with respect to a collateral management system of an NCB, triparty agent, or TARGET2-Securities for auto-collateralisation, the additional valuation haircut shall be applied in such systems or platform to the entire issuance value of the covered bonds that can be own used.

11. For the avoidance of doubt, the provisions of this Article are independent from and shall not be taken into account for the purposes of assessing eligibility for outright purchases under the secondary markets public sector assets programme (PSPP)²⁵, the third covered bond purchase programme (CBPP3)²⁶, the asset-backed securities purchase programme (ABSPP)²⁷, the corporate sector purchase programme (CSPP)²⁸ and the pandemic emergency purchase programme (PEPP)²⁹.

²⁵ Decision (EU) 2020/188 of the European Central Bank of 3 February 2020 on a secondary markets public sector assets purchase programme (recast) (ECB/2020/9) (OJ L39, 12.2.2020, p.12).

²⁶ Decision (EU) 2020/187 of the European Central Bank of 3 February 2020 on the implementation of the third covered bond purchase programme (ECB/2020/8) (OJ L39, 12.2.2020, p.6).

²⁷ Decision (EU) 2015/5 of the European Central Bank of 19 November 2014 on the implementation of the asset-backed securities purchase programme (ECB/2014/45) (OJ L 001 6.1.2015, p.4).

²⁸ Decision (EU) 2016/948 of the European Central Bank of 1 June 2016 on the implementation of the corporate sector purchase programme (ECB/2016/16) (OJ L 157 15.6.2016, p.28).

²⁹ Decision (EU) 2020/440 of the European Central Bank of 24 March 2020 on a temporary pandemic emergency purchase programme (ECB/2020/17) (OJ L 91 25.3.2020, p.1).

ANNEX 15: ACCEPTANCE OF ADDITIONAL CREDIT CLAIMS UNDER THE ADDITIONAL CREDIT CLAIMS FRAMEWORK

This Annex establishes the terms and conditions of the domestic additional credit claims framework (the ‘ACC framework’) as approved by the Governing Council for individual credit claims granted by credit institutions in Malta accredited by the Malta Development Bank (MDB) (the ‘accredited credit institutions’) under the Coronavirus disease 2019 (COVID-19) Government Guarantee Scheme (the ‘Scheme’).

The implementation of the domestic ACC framework vests in the Bank in terms of articles 5(1)(a), (c) and 17(1)(e) of the Act. The terms and conditions set out in this Annex shall apply temporarily, until the Governing Council considers that they are no longer necessary to facilitate the availability of eligible collateral for Eurosystem counterparties to participate in liquidity providing operations.

1. Temporary nature of Additional Credit Claims governed by the COVID-19 Government Guarantee Scheme

1.1 To ensure that banks have full access to central bank liquidity, even in adverse circumstances, the Eurosystem made it possible for NCBs to temporarily accept additional types of collateral, including additional credit claims (ACCs). NCBs are thereby allowed to take into account specific conditions in their respective countries, such as the types of collateral available or special legal and operational circumstances.

1.2 ACCs are credit claims that do not fulfil all the eligibility criteria applicable under this Directive. To compensate for the associated higher risks, the NCBs impose higher valuation haircuts.

1.3 Every NCB may set up a country-specific ACC framework, which shall be approved by the Governing Council on the basis of a common minimum risk control framework.

- 1.4 COVID-19 has been characterised by the World Health Organization as a pandemic and is the cause of a collective public health emergency which is unprecedented in recent history. It has produced an extreme economic shock that requires coordinated and urgent reaction on all policy fronts to support businesses and workers at risk.
- 1.5 The Government of Malta (the ‘Government’) announced its measures as part of the Coronavirus Response Support Programme on 18 March 2020, to assist business enterprises which are facing liquidity shortages and which cannot meet new working capital requirements due to the effects of the COVID-19 pandemic.
- 1.6 A guarantee fund for the value of €350,000,000 (three hundred and fifty million euro) has been set up for the purposes of guaranteeing loans granted by the accredited credit institutions to meet the new working capital requirements of corporates, undertakings and businesses in Malta facing liquidity shortages due to the effects of the COVID-19 pandemic (the ‘Guarantee Fund’).
- 1.7 On 3 April 2020, the Government delegated to the MDB the development, setting up, implementation and management of the COVID-19 Guarantee Scheme with the Guarantee Fund which will enable accredited credit institutions to generate new lending to eligible businesses up to a total covered loan portfolio for the value of €778,000,000 (seven hundred and seventy-eight million euro).
- 1.8 The Scheme was approved by the European Commission on 2 April 2020 under the EU Temporary Framework for State Aid measures to support the economy in the current COVID-19 outbreak as adopted on 19 March 2020 (C(2020) 1863), as amended (the EU Temporary Framework), (State Aid SA. 56843 - Malta), including a sub-Scheme on MDB Covid-19 Small Loan Guarantee sub-Scheme (CSLG) (State Aid SA.57961 (2020/N) – Malta).
- 1.9 By means of an unconditional and irrevocable instrument dated 3 April 2020, the Government guaranteed, subject to criteria as approved under the EU Temporary

Framework, to pay to MDB upon its first demand all outstanding obligations of MDB in relation to claims by accredited credit institutions in respect of client default to repay the loans covered by the Scheme up to €350,000,000 (three hundred and fifty million euro) (the ‘Government Guarantee’).

1.10 On 7 April 2020 the Governing Council decided to temporarily allow an extension of the ACC framework with the possibility for NCBs to include loans backed by COVID-19-related public sector guarantees to corporates, SMEs, self-employed individuals, and households. Without these guarantees, the loans would be either subject to higher risk-related haircuts or would not be eligible under the ACC framework at all.

2. Eligibility criteria

2.1 ACCs are subject to the eligibility criteria laid down in articles 89 – 91 and 94 – 97 of this Directive.

2.2 Eligible ACCs under the ACC framework shall comprise ACCs issued by counterparties as part of the Scheme.

2.3 Eligible credit claims are exclusively available to counterparties accredited by the MDB, meaning that only MDB-accredited counterparties may participate in Eurosystem credit operations by pledging credit claims that fall under this Annex.

3. Prerequisites for counterparty participation

3.1 Counterparties shall be required to mobilise the entire portfolio of credit claims under the Scheme to ensure that the Bank is the sole ultimate beneficiary of the guarantee facility, should the counterparty be in default, and thereby mitigate depletion risk in favour of the Bank. Nonetheless, credit claims which do not fulfil the eligibility criteria shall have a 100% haircut.

3.2 The entire portfolio of credit claims shall be fully transferable and mobilised freely and without restriction as collateral for the benefit of the Eurosystem. The counterparty's portfolio shall always be pledged in their entirety until the counterparty opts to refrain from utilising such assets as collateral.

3.3 The Bank, the MDB and the counterparty shall enter into a tripartite agreement in order to regulate their respective rights and obligations in relation to the implementation of the Scheme and the ACC Framework (the 'Tripartite Agreement'). The Tripartite Agreement shall be read in conjunction with this Annex, which establishes the terms and conditions of the domestic ACC framework as approved by the Governing Council for individual credit claims granted to accredited credit institutions.

3.4 Upon the above prerequisites in paragraphs (3.1) - (3.3) being satisfied, the Bank shall notify the counterparty that the mobilisation process has been completed and liquidity may be provided against such credit claims.

4. Handling procedures

4.1 Credit claims under the ACC framework shall be handled in line with the procedures established by the Bank in accordance with this Directive including the procedures provided in this Annex.

5. Additional legal requirements for ACCs

5.1 The provisions of Article 99 of this Directive shall apply *mutatis mutandis* to ACCs in terms of this Annex.

6. Verifications of the procedures and systems used to submit ACCs

6.1 The provisions of Article 100 of this Directive shall apply *mutatis mutandis* to ACCs in terms of this Annex.

7. Verification of existence of ACCs

7.1 The Bank shall, as a minimum, take all of the following steps to verify the existence of the ACCs mobilised as collateral:

- (a) It shall obtain a written confirmation from counterparties, at least each quarter, by which counterparties shall confirm:
 - (i) the existence of the ACCs (this confirmation could be replaced with cross-checks of information held in central credit registers);
 - (ii) the compliance of ACCs with the eligibility criteria established by the Eurosystem and the MDB;
 - (iii) the ACCs shall not be simultaneously used as collateral to the benefit of any third party;
 - (iv) the ACCs shall not be mobilised as collateral to any third party;
 - (v) the counterparty shall undertake to communicate to the Bank no later than within the course of the next business day, any event that materially affects the contractual relationship between the counterparty and the Bank, in particular early, partial or total repayments and material changes in the conditions of the credit claim;
 - (vi) that the counterparty shall undertake to communicate to the Bank no later than within the course of the next business day that the utilisation of the portfolio guarantee cap incorporated within the Scheme has materially changed to the extent that the applicable valuation haircuts have changed;
- (b) The Bank shall perform checks to ensure:
 - (i) the existence of the ACCs;
 - (ii) the ACCs fall under the Scheme and are thereby eligible;
 - (iii) the quality and accuracy of written confirmations by counterparties;
 - (iv) the characteristics of the ACCs are correct.

7.2 The Bank may thereby request counterparties to submit the agreements they have with the MDB and the loan agreements signed by the debtor (together with the repayment schedule). These are to be true copies of the original and in electronic format.

8. Validity of the agreement for the mobilisation of ACCs

8.1 The provisions of Article 102 of this Directive shall apply *mutatis mutandis* to ACCs in terms of this Annex.

9. Full effect of the mobilisation vis-à-vis third parties

9.1 The provisions of Article 103 of this Directive shall apply *mutatis mutandis* to ACCs in terms of this Annex.

10. Absence of restrictions concerning mobilisation and realisation of ACCs

10.1 The provisions of Article 104 of this Directive shall apply *mutatis mutandis* to ACCs in terms of this Annex.

11. Absence of restrictions concerning banking secrecy and confidentiality

11.1 The provisions of Article 105 of this Directive shall apply *mutatis mutandis* to ACCs in terms of this Annex.

12. Risk control measures

12.1 The Bank shall apply a dynamic valuation haircut schedule that considers the CQS of the guarantor, the residual maturity, interest rate type, and the amount of guarantee claimed as a percentage of a counterparty's portfolio.

12.2 Set-off risk has been mitigated by accepting as collateral ACCs by means of a valuation markdown of 15% applicable to non-public entity debtors and 24% applicable to public entity debtors within the valuation haircut applicable to ACCs as indicated in Tables 1-4 below. This markdown can be subject to revisions as required.

12.3 The credit quality of ACCs shall be assessed based solely on the CQS of the Government, which shall be, as a minimum, CQS5. The credit quality of debtors shall be ignored in all cases.

12.4 The credit quality of the Government shall be assessed by ECAF-approved ECAIs only.

Table 1: Haircut Schedule for CQS 1&2 – Non-Public Entity Debtors

Guarantor CQS 1&2	Residual Maturity <1 year		Residual Maturity 1 – 3 years		Residual Maturity 3 – 5 years		Residual Maturity 5 – 6 years	
	Haircut for credit claims (accepted at nominal) - Fixed interest payment	Haircut for credit claims (accepted at nominal) - Floating interest payment	Haircut for credit claims (accepted at nominal) - Fixed interest payment	Haircut for credit claims (accepted at nominal) - Floating interest payment	Haircut for credit claims (accepted at nominal) - Fixed interest payment	Haircut for credit claims (accepted at nominal) - Floating interest payment	Haircut for credit claims (accepted at nominal) - Fixed interest payment	Haircut for credit claims (accepted at nominal) - Floating interest payment

≥50	100%	100%	100%	100%	100%	100%	100%	100%

i.e. [0-5] tranche cumulative losses less than 5%, [5-10] tranche cumulative losses equal to or greater than 5% and less than 10%, etc.

i.e. [0-1] residual maturity less than one year, [1-3] residual maturity equal to or greater than one year and less than three years, etc.

13. Valuation

13.1 Valuation of ACCs shall be based on the nominal amount outstanding.

13.2 Daily valuation shall be conducted as part of the normal pool of collateral pledged with the Bank as described in Annex 13.
